Juniper JN0-363 Torrent & Braindump JN0-363 Free

You only need 20-30 hours to practice our software and then you can attend the exam. You needn't spend too much time to learn our JN0-363 study questions and you only need spare several hours to learn our Service Provider Routing and Switching, Specialist (JNCIS-SP) guide torrent each day. Our JN0-363 study questions are efficient and can guarantee that you can pass the exam easily. For many people, they don't have enough time to learn the JN0-363 Exam Torrent. The in-service staff is both busy in their jobs and their family lives and for the students they may have to learn or do other things. But if you buy our JN0-363 exam torrent you can save your time and energy and spare time to do other things. Please trust us.

Juniper Service Provider Routing and Switching, Specialist (JNCIS-SP) Sample Questions (Q38-Q43):

NEW QUESTION # 38

Click the Exhibit button.

```

[edit protocols ospf]
user@router# show
reference-bandwidth 100m
area 0.0.0.0 {
    interface ge-1/0/0.0 {
        interface-type p2p;
    }
    interface ge-3/0/0.0 {
        priority 128;
    }
    interface xe-0/0/0.0 {
        interface-type nbma;
    }
}

```

Referring to the exhibit, which statement is correct?

- A. Interface ge-1/0/0.0 can only form a single adjacency
- B. Interface xe-0/0/0.0 has a default metric of 10
- C. Interface ge-3/0/0.0 has a default metric of 10
- D. Interface xe-0/0/0.0 can only form a single adjacency

Answer: A

NEW QUESTION # 39

What is the correct description of an Area Border Router (ABR)?

- A. An ABR is an OSPF router that injects routing information from outside the OSPF AS
- B. An ABR is an OSPF router with all of its links within an area
- C. An ABR is an OSPF router with at least one link in a Layer 2 area
- D. An ABR is an OSPF router with links in two areas, connecting OSPF areas to the backbone

Answer: D

NEW QUESTION # 40

Click the Exhibit button.

Referring to the exhibit, you have an established RSVP LSP between R1 and R4 when you experience a link failure between R2 and R3.

Which two statements are correct? (Choose two.)

- A. R2 sends a ResvTear message upstream to R1 signaling the link failure.
- B. R2 sends a PathTear message upstream to R1 signaling the link failure.
- C. R3 sends a ResvTear message downstream to R4 signaling the link failure.
- D. R3 sends a PathTear message downstream to R4 signaling the link failure.

Answer: A,C

Explanation:

Upon a link failure in an RSVP-signaled LSP, the router upstream of the failure (R2) sends a PathTear message upstream to the ingress router (R1), and the router downstream of the failure (R3) sends a ResvTear message downstream to the egress router (R4). These messages signal the failure and initiate tear down of the LSP state in the respective directions.

NEW QUESTION # 41

Which type of load balancing is shown in the exhibit?

- A. elastic load balancing
- B. per-packet load balancing
- C. per-flow load balancing
- D. network load balancing

Answer: D

NEW QUESTION # 42

Click the Exhibit button.

```
[edit protocols]
user@router# show ospf
area 0.0.0.0
  interface ge-0/0/1.0
    bfd-liveness-detection {
      minimum-interval 300;
      multiplier 4;
      session-mode automatic;
    }
  }
```

Referring to the exhibit, how many milliseconds must pass before the interface ge-0/0/1.0 is considered down?

- A. 1600 ms

- B. 1200 ms
- C. 900 ms
- D. 2400 ms

Answer: B

NEW QUESTION # 43

.....

As you all know that practicing with the wrong preparation material will waste your valuable money and many precious study hours. So you need to choose the most proper and verified preparation material with caution. Preparation material for the JN0-363 exam questions from Pass4suresVCE helps to break down the most difficult concepts into easy-to-understand examples. Also, you will find that all the included questions are based on the last and updated JN0-363 Exam Dumps version. We are sure that using Pass4suresVCE's Juniper Exam Questions preparation material will support you in passing the JN0-363 exam with confidence.
