## Question:1

How many login classes are assignable to a user account?

- A. 3
- B. 2
- C. 4
- D. 1

**Answer: C**

Explanation:

Junos OS supports multiple login classes that can be assigned to user accounts, allowing for different levels of access and permissions. The correct answer is C, 4. These classes include "super-user," "read-only," "operator," and "unauthorized." Each class provides a different level of access to the Junos device, ranging from full configuration and operational command privileges to limited access for monitoring and viewing configurations.

## Question:2

You are asked to view the real-time usage statistics for the busiest interfaces on a device running Junos OS.

Which command will achieve this task?

- A. monitor traffic absolute-sequence
- B. monitor interface traffic
- C. monitor traffic
- D. show interfaces extensive

If you try to get the Junos, Associate (JNCIA-Junos) certification that you will find there are so many chances wait for you. You can get a better job; you can get more salary. But if you are trouble with the difficult of JN0-105 exam, you can consider choose our JN0-105 Exam Questions to improve your knowledge to pass JN0-105 exam, which is your testimony of competence. Now we are going to introduce our JN0-105 test guide to you, please read it carefully.

Regarding the process of globalization, every fighter who seeks a better life needs to keep pace with its tendency to meet challenges. JN0-105 certification is a stepping stone for you to stand out from the crowd. Nowadays, having knowledge of the JN0-105 study braindumps become widespread, if you grasp solid technological knowledge, you are sure to get a well-paid job and be promoted in a short time. According to our survey, those who have passed the exam with our JN0-105 test guide convincingly demonstrate their abilities of high quality, raise their professional profile, expand their network and impress prospective employers. Most of them give us feedback that they have learned a lot from our JN0-105 Exam Guide and think it has a lifelong benefit. They have more competitiveness among fellow workers and are easier to be appreciated by their boss. In fact, the users of our JN0-105 exam have won more than that, but a perpetual wealth of life.

## Trustable Free JN0-105 Brain Dumps

In order to make all customers feel comfortable, our company will promise that we will offer the perfect and considerate service for all customers. If you buy the JN0-105 study materials from our company, you will have the right to enjoy the perfect service. We have employed a lot of online workers to help all customers solve their problem. If you have any questions about the JN0-105 Study Materials, do not hesitate and ask us in your anytime, we are glad to answer your questions and help you use our JN0-105 study materials well.

### Juniper JN0-105 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Routing Fundamentals: This topic discusses pointing out basic routing concepts or functionality for Junos devices. Moreover, the topic also describes configuring or monitoring basic routing elements for a Junos device.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Configuration Basics: Identification of the main elements for configuring Junos devices is discussed in this topic. Moreover, it describes configuring basic components of a Junos device</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Networking Fundamentals: The topic networking fundamentals covers identifying the concepts and functionality of different fundamental elements of networking.</li></ul>

### Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q98-Q103):

#### NEW QUESTION # 98

You have just increased the MTU size of interface ge-0/0/0 and committed the configuration. Which command would help you identify the applied MTU change?

- A. show interfaces ge-0/0/0
- B. monitor traffic interface ge-0/0/0
- C. show interfaces ge-0/0/0 terse
- D. monitor interface ge-0/0/0

**Answer: A**

Explanation:

After increasing the MTU size of an interface and committing the configuration, the command to verify the applied MTU change is D, "show interfaces ge-0/0/0." This command displays detailed information about the interface, including the current MTU size, making it the best choice for verifying the applied changes.

#### NEW QUESTION # 99

Which process in the Junos OS is responsible for maintaining routing protocols and tables?

- A. chassisd
- B. mgd
- C. rpd
- D. ded

**Answer: C**

Explanation:

The Routing Protocol Daemon (rpd) in Junos OS is responsible for maintaining routing protocols and tables. It handles all routing information, including the calculation of routes and the population of the routing table, making it crucial for dynamic routing operations.

#### NEW QUESTION # 100

You want to find out the chassis serial number of a Junos device.  
Which command would display this information?

- **A. show chassis hardware**
- B. show chassis routing-engine
- C. show chassis environment
- D. show chassis location

**Answer: A**

Explanation:

The `show chassis hardware` command in Junos OS displays detailed information about the hardware installed in the device, including the chassis itself. This command provides a list of all hardware components, their serial numbers, part numbers, and version information. When looking for the chassis serial number specifically, this command is the most direct and comprehensive way to retrieve that information, as it includes the serial number of the chassis among the details provided.

#### NEW QUESTION # 101

Which layer of the OSI model contains the IP address information?

- A. Layer 4
- B. Layer 2
- C. Layer 1
- **D. Layer 3**

**Answer: D**

Explanation:

The OSI (Open Systems Interconnection) model is a conceptual framework used to understand network interactions in seven distinct layers. IP (Internet Protocol) addresses are part of Layer 3, known as the Network Layer. This layer is responsible for packet forwarding, including routing through intermediate routers, and it handles the logical addressing scheme of the network to ensure that packets can be routed across multiple networks and reach their destination. IP addresses provide unique identifiers for network interfaces, allowing for communication between devices on a network or across different networks.

#### NEW QUESTION # 102

When considering routing tables and forwarding tables, which two statements are correct? (Choose two.)

- **A. The routing table is used by the RE to select the best route.**
- B. The forwarding table is used by the RE to select the best route.
- C. The forwarding table stores all routes and prefixes from all protocols.
- **D. The routing table stores all routes and prefixes from all protocols.**

**Answer: A,D**

Explanation:

The routing table and forwarding table play distinct roles in a Junos OS device. The correct answers are A and D: The routing table (A) is used by the Routing Engine (RE) to select the best route among all the learned routes, while the routing table (D) stores all routes and prefixes learned from all routing protocols. The forwarding table, in contrast, contains only the active routes chosen by the RE and is used by the Packet Forwarding Engine for actual packet forwarding.

#### NEW QUESTION # 103

.....

We know the certificate of JN0-105 exam guide is useful and your prospective employer wants to see that you can do the job with strong prove, so our JN0-105 study materials could be your opportunity. Our JN0-105 practice dumps are sensational from the time they are published for the importance of JN0-105 Exam as well as the efficiency of our JN0-105 training engine. And we can help you get success and satisfy your eager for the certificate.
