PECB Certified EMS ISO 14001 Lead Auditor Exam ISO-14001-Lead-Auditor Prüfungsfragen mit Lösungen (Q36-Q41):

36. Frage

Which two of the following options are an advantage of using a sampling plan for the audit?

- A. Gives confidence in the audit results
- B. Implements the audit plan efficiently
- C. Use of the plan for consecutive audits
- D. Prevents conflict within the audit team
- E. Reduces the audit duration
- F. Overrides the auditor's instincts

Antwort: A,E

Begründung:

According to ISO 19011:2018 Clause 5.3.2 and Annex B (Audit Sampling):

Sampling allows auditors to:

Reduce audit time while still covering sufficient evidence (A),

Provide statistically valid assurance and confidence in the results (C).

Sampling does not replace auditor judgment (D), nor is it intended to prevent conflict (F) or be reused blindly for future audits (E).

Reference: ISO 19011:2018 Clause 5.3.2, Annex B.

37. Frage

Which two of the following phrases would apply to "audit criteria"?

- A. ISO 14001 requirements
- B. Audit conclusions
- C. Nonconformity report
- D. Financial objectives
- E. Management policy
- F. Auditor competence

Antwort: A,E

Begründung:

According to ISO 19011:2018 Clause 3.3 (Terms and definitions):

Audit criteria are defined as:

"Set of policies, procedures or requirements used as a reference against which objective evidence is compared." ISO 14001 requirements (F) and the organization's own management policy (A) are valid audit criteria.

Nonconformity report (C) and audit conclusions (D) are audit outputs, not criteria.

Financial objectives (B) and auditor competence (E) are not used as audit criteria.

Reference: ISO 19011:2018 Clause 3.3; ISO 14001:2015 Clause 5.2.

38. Frage

Whistlekleen is a national dry cleaning and laundry organisation with 50 shops. You are conducting an EMS surveillance audit of

Head Office and are sampling environmental performance measurement. You find that 80 per cent of failures to meet performance criteria originate from five shops in the same region. Most of these failures relate to the release of volatile organic compounds (VOCs) that exceeds regulations. The Environmental Manager tells you that these are the oldest shops in the organisation. The cleaning equipment needs replacing but the organisation cannot afford it at the moment. On raising the matter with senior management, you are told that there are plans to replace the equipment in these shops over the next five years.

Select two options that apply to how you should respond to the information given.

- A. Evaluate whether the process for measuring environmental performance is effective
- B. Criticise the equipment replacement period as being too environmentally damaging for too long
- C. Recommend that staff in the five shops should have medical check-ups due to air pollution
- D. Raise an opportunity for improvement (OI) to reduce damaging emissions
- E. Determine if the local authority has been informed that the organisation is exceeding VOC emissions
- F. Extend the audit plan to include the five shops

Antwort: A,E

39. Frage

An internal auditor of a manufacturer of aluminium products for the car industry raised a nonconformity against section 6.2.2 of ISO 14001 in Report IA202. The nonconformity (NC3) stated:

"Top management has not analysed why none of the environmental objectives set for the last year have been met." A third-party auditor reviewing the internal audit process came across the nonconformity and found that no corrective action was documented. The EMS Manager confirmed no action had been taken, but added he expected a number of objectives to be achieved in the next three months so there was no need for further action. He explained in confidence that the organisation was fighting a takeover bid and resources for environmental projects had been cut.

From the information, select three non-conformities options that the auditor could raise to ISO 14001.

- A. 7.4.3 - Management should communicate the impacts of the takeover on the EMS to the bidders
- B. 6.2.2 - Actions were not taken to fully implement the environmental objectives set by management
- C. 10.2.a - Management failed to take corrective action to deal with the audit nonconformity
- D. 9.2.2 - Report IA202 contained a nonconformity (NC3) lacking in necessary detail
- E. 7.1 - The top management failed to provide the resources needed to meet the objectives
- F. 7.4.2 - Staff were not made aware that environmental projects were being scaled back
- G. 9.3 - A management review should be undertaken to determine the implications of the takeover on the EMS
- H. 6.2.1 - New environmental objectives associated with the takeover should be set

Antwort: B,C,E

40. Frage

A huge public library established an EMS following the requirements of ISO 14001, which was third-party certified 10 years ago. You are performing the second surveillance audit of the third certification cycle. The audit plan included an audit to the Director as the last interview before the closing meeting.

During the interview with the Director, you audit clause 6.2 (Objectives and planning to achieve them). The dialogue is as follows:
You: Could you please tell me which were the environmental objectives defined for last year and show evidence of their achievement?

Director: Yes. We had defined three objectives. As you can see from our Annual Plan, one of them was to separate our waste in four categories: paper, plastics, metals, food - before, we had only three (plastic and paper were disposed together). We developed an Action Plan to achieve this objective.

Which six of the questions would you ask related to the Action Plan?

- A. How did you measure it?
- B. Who was responsible for the completion of the plan?
- C. How was progress of the plan being monitored?
- D. When is its completion date?
- E. Was it approved by the Director?
- F. Were actions integrated into the organisation's business processes?
- G. How will you evaluate the cost savings?
- H. Did you define any method for monitoring progress?
- I. Is it consistent with the environmental policy?

- Antwort: B,C,F,H,I,J**
