ISO-IEC-27001-Foundation Practice Exam Fee, Verified ISO-IEC-27001-Foundation Answers

In today's world, the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification exam has become increasingly popular, providing professionals with the opportunity to upskill and stay competitive in the tech industry. At DumpsKing, we understand the importance of obtaining the APMG-International ISO-IEC-27001-Foundation Certification in the APMG-International sector, where technological advancements constantly evolving.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.
Topic 2	Security Breaches: Security breaches occur when unauthorized access or violations of security protocols are detected or imminent, potentially compromising data or system integrity.
Topic 3	Risk Management: Risk management is the systematic process of identifying, evaluating, and implementing strategies to reduce or control the impact of potential uncertainties on organizational goals.

Topic 4	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.
Topic 5	• Cybersecurity: Cybersecurity, also known as IT security or computer security, involves safeguarding computer systems, networks, and data from unauthorized access, theft, damage, or disruption to ensure the integrity and availability of digital information.
Topic 6	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 7	• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which trend in information security performance is required to be considered during a management review of the ISMS?

- A. Decisions related to continual improvement opportunities
- B. Achievement of information security objectives
- C. Relevant external and internal requirements changes
- D. Validity of information continuity controls

Answer: B

Explanation:

Clause 9.3.2 (Management Review Inputs) states that management reviews shall include:

"c) information on the information security performance, including trends in: (1) nonconformities and corrective actions; (2) monitoring and measurement results; (3) audit results; and (4) fulfilment of information security objectives." This makes achievement of information security objectives (option A) a required trend to be considered.

While external/internal requirements (C) and continual improvement opportunities (D) are also part of management review inputs, they are not specifically listed under "trends in performance." Option B is outside the direct requirement.

Thus, the verified answer is A.

NEW QUESTION # 41

Which factor is required to be determined when understanding the organization and its context?

- A. The information security objectives relevant to the ISMS
- B. The ISO/IEC 27001 clauses which apply to the management system
- C. The processes that will be required to operate the ISMS
- D. Internal issues affecting the purpose of the ISMS

Answer: D

Explanation:

Clause 4.1 specifies exactly what must be determined when establishing context: "The organization shall determine external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended outcome(s) of its information security management system." This requirement is about understanding internal and external issues (e.g., culture, capabilities, regulatory environment) that influence the ISMS's effectiveness. Objectives (option B) are addressed later in Clause 6.2; processes (option C) are addressed in Clause 4.4 and operational planning; and "which clauses apply" (option D) is not a determination step-ISO/IEC 27001's requirements in Clauses 4-10 are not optional. Therefore, the direct, required factor per 4.1 is determining internal (and external) issues relevant to the organization's purpose and ISMS outcomes.

NEW QUESTION # 42

Which aspect of ISO/IEC 27001 requires that contractors know about the organization's information security policies?

- A. Communication
- **B. Awareness**
- C. Competence
- D. Nonconformity and corrective action

Answer: B

Explanation:

Clause 7.3 (Awareness) requires:

"Persons doing work under the organization's control shall be aware of: (a) the information security policy; (b) their contribution to the effectiveness of the ISMS, including the benefits of improved information security performance; (c) the implications of not conforming with the ISMS requirements." This applies not only to employees but also contractors and external parties under the organization's control.

Competence (B) requires having skills, training, and experience, while Communication (C) covers defining communication processes (Clause 7.4). Nonconformity and corrective action (A) is part of Clause 10 (Improvement).

Therefore, the specific requirement that ensures contractors are made aware of the information security policies is found in Clause 7.3 Awareness. Correct answer: D.

NEW QUESTION # 43

What is the name of the control clause used to control information security breaches within Annex A of ISO /IEC 27001?

- A. Reporting information security incidents
- **B. Information security event reporting**
- C. Response to information security events
- D. Information security event management

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A in ISO/IEC 27001 refers directly to ISO/IEC 27002 for control guidance. In ISO/IEC 27002:2022, Clause 6.8 is titled: "Information security event reporting - Information security events should be reported through appropriate management channels as quickly as possible." This control ensures breaches, incidents, or suspected issues are reported for action. The other options (B, C, D) are not the exact titles in Annex A. The official title is Information security event reporting, confirming

NEW QUESTION # 44

Which statement describes the control for the Compliance with policies, rules and standards for information security within Annex A of ISO/IEC 27001?

- **A. Regular review of compliance**
- B. Maintain contact with legal authorities
- C. Regular review of contractual compliance
- D. Return assets to their legal owners

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.36 (Compliance with policies, rules and standards for information security) requires:

"Compliance with the organization's information security policies, rules and standards for information security should be regularly reviewed." This directly matches option A. Option B refers to contractual compliance, which is part of supplier management controls (Annex A.5.19). Option C relates to Annex A.5.7 (Contact with authorities). Option D refers to asset return controls (Annex A.5.9).

Thus, the correct answer is A.

NEW QUESTION # 45

.....

This updated APMG-International ISO-IEC-27001-Foundation exam study material of DumpsKing consists of these 3 formats: APMG-International ISO-IEC-27001-Foundation PDF, desktop practice test software, and web-based practice exam. Each format of DumpsKing aids a specific preparation style and offers unique advantages, each of which is beneficial for strong ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam preparation. The features of our three formats are listed below. You can choose any format as per your practice needs.
