- C. Create flow for the business process.
- D. Create an action plan template add flow and published the template.

Answer: C,D

Explanation:
Explanation
Reference and details below.

Set Up Your Action Plan Templates

Your users can use the action plan templates you define to create different types of visits. An action plan template adds a set of assessment tasks to a visit that your sales rep completes before ending the visit.

Before you create an action plan template, make sure you have the business flows that your sales reps need for their assessment tasks. You can either build your own flows using the Flow Builder, or you can use the Patient Registration and Order Authorization flows provided with Intelligent Sales. If you create a flow, make sure that this flow accepts `VisitId` and `AssessmentTaskId` as input.

> 2. Add task flows in an action plan template and publish it.
> a. In the Items tab of your action plan template, click **Add Flow**.
> ⚠ Warning: Only add task flows to your template. Intelligent Sales doesn't support assessment task definitions.

Consent can take place with the participant providing consent in person, using a tablet or mobile device. Patients and members who aren't physically present can log into their Experience Cloud site, then view and provide consent for documents related to the program.

NEW QUESTION # 63
