

# High Pass-Rate Valid NCP-MCI-6.10 Test Guide | Easy To Study and Pass Exam at first attempt & Excellent NCP-MCI-6.10: Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10)

<b>Q Ortho NCLEX Questions</b> <small>Study online at: <a href="https://liquidet.com/_28c2d6">https://liquidet.com/_28c2d6</a></small>	
vegetables, pasta, broccoli C. Green vegetables, sardines, salmon with bone, molasses D. Fresh fruits, English muffins, black beans, asparagus	as fresh fruits, English muffins, black beans, and asparagus are inadequate in calcium.
3. A patient with osteoporosis has been advised to increase the amount of calcium in her diet. Which food provides the most calcium? An 8- oz glass of milk An ounce of cheddar cheese A half cup of raw broccoli A 4- ounce salmon croquette	Answer A is correct. An 8-ounce glass of milk contains 290mg of calcium. Answers B, C, and D contain lesser amounts; therefore, they are incorrect. (Note: An ounce of cheddar cheese contains 205 mg of calcium; half a cup of raw broccoli contains 175 mg of calcium; and 4 ounces of salmon croquette contains 165 mg of calcium).
4. Which of the following instructions should be included for the patient taking calcium supplements? A.The patient should take her calcium with meals B.The patient should take all her daily calcium supplements at one time C.The patient should take her calcium supplement after meals to prevent stomach upset D.The patient can use calcium-based antacids for supplement.	Rationale: Answer D is correct. Many people prefer to supplement their calcium intake with calcium-based antacids. If calcium supplements are used, they should be administered 30 minutes before meals to maximize absorption, so answer A is wrong. Calcium absorption is better if it is administered throughout the day rather than in a single dose, making answer B wrong. Calcium supplements do not cause stomach upset, so answer C is wrong.

We have experienced education technicians and stable first-hand information to provide you with high quality & efficient NCP-MCI-6.10 training dumps. If you are still worried about your exam, our exam dumps may be your good choice. Our NCP-MCI-6.10 training dumps cover nearly 85% real test materials so that if you master our dumps questions and answers you can clear exams successfully. Don't worry over trifles. If you purchase our NCP-MCI-6.10 training dumps you can spend your time on more significant work.

Education degree does not equal strength, and it does not mean ability. Education degree just mean that you have this learning experience only. And the real ability is exercised in practice, it is not necessarily linked with the academic qualifications. Do not feel that you have no ability, and don't doubt yourself. When you choose to participate in the Nutanix NCP-MCI-6.10 Exam, it is necessary to pass it. If you are concerned about the test, however, you can choose It-Tests's Nutanix NCP-MCI-6.10 exam training materials. No matter how low your qualifications, you can easily understand the content of the training materials. And you can pass the exam successfully.

**NCP-MCI-6.10 Practice Test Training Materials - NCP-MCI-6.10 Test Prep - It-Tests**

A certificate may be a threshold for many corporations, it can decide that if you can enter a good company. There are NCP-MCI-6.10 test dumps in our company with high quality, if you choose us pass guarantee and money back guarantee, if you indeed fail the exam, your money will be returned to your account. You can take easy to use the NCP-MCI-6.10 Test Dumps, since we have the first-hand information, we will ensure that you will get the latest information.

## Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10) Sample Questions (Q77-Q82):

### NEW QUESTION # 77

An administrator has deployed two Nutanix clusters and is now establishing synchronous replication between them. However, the replication is failing immediately.

Which two responses show the reason and corrective action an administrator can take to resolve the issue?

(Choose two.)

- A. If the primary and the recovery clusters are in different subnets, open the ports manually for communication.
- B. Use the command `modify_firewall` to open the ports on `eth1` interface.
- C. If the primary and the recovery clusters are on the same subnet, open the ports manually for communication.
- D. Use the command `modify_firewall` to open the ports on `eth0` interface

**Answer: A,B**

Explanation:

When synchronous replication fails immediately between two clusters, it is often due to blocked communication across the required ports (2009 and 2020). These must be open manually if the clusters are in different subnets or if network policies block traffic.

From the Nutanix Enterprise Cloud Administration (ECA) course materials:

"Replication communication relies on specific ports, which must be allowed through the firewall. If the clusters are in different subnets or if there are external firewalls, these ports must be explicitly opened."

"The `modify_firewall` command is used to open or close ports on cluster nodes. For replication and remote site communication, `eth1` is typically used for external replication traffic." Since `eth1` is typically used for external connectivity and replication traffic, opening ports on this interface using `modify_firewall` resolves the communication block.

### NEW QUESTION # 78

Which two URLs must be accessible from a Connected Site's Controller VM to allow Life Cycle Manager (LCM) to download software updates?

- A. [download.nutanix.com](https://download.nutanix.com)
- B. [release-api.nutanix.com](https://release-api.nutanix.com)
- C. [portal.nutanix.com](https://portal.nutanix.com)
- D. [mynutanix.com](https://mynutanix.com)

**Answer: A,B**

Explanation:

LCM (Life Cycle Manager) fetches software updates from Nutanix's repositories, requiring access to specific URLs.

\* Option A ([download.nutanix.com](https://download.nutanix.com)) is correct:

\* This domain hosts all software update files for AOS, AHV, and other Nutanix components.

\* Option C ([release-api.nutanix.com](https://release-api.nutanix.com)) is correct:

\* This domain is used for LCM to fetch update metadata and check for new versions.

\* Option B ([mynutanix.com](https://mynutanix.com)) is incorrect:

\* This domain is used for account management, not LCM updates.

\* Option D ([portal.nutanix.com](https://portal.nutanix.com)) is incorrect:

\* The Nutanix support portal is not used for automated LCM updates.

### NEW QUESTION # 79

A user created a report in the Intelligent Operations Analysis Dashboard but forgot to download it. However, after logging back into

Prism Central, the administrator finds that the report is no longer available.  
What is the most likely cause?

- A. The report is stored in the cluster's Prism Element.
- **B. Reports are automatically deleted after 24 hours.**
- C. A user with Cluster Viewer role deleted the report.
- D. The user-generated report was archived.

**Answer: B**

Explanation:

In Nutanix Prism Central, user-generated reports in Intelligent Operations are stored for a limited time and then deleted automatically.

- \* Option C (Reports are automatically deleted after 24 hours) is correct:
- \* Reports do not persist indefinitely unless they are scheduled reports.
- \* One-time reports expire after 24 hours.
- \* Option A (Cluster Viewer deleted the report) is incorrect:
- \* Cluster Viewer does not have permissions to delete reports.
- \* Option B (Report was archived) is incorrect:
- \* Nutanix does not automatically archive reports.
- \* Option D (Report stored in Prism Element) is incorrect:
- \* Reports are generated and stored only in Prism Central, not Prism Element.

### NEW QUESTION # 80

An administrator needs to ensure that a VM is powered on before the rest of the VMs when starting a host.  
Which configuration option allows this behavior?

- **A. High Availability**
- B. Host Affinity
- C. Agent VM
- D. Recovery Plan

**Answer: A**

Explanation:

High Availability (HA) in Nutanix provides priority-based VM restart capabilities to ensure that certain VMs are powered on before others in the event of a host reboot or failure.

- \* Option C (High Availability) is correct:
- \* Nutanix HA policies allow administrators to prioritize VM startup order to ensure that critical services (such as database VMs or management VMs) are available before others.
- \* Option A (Recovery Plan) is incorrect:
- \* Recovery Plans are used in Disaster Recovery (DR) scenarios and do not control boot order during normal host restarts.
- \* Option B (Host Affinity) is incorrect:
- \* Host Affinity is used to keep a VM pinned to a specific host, but it does not control boot sequencing.
- \* Option D (Agent VM) is incorrect:
- \* Agent VMs (such as Witness VMs) are specialized virtual machines used for Metro Availability, not general boot priority settings.

### NEW QUESTION # 81

An administrator attempted to enable Data-in-Transit Encryption on a Scale-Out Prism Central cluster to encrypt service-level traffic between nodes. However, the feature did not work correctly due to a firewall restriction.  
Which CVM-specific port should be allowed through the firewall for Data-in-Transit Encryption?

- A. 0
- B. 1
- **C. 2**
- D. 3

**Answer: C**

Explanation:

Data-in-Transit Encryption in Nutanix requires inter-node communication over specific CVM ports.

- \* Option A (Port 2009) is correct:
- \* Port2009 is used for Data-in-Transit Encryption between Nutanix CVMs.
- \* Firewall rules must allow traffic on this port to enable secure encrypted communication.
- \* Option B (Port 2010) is incorrect:
- \* Port2010 is used for CVM-to-CVM communication but does not handle encryption.
- \* Option C (Port 2020) is incorrect:
- \* This port is used for Acropolis File Services (AFS), not encryption.
- \* Option D (Port 9440) is incorrect:
- \* Port9440 is used for Prism Central web access, not internal CVM encryption.

## NEW QUESTION # 82

.....

The design of our NCP-MCI-6.10 guide training is ingenious and delicate. Every detail is perfect. For example, if you choose to study our NCP-MCI-6.10 learning materials on our windows software, you will find the interface our NCP-MCI-6.10 learning materials are concise and beautiful, so it can allow you to study NCP-MCI-6.10 Exam Questions in a concise and undisturbed environment. In addition, you will find a lot of small buttons, which can give you a lot of help. If you are satisfied with our NCP-MCI-6.10 exam questions, you can make a choice to purchase them.

**NCP-MCI-6.10 Latest Dumps Files:** <https://www.it-tests.com/NCP-MCI-6.10.html>

You may wonder what NCP-MCI-6.10 study materials are deserved to choose and worry about the high cost, We make the commitment that if you fail to pass your exam by using NCP-MCI-6.10 study materials of us, we will give you refund, Then, from NCP-MCI-6.10 Latest Dumps Files Exam Simulator for Mobile for Android: 1, With skilled professionals to compile the NCP-MCI-6.10 exam materials of us, we will give you the high-quality study guide materials.

A house in the middle of existence, They NCP-MCI-6.10 Advanced Testing Engine can be the same or different—for most local group uses, groups are displayed by their short names, You may wonder what NCP-MCI-6.10 study materials are deserved to choose and worry about the high cost.

## Effective Way to Prepare for the Nutanix NCP-MCI-6.10 Certification Exam?

We make the commitment that if you fail to pass your exam by using NCP-MCI-6.10 Study Materials of us, we will give you refund, Then, from NCM-MCI Exam Simulator for Mobile for Android: 1.

With skilled professionals to compile the NCP-MCI-6.10 exam materials of us, we will give you the high-quality study guide materials, Jenny Mark It-Tests.com Commitment It-Tests is a top class certification site and the high quality of the products is NCP-MCI-6.10 maintained due to extensive hiring of the experts including MCSEs, MCDDBAs, MCTs, CCNPs and CCIEs professionals and trainers.
