NEW QUESTION # 29

Your customer wants a new server for a File & print workload.
What are the most important factors to consider? (Select two.)

- **A. storage capacity**
- B. transfer rate
- **C. form factor**
- D. support level
- E. power supply wattage

Answer: A,C

Explanation:

This is because a file and print workload requires a server that can store and share large amounts of data with multiple users and devices. Therefore, the server should have enough storage capacity to meet the current and future data needs of the customer. The form factor of the server also matters because it determines how much space the server occupies and how easy it is to install and maintain. Depending on the customer's preferences and constraints, they may choose a tower, rack or blade server.

NEW QUESTION # 30

Your customer has standardized on the AMD platform and asks for a new I IJ server.
Which server should you recommend?

- A. DL560
- **B. DL365**
- C. DL385
- D. DL360

Answer: B

NEW QUESTION # 31

What benefit does using HPE GreenLake central provide for customers?

- **A. It provides aggregated usage across on-premises and cloud deployments in AWS and Microsoft Azure.**
- B. It can run real-time assessments and offer insights about potential exposure to failures and external attacks.
- C. It can analyze different workloads the customer is running and provide guidance on the best server for the workload.
- D. It provides One-Click provisioning through a pre-packaged application store with curated, prebuilt images for a wide range of applications.

Answer: A

Explanation:

This is because HPE GreenLake Central is an online portal that enables customers to manage and optimize their hybrid cloud environments. It provides a unified view of the costs, capacity, consumption and compliance of their on-premises GreenLake systems and their public cloud platforms such as AWS and Azure. It also offers insights and recommendations to help customers improve their IT performance, ROI and data protection.
