

High-Quality Valid Exam FCSS_NST_SE-7.4 Practice & Fast Download FCSS_NST_SE-7.4 Simulated Test: FCSS - Network Security 7.4 Support Engineer

P.S. Free 2025 Fortinet FCSS_NST_SE-7.4 dumps are available on Google Drive shared by DumpExam: <https://drive.google.com/open?id=1wVecwOZqIVnGHHr3tFeIK79-upbNRFh4>

As we all know, through the judicial examination, you need to become a lawyer, when the teacher is need through the teachers' qualification examinations. If you want to be an excellent elites in this line, you need to get the FCSS - Network Security 7.4 Support Engineer certification, thus it can be seen through the importance of qualification examination. Only through qualification examination, has obtained the corresponding qualification certificate, we will be able to engage in related work, so the FCSS_NST_SE-7.4 Test Torrent is to help people in a relatively short period of time a great important tool to pass the qualification test.

All exam questions that contained in our Fortinet FCSS_NST_SE-7.4 study engine you should know are written by our professional specialists with three versions to choose from: the PDF, the Software and the APP online. In case there are any changes happened to the Fortinet FCSS_NST_SE-7.4 Exam, the experts keep close eyes on trends of it and compile new updates constantly.

>> Valid Exam FCSS_NST_SE-7.4 Practice <<

Take Your Fortinet FCSS_NST_SE-7.4 Exam with Preparation Material

Available in Three Formats

Many candidates are interested in our software test engine of FCSS_NST_SE-7.4. This version is software. If you download and install on your personal computer online, you can copy to any other electronic products and use offline. The software test engine of FCSS_NST_SE-7.4 is very practical. It can be used on Phone, Ipad and so on. You can study any time anywhere you want. Comparing to PDF version, the software test engine of Fortinet FCSS_NST_SE-7.4 also can simulate the real exam scene so that you can overcome your bad mood for the real exam and attend exam casually.

Fortinet FCSS_NST_SE-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Routing: This part of the exam examines the expertise of Fortinet network and security professionals, in routing enterprise traffic effectively.
Topic 2	Authentication: This section evaluates the proficiency of Fortinet network and security professionals in resolving both local and remote authentication issues.
Topic 3	Security Profiles: This segment of the exam tests the skills of IT professionals, such as network administrators in handling and troubleshooting security profile-related challenges.
Topic 4	VPN: This section tests the knowledge of IT professionals, such as system engineers in diagnosing and resolving VPN-related issues. It emphasizes troubleshooting IPsec IKE versions 1 and 2 to ensure secure and reliable communication between networks or remote users.
Topic 5	System Troubleshooting: This part of the exam assesses the ability of Fortinet network and security professionals to diagnose and fix typical system-related problems within Fortinet solutions. It involves troubleshooting FortiGate-to-FortiGate Security Fabric issues, addressing automation stitch concerns, and detecting resource-related problems using integrated tools.

Fortinet FCSS - Network Security 7.4 Support Engineer Sample Questions (Q50-Q55):

NEW QUESTION # 50

Refer to the exhibits.

Exhibit 1

```
FGT-A # get router info bgp summary
...
Neighbor      V      AS MsgRcvd MsgSent   TblVer   InQ OutQ Up/Down  State/PfxRcd
192.168.37.202 4      65110   2500    2552       5     0     0 1d11h33m        0
```

Exhibit 2

```
FGT-B # show router bgp

config network
edit 1
    set prefix 172.16.0.0 255.255.0.0
next
end
```

Exhibit 3

```
FGT-B # diagnose ip address list | grep port3
IP=172.16.54.115->172.16.54.202/255.255.255.0 index=5 devname=port3
```

An administrator is attempting to advertise the network configured on port3. However, FGT-A is not receiving the prefix.

Which two actions can the administrator take to fix this problem? (Choose two.)

- A. Manually add the BGP route on FGT-A.
- B. Restart BGP using a soft reset to force both peers to exchange their complete BGP routing tables.
- C. Modify the prefix using the network command from 172.16.0.0/16 to 172.16.54.0/24.
- D. Use the set network-import-check disable command.

Answer: C,D

NEW QUESTION # 51

Refer to the exhibit, which shows the partial output of diagnose sys session stat.

```
# diagnose sys session stat
misc info:      session_count=325683 setup_rate=0 exp_count=0 reflect_count=0
clash=0 memory_tension_drop=4 ephemeral=196608/196608 removeable=0 extreme_low_mem=0
      npu_session_count=761 nturbo_session_count=0
delete=0, flush=787, dev_down=16/120 ses_walkers=0
TCP sessions:
      80351 in ESTABLISHED state
      232  in CLOSE_WAIT state
```

An administrator has noticed unusual behavior from FortiGate. It appears that sessions are randomly removed. Which two reasons could explain this? (Choose two.)

- A. The FortiGate is deleting sessions because the kernel cannot allocate more memory pages.
- B. The FortiGate is dropping all TCP sessions with incomplete three-way handshakes.
- C. The FortiGate is not accepting sessions because the device has been down 16 out of 120 seconds.
- D. The FortiGate is flushing sessions because of high memory usage.

Answer: A,C

Explanation:

The FortiGate is deleting sessions because the kernel cannot allocate more memory pages.

The memory_tension_drop=4 counter shows that, under memory pressure, the oldest sessions are being removed when the system can't allocate new session blocks. The FortiGate is not accepting sessions because the device has been down 16 out of 120 seconds.

The dev_down=16/120 counter indicates 16 sessions were deleted due to an interface going down within the last 120 seconds.

NEW QUESTION # 52

Which command do you use to enable a timestamp in a real-time debug?

- A. diagnose application timestamp enable
- B. diagnose timestamp enable
- C. diagnose debug console timestamp enable
- D. diagnose debug application timestamp enable

Answer: C

NEW QUESTION # 53

Refer to the exhibit, which shows the partial output of FortiOS kernel slabs.

```
packet_de_duplication 0 0 128 30 1 : tunables 252 126 0 : slabdata 0 0 0
ip6_nat_record 0 0 128 30 1 : tunables 252 126 0 : slabdata 0 0 0
tcp6_session 0 0 1536 5 2 : tunables 60 30 0 : slabdata 0 0 0
ip6_session 0 0 1300 3 1 : tunables 60 30 0 : slabdata 0 0 0
ip_nat_record 0 0 64 59 1 : tunables 252 126 0 : slabdata 0 0 0
sctp_session 0 0 1600 5 2 : tunables 60 30 0 : slabdata 0 0 0
tcp_session 3 5 1500 5 2 : tunables 60 30 0 : slabdata 1 1 0
ip_session 1 3 1200 3 1 : tunables 60 30 0 : slabdata 1 1 0
```

Which statement is true?

- A. The total slab size of the sctp_session slab is 0 kB and is associated with the user space.
- B. The total slab size of the tcp_session slab is 7500 kB and is associated with the kernel.
- C. The total slab size of the ip6_session slab is 1300 kB and is associated with the kernel.

- D. The total slab size of the ip_session slab is 3600 kB and is associated with the user space.

Answer: B

NEW QUESTION # 54

Refer to the exhibit, which shows a partial output of diagnose npu np6 port-list on FortiGate 2000E.

Output of diagnose npu np6 port-list on FortiGate 2000E

Chip	XAUI	Ports	Max Speed	Cross-chip offloading
np6_1	0	port1	1G	No
	0	port5	1G	No
	0	port9	1G	No
	0	port13	1G	No
	0	port17	1G	No
	0	port21	1G	No
-omitted-				

An administrator is unable to analyze traffic flowing between port1 and port17 using the diagnose sniffer command. Which two commands allow the administrator to view the traffic? (Choose two.) config firewall policy

- A. edit 17
set auto-asic-offload disable
end
config system npu
- B. edit 5
set auto-asic-offload disable
end
next
- C. set fastpath disable
end
diagnose npu np6 port-list disable 5 17
- D. diagnose npu np6 fastpath disable 1

Answer: C,D

Explanation:

diagnose npu np6 port-list disable 5 17

This command disables hardware offloading for traffic on ports 5 (port1) and 17 (port17) of the NP6 processor, ensuring the CPU path is used so that diagnose sniffer can capture the packets.

diagnose npu np6 fastpath disable 1

Disabling the fastpath on NP6 chip 1 (np6_1) forces all traffic through the regular processing path on that chip, which allows the sniffer to see the packets.

NEW QUESTION # 55

.....

In the present society, the workplace is extremely cruel. There is no skill, no certificate, and even if you say it admirably, it is useless. If you want to work, you must get a FCSS_NST_SE-7.4 certificate. The certificate is like a stepping stone. It is the key to the unimpeded workplace and the cornerstone of value. And our FCSS_NST_SE-7.4 study braindumps will help you pass the exam and get the certification with the least time and efforts. Just buy our FCSS_NST_SE-7.4 learning question if you want to be successful!
