SAP C_THR70_2505 Exam Syllabus Topics:

Topic	Details
Topic 1	• Administration and Security: This domain targets HR Administrators and Security Officers focusing on the management and safeguarding of compensation data. It covers how to administer compensation systems securely, apply user permissions, enforce policies, and maintain data integrity and confidentiality within compensation management platforms, ensuring compliance with organizational security standards.
Topic 2	• Classification and Compensation Elements: This domain assesses skills of Job Classification Specialists and Pay Structure Analysts related to defining and managing classification schemas and various compensation elements. Candidates learn how to establish job grades, salary ranges, and compensation components critical to designing competitive and equitable pay models.
Topic 3	• Key Concepts: This section of the exam measures skills of Compensation Analysts and HR Specialists and covers fundamental ideas related to compensation management. It introduces key terminology, principles, and high-level concepts vital to understanding how compensation programs are structured and administered within an organization. Candidates become familiar with basic compensation frameworks and their strategic roles.
Topic 4	• Embedded Analytics: This domain focuses on the capabilities of HR Analysts and Business Intelligence Specialists to utilize embedded analytics within compensation management. It covers generating insights, analyzing compensation trends, and using data-driven decision-making to optimize compensation strategies.
Topic 5	• Pipeline and Calculation: This domain targets Payroll Specialists and Compensation Calculators with knowledge of the compensation calculation process. It covers the end-to-end pipeline from input data through to final payout calculations, including deductions, adjustments, and validations to ensure accurate compensation processing.
