### SAP C-BCWME-2504 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Positioning the WalkMe Solution: This section of the exam evaluates Digital Adoption Consultants and focuses on crafting compelling value propositions. It explores how to position WalkMe's unique selling points across industries and use cases. Emphasis is placed on aligning the solution with business goals, demonstrating ROI, and addressing competitive differentiators when presenting WalkMe to stakeholders.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Discovering the WalkMe Solution: This section of the exam measures skills of WalkMe Sales Specialists and covers the core understanding of WalkMe's platform, its primary features, and the problems it solves. Candidates are assessed on their ability to identify customer pain points and match them with WalkMe's digital adoption capabilities. It emphasizes foundational product knowledge and discovery techniques that align customer needs with potential WalkMe benefits.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Selling the WalkMe Solution: This section of the exam measures skills of WalkMe Sales Specialists and covers the full selling cycle, including objection handling, negotiation, and closing strategies. It tests how well candidates can tailor their sales pitch, manage customer relationships, and use WalkMe success stories to support their case. This part highlights practical approaches for converting leads into long-term partnerships using a consultative sales model.</li> </ul>

## SAP Certified Associate - Positioning WalkMe Sample Questions (Q24-Q29):

### NEW QUESTION # 24

How does WalkMe empower enterprises to recover productivity losses?

- A. By automating recruitment processes
- B. By outsourcing workflow management to third-party providers
- C. By replacing enterprise tools with simpler solutions
- D. By offering proactive, contextual guidance through AI-powered tools

**Answer: D**

Explanation:

The WalkMe feature that best helps enterprises recover productivity losses is:

B. By offering proactive, contextual guidance through AI-powered tools ☐ WalkMe empowers users by delivering real-time, in-app guidance tailored to individual workflows. Specifically, their contextual AI tools-like the new "Action Bar"-proactively suggest next steps, remind users of critical tasks, and offer support based on ongoing context across applications. This reduces disruptions, closes adoption gaps, and accelerates productivity recovery Why the other options don't apply:

\* A. By automating recruitment processes

☐ WalkMe focuses on user productivity and adoption, not HR or recruiting workflows.

\* C. By outsourcing workflow management to third-party providers

☐ WalkMe provides in-house software tools and guidance-not workflow outsourcing.

\* D. By replacing enterprise tools with simpler solutions

☐ WalkMe enhances existing enterprise tools rather than replacing them.

In summary: WalkMe recovers lost productivity by embedding AI-powered, proactive guidance directly into enterprise software workflows-helping users avoid friction and work smarter in the moment.

### NEW QUESTION # 25

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Exclusive focus on customer experience workflows
- B. Limited scalability for smaller businesses
- C. Offering a combination of guidance tools and actionable analytics
- D. Ability to operate without integrating into other software

**Answer: C**

Explanation:

The correct answer is:

A. Offering a combination of guidance tools and actionable analytics ☐ Why this matters WalkMe stands out among Digital Adoption Platforms (DAPs) by not only providing in-app guidance-such as walkthroughs, tooltips, and task lists-but also delivering actionable insights through analytics. This powerful combination empowers organizations to both guide users and continuously optimize adoption using real-world usage data.

Why the other options don't apply

\* B. Limited scalability for smaller businesses

☐ This is a limitation, if anything-not a differentiator or benefit.

\* C. Exclusive focus on customer experience workflows

☐ WalkMe supports a wide array of use cases, including employee onboarding, IT, finance, and more- not just customer workflows.

\* D. Ability to operate without integrating into other software

☐ WalkMe overlays onto existing applications and integrates deeply-it doesn't operate in isolation.

☐ Final Answer: A. Offering a combination of guidance tools and actionable analytics.

### NEW QUESTION # 26

From a WalkMe perspective, what is a common reason enterprises fail to maximize ROI on software investments?

- A. Lack of employee training programs
- B. Excessive third-party integrations
- C. Low software adoption rates
- D. Insufficient IT budgets

**Answer: C**

### NEW QUESTION # 27

A customer mentions they're facing challenges introducing new employees to a complex Software as a Service (SaaS) application. They report high training costs and low adoption rates. What WalkMe feature best addresses this challenge?

- A. Digital Onboarding and Training Modules
- B. Customizable Landing Pages
- C. Task Automation Tools
- D. Sentiment Analysis

**Answer: A**

Explanation:

The WalkMe feature that best addresses the challenge of introducing new employees to a complex SaaS application-while reducing training costs and boosting adoption-is:

B . Digital Onboarding and Training Modules ☐

☐ Why this is the best fit:

\* These modules include tools like Smart Walk-Thrus, contextual SmartTips, and in-app training flows designed to guide employees step-by-step through tasks in real time.

\* They help reduce manual efforts and training expenses while improving user adoption and productivity

☐ Why not the other options:

\* A. Sentiment Analysis - This analyzes user feedback and tone, not directly used for onboarding or initial training walkme.com

\* C. Customizable Landing Pages - These offer navigation aids but don't provide the interactive, guided training needed.

\* D. Task Automation Tools - Useful for automating repetitive tasks, but not focused on supporting new employee onboarding and learning flows.

So, for addressing high training costs and low adoption rates in a SaaS rollout scenario, Digital Onboarding and Training Modules provide the ideal WalkMe solution.

### NEW QUESTION # 28

What challenges does WalkMe address for enterprises adopting SAP S/4HANA?Note: There are 2 correct answers to this question.

- A. Lack of third-party integrations
- B. Low user engagement and adoption rates
- C. Difficulty in managing change management processes
- D. High software licensing costs

**Answer: B,C**

Explanation:

Here are the two main challenges WalkMe addresses for enterprises adopting SAP S/4HANA, as outlined on learning.sap.com:

☐ C. Low user engagement and adoption rates

- ☐ D. Difficulty in managing change management processes

WalkMe supports change initiatives by delivering targeted announcements, reminders, and context-aware guidance, which significantly reduces friction, user errors, and support tickets during transitions [learning.sap.com](https://learning.sap.com).

☐ Not correct:

\* A. Lack of third-party integrations - WalkMe enhances the SAP platform experience but doesn't specifically provide integrations for third-party systems.

\* B. High software licensing costs - Reducing licensing expenses isn't a primary focus of WalkMe's S/4HANA deployment strategy.

□ Bonus Insight

Here's a practical example of how WalkMe, in partnership with Deloitte, supports organizations during the S/4HANA implementation:
