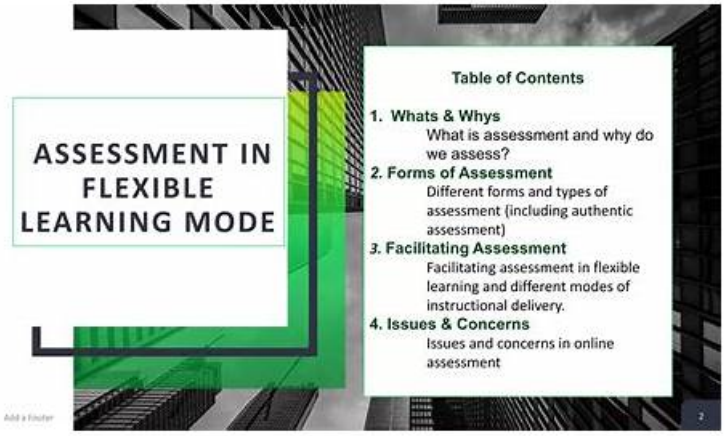
JN0-105 Flexible Learning Mode & JN0-105 New Dumps Pdf



What's more, part of that VCE4Plus JN0-105 dumps now are free: https://drive.google.com/open?id=1FTzNXFOaIxYNEcQz8YFzvogGpPTrDOT-

The team of experts hired by JN0-105 exam torrent constantly updates and supplements the contents of our study materials according to the latest syllabus and the latest industry research results, and compiles the latest simulation exam question based on the research results of examination trends. We also have dedicated staffs to maintain updating JN0-105 practice test every day, and you can be sure that compared to other test materials on the market, JN0-105 quiz guide is the most advanced. It is known to us that having a good job has been increasingly important for everyone in the rapidly developing world; it is known to us that getting a Junos, Associate (JNCIA-Junos) certification is becoming more and more difficult for us. That is the reason that I want to introduce you our JN0-105 prep torrent. I promise you will have no regrets about reading our introduction. I believe that after you try our products, you will love it soon, and you will never regret it when you buy it.

Juniper JN0-105 Exam Syllabus Topics:

Topic	Details
Topic 1	• User Interfaces: This topic delves into identifying the concepts, operation, or functionality of the Junos user interface.
Topic 2	• Routing Policy and Firewall Filters: The topic of Routing Policy and Firewall Filters covers routing policy and firewall filters on Junos devices. Furthermore, the topic also deals with routing policies and firewall filters on a Junos device.
Topic 3	• Configuration Basics: Identification of the main elements for configuring Junos devices is discussed in this topic. Moreover, it describes configuring basic components of a Junos device
Topic 4	• Operational Monitoring and Maintenance: Different methods of monitoring or maintaining Junos devices are identified in this topic. Lastly, it discusses monitoring or maintenance procedures for a Junos device.

100% Pass Quiz JN0-105 - High Hit-Rate Junos, Associate (JNCIA-Junos) Flexible Learning Mode

You can conveniently test your performance by checking your score each time you use our Juniper JN0-105 practice exam software (desktop and web-based). It is heartening to announce that all VCE4Plus users will be allowed to capitalize on a free Juniper JN0-105 Exam Questions demo of all three formats of Juniper JN0-105 practice test.

Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q42-Q47):

NEW QUESTION # 42
You have logged on to a Junos device and are at the operational mode prompt.
Which two commands are used at this prompt? (Choose two.)

- A. show interface ge-0/0/0
- B. run show interface terse
- C. request system shutdown
- D. set interface ge-0/0/0 unit 0 family inet

Answer: A

Explanation:
At the operational mode prompt on a Junos device, you can use various commands to view the device's status and request system operations. Theshow interface ge-0/0/0command is used to display information about a specific interface, while therequest system shutdowncommand is used to properly shut down the device. The setcommand is used in configuration mode, not operational mode, and theruncommand is used to execute operational mode commands from configuration mode.

NEW QUESTION # 43
What will the request system configuration rescue save command do?

- A. It activates the rescue configuration.
- B. It saves the candidate configuration as the rescue configuration.
- C. It saves the most recently committed configuration as the rescue configuration.
- D. It saves a configuration version prior to the configuration most recently committed as the rescue configuration.

Answer: C

Explanation:
The request system configuration rescue save command in Junos OS saves the most recently committed configuration as the rescue configuration. This rescue configuration can be used to recover the device if future configurations cause issues. It ensures there is a stable, known-good configuration to fall back on, which is crucial in network management and troubleshooting.
Reference:
"rescue : save configurations as the rescue: request system configuration save .....(saves the current configs as a rescue configs)" from Useful Juniper Commands.txt.
Juniper official documentation: Configuring and Activating a Rescue Configuration.

NEW QUESTION # 44
Which protocol is responsible for learning an IPv4 neighbor's MAC address?

- A. Media Access Control Security (MACsec)
- B. Neighbor Discovery Protocol (NDP)
- C. Network Address Translation (NAT)
- D. Address Resolution Protocol (ARP)

Answer: D

Explanation:
The Address Resolution Protocol (ARP) is responsible for mapping an IPv4 address to a machine's MAC address. ARP operates at Layer 2 of the OSI model and is used to find the MAC address of a host given its IPv4 address. When a device wants to communicate with another device on the same local network, it uses ARP to discover the recipient's MAC address.
References:
* Juniper official documentation: ARP.
* Networking standards: RFC 826.

NEW QUESTION # 45

Which layer of the OSI model contains the IP address information?

- A. Layer 1
- B. Layer 2
- C. Layer 4
- D. Layer 3

Answer: D

Explanation:
The OSI (Open Systems Interconnection) model is a conceptual framework used to understand network interactions in seven distinct layers. IP (Internet Protocol) addresses are part of Layer 3, known as the Network Layer. This layer is responsible for packet forwarding, including routing through intermediate routers, and it handles the logical addressing scheme of the network to ensure that packets can be routed across multiple networks and reach their destination. IP addresses provide unique identifiers for network interfaces, allowing for communication between devices on a network or across different networks.

NEW QUESTION # 46
Exhibit
term limit-icmp { from {
source-address {
172.25.11.0/24;
}
protocol icmp;
}
then {
count count-icmp; discard;
}
}
Referring to the exhibit, which two actions will occur when a packet matches the firewall filter? (Choose two.)

- A. The packet will be discarded.
- B. The packet will be forwarded.
- C. An ICMP destination unreachable message will be returned.
- D. A counter will be incremented.

Answer: A,D

Explanation:
Referring to the firewall filter configuration in the exhibit, when a packet matches the specified term limit- icmp, two actions are defined in the then statement: count count-icmp and discard. The count count-icmp action means that each time a packet matches this term, a counter named count-icmp will be incremented, providing a tally of how many packets have matched the term. The discard action means that the packet will be dropped and not forwarded through the device. This effectively prevents the packet from reaching its intended destination. There is no action specified that would cause an ICMP destination unreachable message to be returned, nor is there any action that would allow the packet to be forwarded.

NEW QUESTION # 47
.....

The Juniper JN0-105 exam dumps in all three formats are compatible with all devices, operating systems, and web browsers and assist you in Junos, Associate (JNCIA-Junos) JN0-105 exam preparation and you will be ready to crack the JN0-105 exam easily. Now you have all the necessary information that assists you in take the best decision for your professional career. The best decision is to enroll in the Junos, Associate (JNCIA-Junos) Exam JN0-105 Certification Exam and download the Juniper JN0-105 pdf questions and practice tests and start preparing today. We are quite confident that you will pass the final Junos, Associate (JNCIA-Junos) JN0-105 exam easily. Best of luck with exams and your professional career!!!
