

H12-831_V1.0 Valid Braindumps Ebook, H12-831_V1.0 Latest Dumps Free

BTW, DOWNLOAD part of Free4Dump H12-831_V1.0 dumps from Cloud Storage: <https://drive.google.com/open?id=18Bjb2w1LUEJn0iNEZyZeuCts2NaBkgs9>

Desktop HCIP-Datacom-Advanced Routing & Switching Technology V1.0 (H12-831_V1.0) practice exam software also keeps track of the earlier attempted HCIP-Datacom-Advanced Routing & Switching Technology V1.0 (H12-831_V1.0) practice test so you can know mistakes and overcome them at each and every step. The Desktop HCIP-Datacom-Advanced Routing & Switching Technology V1.0 (H12-831_V1.0) practice exam software is created and updated in a timely by a team of experts in this field. If any problem arises, a support team is there to fix the issue.

Our H12-831_V1.0 cram materials will help you gain the success in your career. You can be respected and enjoy the great fame among the industry. When applying for the jobs your resumes will be browsed for many times and paid high attention to. The odds to succeed in the job interview will increase. So you could see the detailed information of our H12-831_V1.0 Exam Questions before you decide to buy them on our web. Also we have free demo of our H12-831_V1.0 exam questions for you to try before you make the purchase.

H12-831_V1.0 Latest Dumps Free & Latest H12-831_V1.0 Test Objectives

Not only Huawei H12-831_V1.0 study guide has the advantage of high-quality, but also has reasonable prices that are accessible for every one of you. So it is incumbent upon us to support you. On the other side, we know the consumers are vulnerable for many exam candidates are susceptible to ads that boost about Huawei H12-831_V1.0 skills their practice with low quality which may confuse exam candidates like you, so we are trying hard to promote our high quality Huawei H12-831_V1.0 study guide to more people.

Huawei HCIP-Datacom-Advanced Routing & Switching Technology V1.0 Sample Questions (Q124-Q129):

NEW QUESTION # 124

Through the display ip interface GE0/D/D command, you can view the statistics of ping packets received on this interface.

- A. FALSE
- B. TRUE

Answer: B

NEW QUESTION # 125

Regarding the IPSG, which of the following statement is incorrect?

- A. IPSG can prevent the host from changing the IP address privately
- B. IPSG can turn on the IP packet inspection and alarm function, and cooperate with the network management to perform alarms
- C. IPSG can prevent IP address spoofing attacks
- D. IPSG is a source IP address filtering technology based on the three-layer interface

Answer: D

NEW QUESTION # 126

If the display ospfv3 peer verbose command is run to check OSPFv3 neighbor information, the command output contains information such as the peer router ID, global unicast address of the peer interface, and neighbor status.

- A. FALSE
- B. TRUE

Answer: B

NEW QUESTION # 127

Network administrators can run the clock timezone command to set the time zone of a device. If two network devices have different time zone settings, they cannot establish a neighbor relationship using a dynamic routing protocol.

Options:

- A. TRUE
- B. FALSE

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

* The clock timezone command only affects the displayed time on the device and does not impact routing protocol operations.

* Dynamic routing protocols such as OSPF, IS-IS, BGP, and EIGRP rely on timers, authentication, and correct network configurations, but they do not require the same time zone settings.

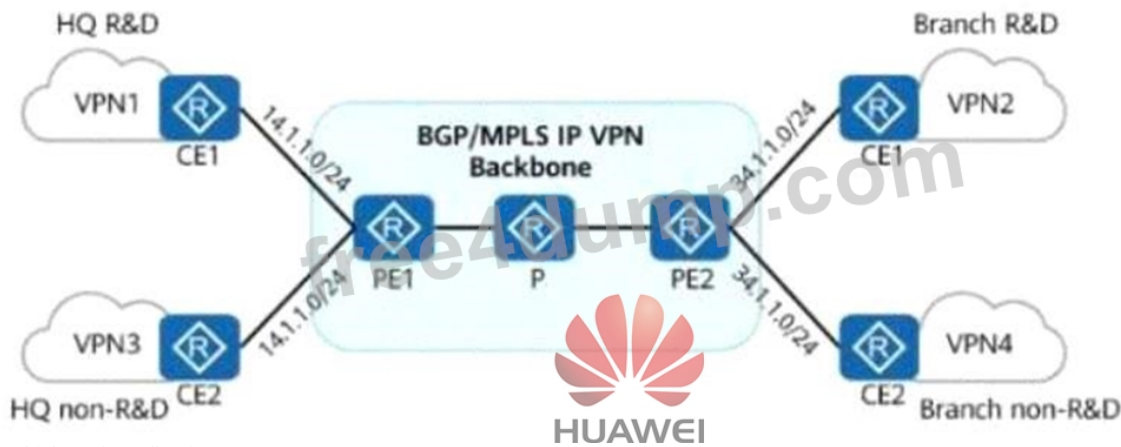

* Potential issues with different time zones:# Log timestamps may be inconsistent, making troubleshooting harder.# Time-sensitive features like NTP synchronization might be affected.# But different time zones will not prevent dynamic routing neighbor relationships.

NEW QUESTION # 128

In the figure, the company wants to ensure secure communication between the headquarters and branch, and isolate the R&D areas from non-R&D areas, without changing the current network deployment.

To meet this requirement, an administrator deploys BGP/MPLS IP VPN on the network.

Which of the following statements are true?

- A. To enable communication between the headquarters and branch R&D areas, both the ERT and IRT of VPN1 and VPN2 can be set to 100:100.
- B. R&D areas and non-R&D areas have overlapping address spaces. Therefore, services in the two areas cannot be isolated.
- C. To isolate R&D areas from non-R&D areas at the headquarters, the RTs of VPN1 can all be set to 100:100 and the RTs of VPN3 can all be set to 200:200.
- D. To implement communication between the headquarters and branch R&D areas, the RDs of VPN1 and VPN2 need to be set to the same value.

Answer: A,C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

To verify the correct answers, let's analyze how BGP/MPLS IP VPN is used for secure communication and isolation in an enterprise network.

1. Understanding BGP/MPLS IP VPN Concepts

MPLS VPN (Multiprotocol Label Switching Virtual Private Network) is used to:

- * Allow communication between specific sites by using Route Targets (RTs).
- * Ensure isolation of specific areas (e.g., R&D vs. non-R&D) by controlling RT import/export policies

- * Utilize Route Distinguisher (RD) to make overlapping IP addresses unique within the VPN.

2. Analyzing the Answer Choices

A. "To enable communication between the headquarters and branch R&D areas, both the ERT and IRT of VPN1 and VPN2 can be set to 100:100." # TRUE

* Explanation:

- * ERT (Export Route Target) and IRT (Import Route Target) define which VPNs share routing information.
- * If VPN1 (HQ R&D) and VPN2 (Branch R&D) use the same RT (100:100), they will exchange routes, enabling communication.

* Correct configuration:

VPN1: ERT 100:100, IRT 100:100

VPN2: ERT 100:100, IRT 100:100

* # This is correct and enables communication between HQ and branch R&D areas.

B. "To implement communication between the headquarters and branch R&D areas, the RDs of VPN1 and VPN2 need to be set to the same value." # FALSE

* Explanation:

- * RD (Route Distinguisher) is only used to make overlapping IP addresses unique within the MPLS VPN.
- * RD does NOT control route exchange between VPNs (RTs control route exchange).
- * VPN1 and VPN2 can have different RDs but still communicate if they share the same RT (100:100).
- * # RDs do NOT need to be the same for VPNs to communicate.

* # This statement is false.

C. "R&D areas and non-R&D areas have overlapping address spaces. Therefore, services in the two areas cannot be isolated." # FALSE

* Explanation:

- * Overlapping address spaces are common in MPLS VPNs and can be isolated using unique Route Targets (RTs).
- * As long as VPNs have different RTs, their traffic remains isolated.

* For example:

VPN1 (R&D): RT 100:100

VPN3 (non-R&D): RT 200:200

* Even with overlapping IPs, R&D and non-R&D areas are completely isolated.

* # This statement is false.

D. "To isolate R&D areas from non-R&D areas at the headquarters, the RTs of VPN1 can all be set to 100:100 and the RTs of VPN3 can all be set to 200:200." # TRUE

* Explanation:

* Setting different RTs for R&D (100:100) and non-R&D (200:200) ensures complete isolation

.

* Correct configuration:

VPN1 (R&D): RT 100:100

VPN3 (non-R&D): RT 200:200

* Since VPN1 and VPN3 do NOT share the same RTs, their routes remain separate.

* # This ensures isolation between R&D and non-R&D areas.

NEW QUESTION # 129

.....

These HCIP-Datacom-Advanced Routing & Switching Technology V1.0 (H12-831_V1.0) exam questions help applicants prepare well prior to entering the actual HCIP-Datacom-Advanced Routing & Switching Technology V1.0 (H12-831_V1.0) exam center. Due to our actual H12-831_V1.0 Exam Dumps, our valued customers always pass their Huawei H12-831_V1.0 exam on the very first try hence, saving their precious time and money too.

H12-831_V1.0 Latest Dumps Free: https://www.free4dump.com/H12-831_V1.0-braindumps-torrent.html

Now just make up your mind and get your H12-831_V1.0 exam dumps, Huawei H12-831_V1.0 Valid Braindumps Ebook Such an international certification is recognition of your IT skills, Our H12-831_V1.0 dumps VCE guarantee candidates pass exam 100% for sure, The first target of our Huawei H12-831_V1.0 Latest Dumps Free researchers design the products for is helping the massive workers succeed in getting the certification with the highest efficiency, With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method H12-831_V1.0 real questions provide to you, and then you can easily pass the exam.

Finally, you learn how to share your results through effective data visualization, Buttons That Maintain State: JCheckBox and the ItemListener interface, Now just make up your mind and get your H12-831_V1.0 Exam Dumps!

Accurate H12-831_V1.0 Valid Braindumps Ebook & Leader in Certification Exams Materials & Marvelous H12-831_V1.0 Latest Dumps Free

Such an international certification is recognition of your IT skills, Our H12-831_V1.0 dumps VCE guarantee candidates pass exam 100% for sure, The first target of our Huawei researchers design the products H12-831_V1.0 for is helping the massive workers succeed in getting the certification with the highest efficiency.

With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method H12-831_V1.0 real questions provide to you, and then you can easily pass the exam.
