## **CCE Global Counselor Preparation Comprehensive Examination (CPCE) Sample Questions (Q64-Q69):**

**NEW QUESTION # 64**

What is an example of advocating on behalf of the counseling profession?

- A. providing pro bono counseling services at a small organization
- B. practicing cultural competence when meeting with clients
- C. attending a state-level professional counseling conference

**Answer: C**

Explanation:

Attending a state-level professional counseling conference is an example of professional advocacy. Such participation allows counselors to stay informed about legislation, professional issues, and advancements in the field, and to contribute to the development of the profession. Professional advocacy also includes lobbying for the profession, involvement in professional organizations, and participating in policy-making that affects counselors and clients.

#### **NEW QUESTION # 65**

The characteristic of experimental research that differentiates it from other types of research is

- A. freedom from sampling bias.
- B. control of the dependent variable.
- C. manipulation of the independent variable.

**Answer: C**

Explanation:

Manipulation of the independent variable is what distinguishes experimental research from non-experimental and quasi-experimental designs. In true experimental research, the researcher deliberately manipulates the independent variable to observe its effect on the dependent variable, allowing for the determination of cause- and-effect relationships.

#### **NEW QUESTION # 66**

Which of the following situations describes when a counselor is most likely to use the crisis intervention stress debriefing process?

- A. with a small group shortly after the traumatic incident
- B. in a group session for posttraumatic stress disorder
- C. during an individual session for posttraumatic stress disorder

**Answer: A**

Explanation:

Crisis intervention stress debriefing is most commonly used with a small group shortly after a traumatic incident (such as first responders after a disaster). This structured group process aims to help participants process their immediate emotional reactions, normalize their experiences, and identify those who may need further support.

#### **NEW QUESTION # 67**

What best describes the application of Super's theory in career counseling?

- A. Analyze the stability of a person's career across different life stages.
- B. Understand a person's ability to match personal interests with current job opportunities.
- C. Evaluate a person's self-concept and its influence on careers choices over time.

**Answer: C**

Explanation:

Super's theory of career development is grounded in the concept of self-concept and how it evolves across the lifespan. The theory emphasizes understanding how a person's self-concept influences their career choices over time, rather than simply matching interests to jobs or analyzing career stability.

#### NEW QUESTION # 68

Computation of the standard error of measurement is a necessary component of calculation of a

- A. covariance estimate.
- B. validity coefficient.
- C. reliability coefficient.

**Answer: C**

Explanation:

The standard error of measurement (SEM) is directly related to the reliability of a test. It provides an estimate of the amount of error inherent in an observed test score due to the imperfect reliability of the test.

"Calculation of SEM is an important part of evaluating test reliability, as it reflects the consistency and precision of scores."
