H12-821_V1.0 Certification Dumps Pass Certify| High-quality H12-821_V1.0 Download Free Dumps: HCIP-Datacom-Core Technology V1.0

P.S. Free & New H12-821_V1.0 dumps are available on Google Drive shared by Fast2test: https://drive.google.com/open?id=11PQOZiUGTj62binplqFKLW5fvN6ebdz_

There is an irreplaceable trend that an increasingly amount of clients are picking up H12-821_V1.0 practice materials from tremendous practice materials in the market. There are unconquerable obstacles ahead of us if you get help from our H12-821_V1.0 practice materials. So many exam candidates feel privileged to have our H12-821_V1.0 practice materials. Your aspiring wishes such as promotion chance, or higher salaries or acceptance from classmates or managers and so on. And if you want to get all benefits like that, our H12-821_V1.0 practice materials are your rudimentary steps to begin.

Normally IT workers have two purposes to test for certification: one is just for certification as of job demand; two is setting one goal for striving. Why do you try our H12-821_V1.0 new exam guide materials? Our products are valid tested by more than 6000 candidates and can help you clear exam certainly. Forget your puzzled and distressed mood, choosing our Huawei H12-821_V1.0 new exam guide materials will help you success without any doubt.

Huawei HCIP-Datacom-Core Technology V1.0 Sample Questions (Q994-Q999):

NEW QUESTION # 994
Which of the following descriptions of the PIM-DM multicast distribution tree are correct? (Multiple choice)

- A. The status does not change. The multicast distribution tree will always exist and remain unchanged after it is formed.
- B. When maintaining the multicast distribution tree, status refresh messages can be sent to ensure the upstream access of the multicast routing table entries.
- C. When maintaining the multicast distribution tree, you can continue to send multicast packets to ensure that multicast routing table entries can always exist.
- D. The first formation of a multicast distribution tree mainly relies on the diffusion mechanism, pruning mechanism, assertion mechanism and DR election mechanism.

Answer: B,C,D

NEW QUESTION # 995
On an IS-IS network, the length and components of a NET are the same as those of an NSAP. Which of the following NET fields is used to uniquely identify a host or router in an area?

- A. Area Address
- B. SEL
- C. IDI
- D. System ID

Answer: D

Explanation:
Comprehensive and Detailed In-Depth Explanation:
* NET (Network Entity Title) is a special form of NSAP (Network Service Access Point) used in IS- IS routing.
* NET consists of three fields:
* AFI (Authority and Format Identifier) + IDI (Initial Domain Identifier) + Area Address # Identifies the area.
* System ID # Uniquely identifies a router within an area (similar to an OSPF Router ID).
* SEL (NSEL - N-selector) # Always 0 in a NET, as IS-IS operates at Layer 3.
* Since System ID uniquely identifies a host/router within an area, the correct answer is A.
# Reference: Huawei HCIA-Datacom Study Guide, IS-IS Addressing and NET Structure.

NEW QUESTION # 996
Which of the following statements about the forwarding plane of switching equipment is incorrect?

- A. Statistics of messages can be realized
- B. Provide high-speed non-blocking data channel
- C. Composed of main control board and interface board
- D. Realize packet encapsulation and decapsulation

Answer: C

NEW QUESTION # 997
GRE is a VPN technology that can implement packet transmission over heterogeneous networks. Which of the following statements are true about GRE?

- A. GRE tunnels can extend the working range of network protocols with hop limits.
- B. GRE enables encapsulated data packets to be transmitted over another network layer protocol, butcannot encapsulate multicast data.
- C. GRE tunnels can work with IPsec to ensure the security of multicast services such as voice and video.
- D. GRE is a Layer 2 VPN encapsulation technology.

Answer: A,C

Explanation:
Comprehensive and Detailed Step-by-Step Explanation:
1. What is GRE (Generic Routing Encapsulation)?
GRE is a tunneling protocol that allows the encapsulation of various types of packets (e.g., IPv4, IPv6, multicast, etc.) to be transmitted over another protocol (e.g., IP).
GRE is used to create point-to-point connections over heterogeneous networks.
2. Analysis of Each Option:
Option A: GRE is a Layer 2 VPN encapsulation technology.
Incorrect.
GRE operates at Layer 3 (Network Layer) and encapsulates Layer 3 packets. It is not a Layer 2 VPN encapsulation technology like MPLS or Ethernet-over-IP.
Option B: GRE enables encapsulated data packets to be transmitted over another network layer protocol, but cannot encapsulate multicast data.
Incorrect.
GRE supports the encapsulation and transmission of multicast data packets. This is one of its key features, making it suitable for protocols like OSPF and multicast applications.
Option C: GRE tunnels can work with IPsec to ensure the security of multicast services such as voice and video.
Correct.
GRE by itself does not provide encryption or security. However, GRE can work with IPsec to secure the encapsulated traffic, including multicast data, for services like voice and video.
Option D: GRE tunnels can extend the working range of network protocols with hop limits.
Correct.
GRE encapsulates packets, effectively resetting their hop limits and allowing protocols with limited hop counts (e.g., RIP) to work over larger networks.
3. Summary:
The correct options areCandD.
Reference:
Huawei HCIA-Datacom Study Guide, Chapter "GRE Tunnel Technology."
RFC 2784: Generic Routing Encapsulation (GRE).

NEW QUESTION # 998
In an MST region, MSTP independently calculates an MSTI for each VLAN based on mappings between VLANs and MSTIs.
Which of the following statements is false about the characteristics of MSTIs?

- A. Spanning trees of MSTIs can have different roots and topologies.
- B. The spanning tree calculation method of each MSTI is similar to that in STP.
- C. Each MSTI sends BPDUs only on its own spanning tree.
- D. A port must have the same spanning tree parameter settings for different MSTIs.

Answer: D

Explanation:
A is false- Ports in MSTP can havedifferent roles and statesin different MSTIs. Each MSTI can independently elect a root and compute its own topology, which results indifferent port states per MSTI.
B is true- MSTIs use thesame spanning tree algorithmas STP (and RSTP)for calculating the spanning tree topology.
C is true- Each MSTI may have adifferent root bridgeand separate topology, depending on VLAN mappings.
D is true- MSTIs do not independently send BPDUs;only MSTI 0 (CIST)actually sends BPDUs, and information about other MSTIs is encapsulated within it. So thestatement is worded to test conceptual understanding, but not incorrect in MSTP context as framed.
Reference from Huawei HCIP-Datacom-Core Technology Study Guide:
"MSTP allows different MSTIs to have different topologies. A port may be forwarding in MSTI 1 but blocking in MSTI 2. This independence improves VLAN-based traffic engineering." (Chapter: MSTP Concepts - Section: MSTI Behavior and Port Roles)

Computers are changing our life day by day. We can do many things on computers. Technology changes the world. If you have dream to be a different people, obtaining a Huawei certification will be the first step. H12-821_V1.0 learning materials will be useful for you. As you can see the Forbes World's Billionaires List shows people starting bare-handed are mostly engaging in IT field. H12-821_V1.0 Learning Materials may be the first step to help you a different road to success.

H12-821_V1.0 Download Free Dumps: https://www.fast2test.com/H12-821_V1.0-premium-file.html

There is no chance of losing the exam if you rely on H12-821_V1.0 study guides, As long as you study with our H12-821_V1.0 exam questions, we won't let you suffer the loss of the money and energy and you will pass the H12-821_V1.0 exam at the first try, The second and third formats are Web-based and desktop Huawei H12-821_V1.0 practice test software, We believe that the greatest value of H12-821_V1.0 training guide lies in whether it can help candidates pass the examination, other problems are secondary.

Finding a good paying job is available for you, The root of a Web site is the main directory that contains files and other directories, There is no chance of losing the exam if you rely on H12-821_V1.0 Study Guides.

HCIP-Datacom-Core Technology V1.0 exam simulators & H12-821_V1.0 exam torrent

As long as you study with our H12-821_V1.0 exam questions, we won't let you suffer the loss of the money and energy and you will pass the H12-821_V1.0 exam at the first try.

The second and third formats are Web-based and desktop Huawei H12-821_V1.0 practice test software, We believe that the greatest value of H12-821_V1.0 training guide lies in whether it can help candidates pass the examination, other problems are secondary.
