HPE0-V25 Valid Test Cost | HPE0-V25 Knowledge Points

The HPE0-V25 quiz torrent we provide is compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our product before you decide to buy our product. It is worthy for you to buy our HPE0-V25 exam preparation not only because it can help you pass the exam successfully but also because it saves your time and energy. If you buy our HPE0-V25 Test Prep you will pass the exam easily and successfully, and you will realize you dream to find an ideal job and earn a high income.

HPE Hybrid Cloud Solutions Sample Questions (Q85-Q90):

NEW QUESTION # 85

Which license is needed in an HPE SimpliVity environment where automata disaster recovery capabilities are required?

- A. HPE RapidDR
- B. VMware Site Recovery Manager
- C. HPE Peer Persistence
- D. Veeam Backup & Replication

Answer: A

Explanation:

HPE RapidDR: This license is correct, as HPE RapidDR is a disaster recovery orchestration tool that automates the failover of a pre-configured set of virtual machines from a production site to a recovery site on HPE SimpliVity. It leverages the built-in backup and replication capabilities of HPE SimpliVity and simplifies the disaster recovery process. HPE SimpliVity is a hyperconverged infrastructure solution that combines compute, storage, networking, and data services in a single platform. It provides high performance, efficiency, and resiliency for various workloads, including edge, VDI, and general virtualization.

NEW QUESTION # 86

How does HPE Ezmeral Container Platform help organizations deploy and manage containerized applications?

- A. By providing a unified control plane for managing containers across multiple environments
- B. By providing advanced analytics and machine learning capabilities
- C. By providing a high-performance storage solution

Answer: A

Explanation:

HPE Ezmeral Container Platform is a container management platform that provides organizations with a unified control plane for managing containers across multiple environments, including on-premises, cloud, and edge. It enables organizations to deploy and manage containerized applications at scale, providing real-time monitoring and management capabilities, as well as support for automation and orchestration. HPE Ezmeral Container Platform also provides advanced security and compliance capabilities, making it easier for organizations to secure their containerized applications.

NEW QUESTION # 87

Drag and Drop Question

Review the Exhibit:

Match the definition to each colored boxed acronym from the image.

Answer Area

Box	Definition
"P"	Class of Raid Controller
"4"	Controller Type (form factor)
"16"	Number of SAS lanes
"ie"	Port Type
"m"	Smart Array Series

Answer:

Explanation:

Answer Area

Box

Definition	
"P"	Class of Raid Controller
"m"	Controller Type (form factor)
"4"	Number of SAS lanes
"ie"	Port Type
"16"	Smart Array Series

Explanation:

HPE Smart Array P416ie-m SR Gen10 Controller is a flexible Smart Array controller that provides enterprise-class storage performance, increased internal scalability with SAS Expander Card, and data protection for HPE Synergy Compute Modules. The controller has these features:

p: The P stands for Performance class, which indicates that the controller has high performance and reliability for demanding workloads.

4: The 4 indicates that the controller has four SAS lanes per port, which means that it can support up to four SAS devices per port.

16: The 16 indicates that the controller belongs to the 16th generation of Smart Array controllers, which offer enhanced security, performance, and manageability.

ie: The ie stands for internal/external, which means that the controller has both internal and external ports. The internal ports connect to the drives inside the compute module, while the external ports connect to the SAS Expander Card or external storage devices.

m: The m stands for mezzanine, which means that the controller is a mezzanine card that plugs into a dedicated slot on the compute module.

NEW QUESTION # 88

Your customer IS interested in me new MSA storage array and asks tor a demo Of the features and monitoring capabilities. which tool should you use?

- A. HPE InfoSight
- B. HPE Data serves Cloud console (DSCC)
- C. HPE Storage Management Utility (SMU)
- D. HPE StoreServ Management console (SSMC)

Answer: C

Explanation:

Explanation

According to HPE, SMU is a web-based interface that enables you to configure, monitor, and manage storage devices. It also provides performance monitoring and reporting for HPE MSA storage arrays¹. With SMU, you can demonstrate the features and monitoring capabilities of the new MSA storage array to your customer.

NEW QUESTION # 89

When designing new server environments, you need to determine the maximum equipment wattage and thermal requirements at the unit (chassis) and rack level.

Which HPE tool should be used?

- A. HPE Power Advisor
- B. HPE Smart Storage Administrator
- C. HPEOneView
- D. HPE Infocight

Answer: A

Explanation:

Explanation

This is a tool that helps you estimate power consumption and thermal output for HPE servers, storage, and networking products.

You can use it to design new server environments or validate existing ones by selecting the products and configurations you want and generating a detailed report that shows the power and cooling requirements at the unit and rack level.

NEW QUESTION # 90

• • • • •

For years our company is always devoted to provide the best HPE0-V25 practice questions to the clients and help them pass the test HPE0-V25 certification smoothly. Our company tried its best to recruit the famous industry experts domestically and dedicated excellent personnel to compile the HPE0-V25 cram guide and serve for our clients wholeheartedly. Our company sets up the service tenet that customers are our gods and the strict standards for the quality of our HPE0-V25 training materials.
