Free PDF Quiz 2025 Authoritative HPE2-T37: Using HPE OneView Valid Test Test

For a long time, our company is insisting on giving back to our customers on the HPE2-T37 study materials. Also, we have benefited from such good behavior. Our HPE2-T37 exam prep has gained wide popularity among candidates. Every worker in our company sticks to their jobs all the time. No one complains about the complexity of their jobs. Our researchers and experts are working hard to develop the newest version of the HPE2-T37 learning guide.

HP Using HPE OneView Sample Questions (Q69-Q74):

NEW QUESTION # 69

Your customer added HPE Primera to HPE OneView and enabled volume provisioning on all storage pools. For security reasons, the customer wants to disable volume provisioning using HPE OneView on a specific storage pool. How can this task be completed?

- A. The storage pool should be removed from HPE OneView using a PowerShell script.
- **B. The storage pool should be disabled using the array management tool.**
- C. The storage pool should be marked as read-only using HPE OneView.
- D. The storage pool state should be changed to discovered using HPE OneView.

Answer: B

NEW QUESTION # 70

Which statement about logical JBODs configured using HPE OneView and D3940 Storage Modules is true?

- A. Logical JBOD functionality must be enabled on the Enclosure Group level by a storage administrator
- B. Different types of the drives can be used within a logical JBOD as long as they have the same capacity
- **C. A logical JBOD cannot be created during server profile creation and must be prepared in advance**
- D. A logical JBOD lifecycle can be associated with a server profile lifecycle and drives can be securely erased.

Answer: C

NEW QUESTION # 71

For each feature, indicate whether it is available with both hpe oneview Standard and hpe oneview Advanced licenses, or only with an hpe oneview Advanced license.

License	Feature
both Standard and Advanced	Firmware management
only Advanced	Remote Support
both Standard and Advanced	Reporting
both Standard and Advanced	Smart Search, Activity View, Dashboard

Answer:

Explanation:

License	Feature
only Advanced	Firmware management
only Advanced	Remote Support
both Standard and Advanced	Reporting
both Standard and Advanced	Smart Search, Activity View, Dashboard

NEW QUESTION # 72

Refer to the exhibit.

Firmware Compliance 0

Actions

This view shows the firmware compliance for shared infrastructure and server hardware (Gen9 and newer) which are not compliant with the firmware bundles available in the OneView repositories. This is generated by comparing the installed firmware versions of the resources with the version included in the firmware bundles.

Hardware	Model	Logical Resource	Firmware Bundle	Update Category	Estimated Update Time
No firmware compliance					

A customer complains that firmware compliance is empty. The customer confirmed that Synergy Service Pack is uploaded to the HPE OneView repository. How should you respond?

- A. The refresh procedure must be performed on each logical enclosure to refresh firmware.
- B. The firmware repository service must be restarted using maintenance connection.
- C. All of the components are up to date and compliant with firmware baseline.
- D. The firmware repository is not defined within firmware compliance report.

Answer: A

Explanation:

https://support.hpe.com/hpesc/public/docDisplay?docId=sd00001377en_us&docLocale=en_US&page=ts_fw-compliance-unavailable-troubleshooting.html

NEW QUESTION # 73

You want a server profile to be automatically applied when an HPE Synergy Compute Module is replaced. Click the appropriate configuration option.
