Competition has a catalytic effect on human development and social progress. Competition will give us direct goals that can inspire our potential and give us a lot of pressure. We must translate these pressures into motivation for progress. This road may not be easy to go. But with our FCP_FWF_AD-7.4 Exam Questions, you can be the most competitive genius in your field with the least time and efforts. As long as you follow with our FCP_FWF_AD-7.4 study guide, you will succeed for sure. Just come and try our FCP_FWF_AD-7.4 practice braindumps!

Fortinet FCP_FWF_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Wireless network security and access: This section of the exam measures skills of security administrators and covers the design and deployment of secure wireless networks. It includes configuring wireless access controls, implementing VLANs, and using network access control (NAC) to segment and protect the wireless environment.
Topic 2	Wireless monitoring and protection: This section of the exam measures skills of network engineers and covers monitoring and managing wireless infrastructure. It focuses on identifying wireless threats, detecting malicious activities, and ensuring access point performance and stability. It also involves implementing guest services and location-based presence features.
Topic 3	Wireless diagnostics and analytics: This section of the exam measures skills of security administrators and covers the tools and techniques used to diagnose and analyze wireless issues. It includes gathering information from clients and devices, troubleshooting common wireless problems, and reviewing logs and debug data to apply effective fixes.
Topic 4	Wireless fundamentals and FortiAP management: This section of the exam measures skills of network engineers and covers the foundational understanding of wireless technologies and standards. It includes knowledge of deploying FortiAP devices using the integrated FortiOS wireless controller and configuring them using custom access point profiles.
