27001-Foundation Dumps Pdf

It is browser-based; therefore no need to install it, and you can start practicing for the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam by creating the APMG-International ISO-IEC-27001-Foundation practice test. You don't need to install any separate software or plugin to use it on your system to practice for your actual ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam. PassSureExam ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39

What is required to be reported by the Information security event reporting control?

- A. Information disclosure
- B. Unauthorized access
- C. Observed or suspected events
- D. Asset disposal

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A, control 6.8 (Information security event reporting) specifies:

"Information security events should be reported through appropriate management channels as quickly as possible. The organization should require all employees and contractors to note and report any observed or suspected information security events." This wording confirms that the required reporting covers "observed or suspected events." Specific event types like information disclosure (A) or unauthorized access (B) are examples but not the broad requirement.

Asset disposal (C) is addressed separately under equipment lifecycle controls (Annex A.7.14).

Therefore, the verified correct answer is D: Observed or suspected events.

NEW QUESTION # 40

Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an internal audit of the organization
- B. Conduct a surveillance audit of their own area of the organization
- C. Conduct an audit of a Certification Body
- D. Conduct an audit of an Accredited Training Organization

Answer: A

Explanation:

ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 41

Which of the following statements about the differences between an internal audit and a certification audit is true?

An internal audit is conducted at planned intervals and a certification audit is conducted annually An internal audit is known as a 1st party audit and a certification audit is known as a 3rd party audit

- A. Only 2 is true

- B. Only 1 is true
- C. Neither 1 or 2 is true
- D. Both 1 and 2 are true

Answer: A

Explanation:

ISO/IEC 27001 Clause 9.2 requires internal audits to be conducted at planned intervals, but it does not specify an annual frequency. Certification audits, under ISO/IEC 17021 rules, typically occur on a 3-year cycle with annual surveillance, not strictly "annually."

This makes statement 1 inaccurate.

Audit types are defined in ISO/IEC 19011:

First-party audits: conducted internally by or on behalf of the organization (internal audits).

Third-party audits: conducted by independent external certification bodies.

Thus, statement 2 is correct. Therefore, the accurate choice is B: Only 2 is true.

NEW QUESTION # 42

Which statement describes Annex A of ISO/IEC 27001?

- A. Provides measures to determine risk treatment effectiveness
- B. Defines a mandatory list of controls that shall be implemented
- **C. Provides a reference list of information security controls and their requirements**
- D. Defines the criteria for accepting risks

Answer: C

Explanation:

Annex A of ISO/IEC 27001:2022 is titled:

"Reference control objectives and controls." It provides a reference list of information security controls, structured into 4 themes: organizational, people, physical, and technological.

The standard explicitly states in Clause 6.1.3: "Organizations can design controls as required or identify them from any source.

Annex A contains a list of possible information security controls." This means controls in Annex A are not mandatory (eliminating option C). Risk acceptance criteria (A) are defined in Clause 6.1.2, not Annex A. Annex A also does not provide measures for treatment effectiveness (D).

Thus, Annex A is best described as a reference list of information security controls. Correct answer: B.

NEW QUESTION # 43

When are the information security policies required to be reviewed, according to the Policies for information security control?

- A. Annually
- B. Every six months
- **C. At planned intervals and if significant changes occur**
- D. According to a schedule defined by the Certification Body

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) specifies:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This clearly identifies the review frequency requirement: planned intervals and whenever there are significant changes. Options A and B (six-monthly or annually) are not prescribed by ISO - timing is left to the organization. Option C is also wrong, since Certification Bodies do not dictate policy review schedules.

Therefore, the verified correct answer is D.

NEW QUESTION # 44
