Are you looking for the best study materials for the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions exam? TorrentExam is the only place to go! You may be fully prepared to pass the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions (C_BCBTM_2509) test with their comprehensive SAP C_BCBTM_2509 exam questions. TorrentExam provides the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions (C_BCBTM_2509) Exam Questions and answers guide in PDF format, making it simple to download and use on any device. You can study at your own pace and convenience with the SAP C_BCBTM_2509 PDF Questions, without having to attend any in-person seminars. This means you may study for the C_BCBTM_2509 exam from the comfort of your own home whenever you want.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q20-Q25):

NEW QUESTION # 20

What does WalkMe Discovery help organizations achieve?

- **A. Identifies underutilized tools and compliance risks**
- B. Enhances employee satisfaction scores by 50%
- C. Automates training development processes
- D. Translates all tools into multiple languages automatically

Answer: A

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 21

What measures does WalkMe take to enhance data security for enterprise customers?

(Note: There are 3 correct answers to this question.)

- A. Modifying user environments for additional data privacy
- B. Offering localized data storage options based on regional requirements
- C. Utilizing advanced encryption methods to protect sensitive data
- D. Integrating multi-factor authentication for added security layers
- E. Following international privacy regulations to ensure compliance

Answer: C,D,E

Explanation:

WalkMe, as part of the SAP Business Transformation Management (BTM) ecosystem, follows strict enterprise-grade data protection standards. SAP and WalkMe both adhere to GDPR, SOC 2 Type II, and ISO 27001 compliance frameworks to ensure secure handling of enterprise and user data.

"WalkMe employs advanced encryption protocols, multi-factor authentication, and compliance with global privacy standards such as GDPR and SOC 2 to protect customer data." Reference:

Advanced Encryption Methods (Answer A):

WalkMe uses AES-256 and TLS encryption standards to safeguard sensitive data both at rest and in transit.

"Customer data in WalkMe's systems is protected using industry-standard AES-256 encryption, ensuring data confidentiality and integrity." Multi-Factor Authentication (Answer B):

WalkMe provides multi-factor authentication (MFA) to add additional layers of protection for user access and administrative functions.

"Multi-factor authentication provides enhanced protection for access to WalkMe's administrative environments." Compliance with International Privacy Regulations (Answer D):

WalkMe aligns with international laws such as GDPR, CCPA, and SOC 2, ensuring that customer data is processed and stored securely.

"WalkMe complies with international privacy and data protection regulations to guarantee enterprise-level security compliance."

Incorrect Options:

C: Localized storage is not a standard feature; WalkMe uses globally compliant cloud infrastructure.

E: Modifying user environments is not part of WalkMe's data protection strategy.

Verified Correct Answers: A, B, and D

NEW QUESTION # 22

What makes SAP Signavio and SAP LeanIX a powerful combination?

(Note: There are 2 correct answers to this question.)

- A. They help our customers understand the important aspects of a transformation: processes, people, systems, and applications.
- B. We can reduce the time for financial reporting by 70% on average.
- C. We can help our customers lay off 20 to 30 percent of their workforce and therefore reduce costs tremendously.
- D. Both solutions focus on transforming businesses from a current state to a future state.

Answer: A,D

NEW QUESTION # 23

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. SAP Signavio Journey Modeler
- B. Technology Risk and Compliance
- C. Enterprise Architecture Management
- D. SAP Commerce Cloud

Answer: B,C

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

NEW QUESTION # 24

How does the integration between SAP Signavio and SAP LeanIX enhance IT and business alignment?

- A. The tools only provide visualization without actionable insights.
- **B. The integration allows linking of business applications to business processes.**
- C. Integration solely enhances reporting capabilities.
- D. Business processes are directly controlled by SAP LeanIX applications.

Answer: B

Explanation:

The integration between SAP Signavio and SAP LeanIX provides a unified view of business and IT, allowing companies to connect business processes (Signavio) with IT applications and systems (LeanIX). This integration bridges operational and architectural perspectives, ensuring full alignment between business goals and IT capabilities.

"Through the SAP Signavio and SAP LeanIX integration, organizations can link business processes to supporting IT applications, creating a shared view that strengthens IT-business alignment." Reference:

This integration supports transformation governance by combining process intelligence (what the business does) with enterprise architecture insights (how IT supports it).

"SAP enables enterprises to visualize dependencies between processes and applications, ensuring coordinated decision-making and improved transformation outcomes." Incorrect Options:

A: Reporting is a secondary feature; integration focuses on alignment, not reporting alone.

B: Both tools provide actionable insights via analytics and process intelligence.

C: LeanIX does not "control" processes; it maps IT dependencies and applications.

Verified Correct answer: D: The integration allows linking of business applications to business processes.

NEW QUESTION # 25

.....

Why we are so popular in the market and trusted by tens of thousands of our clients all over the world? The answer lies in the fact that every worker of our company is dedicated to perfecting our C_BCBTM_2509 exam guide. The professional experts of our company are responsible for designing every C_BCBTM_2509 question and answer. No one can know the C_BCBTM_2509 study materials more than them. In such a way, they offer the perfect C_BCBTM_2509 exam materials not only on the content but also on the displays.
