Free PDF 2025 Fantastic Juniper JN0-253: Mist AI, Associate (JNCIA-MistAI) Vce Test Simulator

If you can possess the certification, your competitive force in the job market will be improved, and you can also improve your salary. JN0-253 exam dumps can help you pass the exam and obtain the certification successfully. With a professional team to edit and verify, JN0-253 exam materials are high quality and accuracy. In addition, we offer you free demo to have a try, so that you can know what the complete version is like. We have online and offline chat service, and the service staff possess the professional knowledge for JN0-253 Exam Materials, if you have any questions, you can consult us.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q99-Q104):

NEW QUESTION # 99

Which two Mist location tracking components run in the cloud? (Choose two.)

- A. location system
- B. location sensor
- C. location engine
- D. BLE tag

Answer: A,C

Explanation:

Location Engine: The location engine runs in the cloud and processes data from BLE tags and sensors to determine the location of devices within a network. It performs the necessary computations to provide accurate location tracking and analytics.

Location System: The location system, also cloud-based, integrates with the location engine to provide a complete solution for tracking and managing location data within Mist's ecosystem. This system supports various applications such as asset tracking, wayfinding, and proximity-based services.

NEW QUESTION # 100

Which two statements are correct about the Juniper Mist Wired Assurance brownfield adoption workflow? (Choose two.)

- A. The same exact switch adoption CLI commands can be pasted into multiple different Juniper switches.
- B. DNS resolution must be working on the Juniper switch.
- C. The Juniper Mist QR code on the switch must be scanned by the technician.
- D. The administrator must have the Juniper switch claim code available.

Answer: A,B

NEW QUESTION # 101

Which two statements correctly describe the encryption of traffic using Mist? (Choose two.)

- A. By default, the communication between an AP and a RADIUS server is not encrypted.
- B. By default, the communication between a Wi-Fi client and an AP is encrypted.
- C. By default, the communication between an AP and a RADIUS server is encrypted.
- D. By default, the communication between a Wi-Fi client and an AP is not encrypted.

Answer: A,B

Explanation:

AP and RADIUS Server Communication: By default, the communication between an Access Point (AP) and a RADIUS server is not encrypted. This can be configured to be encrypted, but it is not the default setting.

Wi-Fi Client and AP Communication: By default, the communication between a Wi-Fi client and an AP is encrypted, typically using WPA2 or WPA3, which ensures the data exchanged over the wireless network is secure.

NEW QUESTION # 102

Which statement about microservices is correct?

- A. Microservices are designed to be dependent on each other to ensure that if one process fails, the remaining processes will not continue to operate.
- B. Microservices communicate with each other using APIs.
- C. Microservices must share a common database to ensure data integrity.
- D. Microservices are developed as a suite of applications and rely on developers to deliver updates to the entire suite at once.

Answer: B

Explanation:

The Juniper Mist Cloud platform is built on a microservices-based architecture, where individual software components perform specific functions and communicate using well-defined Application Programming Interfaces (APIs).

According to the Juniper Mist Cloud Architecture and Operations Guide:

"Microservices communicate through secure APIs, allowing independent services to interact seamlessly while maintaining modularity and isolation." This architectural design provides major operational benefits, including:

- * Independent scalability- each service can scale based on workload demand.
- * Fault isolation- failures in one service do not affect others.
- * Continuous deployment- updates can be made to one service without impacting the rest of the platform.

Incorrect options:

- * B: Juniper Mist microservices are independently updated, not deployed as one suite.
- * C: They are independent, not dependent on one another.
- * D: Each microservice maintains its own data model; they do not rely on a single shared database.

Thus, the correct answer is A. Microservices communicate with each other using APIs.

NEW QUESTION # 103

Which SLE reports RF interference?

- A. Coverage
- B. Roaming
- **C. Capacity**
- D. AP Health

Answer: C

Explanation:

Use the Wireless Capacity SLE to track user experiences with RF channel capacity (bandwidth) on your wireless network.

NEW QUESTION # 104

.....

Juniper JN0-253 reliable test prep is the right study reference for your test preparation. The comprehensive JN0-253 questions & answers are in accord with the knowledge points of the real exam. Furthermore, JN0-253 sure pass exam will give you a solid understanding of how to conquer the difficulties in the real test. The mission of ExamCost JN0-253 PDF VCE is to give you the most valid study material and help you pass with ease.

Practice JN0-253 Tests: <https://www.examcost.com/JN0-253-practice-exam.html>

Juniper JN0-253 Vce Test Simulator What you actually required is packed into easy to grasp content, Dear every IT candidate, come on and choose our JN0-253 actual practice dumps for your preparation, Juniper JN0-253 Vce Test Simulator All in all, it's up to you to decide, Likewise, this Mist AI, Associate (JNCIA-MistAI) (JN0-253) practice test is browser-based so it needs no special installation to function properly, 24/7 Customers support for JN0-253 Dumps Users.

The Fault Management Architecture, which automates fault detection JN0-253 and resolution, The contour for the drop shadow is changed, What you actually required is packed into easy to grasp content.

100% Pass 2025 Juniper JN0-253: Accurate Mist AI, Associate (JNCIA-MistAI) Vce Test Simulator

Dear every IT candidate, come on and choose our JN0-253 actual practice dumps for your preparation, All in all, it's up to you to decide, Likewise, this Mist AI, Associate (JNCIA-MistAI) (JN0-253) practice test is browser-based so it needs no special installation to function properly.
