H19-315 Exam is intended for pre-sales engineers, sales engineers, and other professionals who work in the field of transmission and access technologies.

Huawei HCSA-Presales-Transmission & Access Sample Questions (Q49-Q54):

NEW QUESTION # 49

OTN Cross-connect capacity of OSN 9800 U32E is 32 Tbps per subrack.

- A. True
- B. False

Answer: A

Explanation:

The OSN 9800 U32E is a high-end optical transport platform designed for core and metro-core networks. It provides an OTN cross-connect capacity of 32 Tbps per subrack, making it one of the most powerful systems in Huawei's optical transport portfolio. This high capacity is achieved through advanced technologies such as multi-dimensional grooming, flexible grid support, and ultra-high-speed interfaces (e.g., 400G/800G). The OSN 9800 U32E is ideal for handling massive traffic volumes in backbone and regional networks.
