

JN0-460 Learning materials: Mist AI Wired, Specialist (JNCIS-MistAI-Wired) & JN0-460 Exam Preparation

BONUS!!! Download part of ActualtestPDF JN0-460 dumps for free: https://drive.google.com/open?id=1oxhkc_IUAUmlchiJlJIhNdJd605o2S-M

As long as you buy our JN0-460 practice materials and take it seriously to your consideration, we can promise that you will pass your JN0-460 exam and get your certification in a short time. We can claim that if you study with our JN0-460 learning guide for 20 to 30 hours as preparation, then you can be confident to pass the exam. So choose our products to help you review, you will benefit a lot from our JN0-460 study guide.

Our JN0-460 exam simulation is accumulation of knowledge about the exam strictly based on the syllabus of the exam. They give users access to information and exam, offering simulative testing environment when you participate it like in the classroom. Besides, contents of JN0-460 study guide are selected by experts which are appropriate for your practice in day-to-day life. It is especially advantageous for busy workers who lack of sufficient time to use for passing the JN0-460 Preparation materials. And as the high pass rate of more than 98%, you will pass for sure with it.

Get the Best Accurate JN0-460 Cert and Pass Exam in First Attempt

Our Juniper JN0-460 dumps assists the candidates of the test with its three formats to advance their preparation as per various learning needs. A team of experts at ActualtestPDF has designed the JN0-460 Pdf Format to help applicants who are too busy to prepare intensively for the Juniper JN0-460 certification exam on the first go.

Juniper JN0-460 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> • Wired Assurance Provisioning or Deployment: This section of the exam measures the skills of Network Deployment Specialists and focuses on the provisioning and deployment processes of Wired Assurance. It includes the essential steps and options involved in setting up networks, from configuration templates to deployment methodologies. Candidates learn about provisioning procedures, supported architectures, and the use of site variables to streamline automation and consistency across wired infrastructures.
Topic 2	<ul style="list-style-type: none"> • Campus EVPN-VXLAN: This section of the exam measures the skills of Data Center Network Engineers and explores the key principles of VXLAN and EVPN technologies. Candidates learn about Layer 2 tunneling, data and control plane operations, and the functions of VTEPs and VXLAN gateways. Additionally, it covers advanced EVPN concepts such as multipath routing, route types, and identifiers. The section concludes with a focus on MAC learning and policy applications to ensure efficient, scalable, and resilient network fabrics.
Topic 3	<ul style="list-style-type: none"> • Wired Assurance Management or Operations: This section of the exam measures the skills of Network Operations Engineers and focuses on the management and operational aspects of Wired Assurance. It covers switch management, port profiles, and dynamic port configuration to ensure optimal network performance. The section also explores service-level expectations, client insights, and the use of APIs for improved monitoring and automation. Candidates gain an understanding of how MistAI enables proactive management and predictive troubleshooting to maintain service quality.
Topic 4	<ul style="list-style-type: none"> • Campus Fabric Architecture: This section of the exam measures the skills of Network Design Engineers and focuses on understanding and deploying Campus Fabric Architectures. It introduces essential design concepts such as EVPN multihoming, IP Clos architecture, and micro-segmentation. The section also compares CRB and ERB models, explains scaling requirements, and highlights how the Campus Fabric Core-Distribution design supports high-performance, scalable, and secure enterprise networks.
Topic 5	<ul style="list-style-type: none"> • Wired Assurance Fundamentals: This section of the exam measures the skills of Network Support Engineers and covers the foundational elements of Wired Assurance within the MistAI ecosystem. It introduces candidates to key concepts such as supported devices, solution architecture, and the main features and components that define Wired Assurance functionality. Additionally, it highlights how MistAI accounts, analytics, and subscriptions integrate to deliver intelligent insights for network performance and operations.

Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q62-Q67):

NEW QUESTION # 62

You are going to adopt a switch in your organization's inventory.
Where would you go to adopt this switch?

- A. The Campus Fabric page
- **B. The organization's Inventory page**
- C. The list of switches page
- D. The site's Inventory page

Answer: B

NEW QUESTION # 63

You are using the Wired Visibility option as your Wired Assurance solution. In this scenario, which protocol is used to exchange basic device information between your switches and APs?

- A. LACP
- **B. LLDP**
- C. SNMP
- D. Telemetry

Answer: B

NEW QUESTION # 64

You are asked to forward event messages from Mist to an external log collector.

In this scenario, which feature would enable this capability?

- A. NETCONF
- B. SNMP traps
- C. syslog
- D. webhooks

Answer: C

Explanation:

In Juniper Mist, the syslog feature allows administrators to forward event messages and alerts from the Mist cloud to an external syslog server.

This is often used for centralized event monitoring, compliance, and correlation with tools like Splunk or SIEM systems.

Syslog operates over UDP or TCP and can capture switch events, system logs, and Marvis actions for both Wired and Wireless networks.

NEW QUESTION # 65

CRB (Centralized Routing Bridging) versus ERB (Edge Routing Bridging) is a consideration in:

- A. The physical layout of network devices
- B. The architectural decision on where routing decisions are made
- C. Determining the color of network cables
- D. Choosing network device brands

Answer: B

NEW QUESTION # 66

Which two devices support Group Based policy?

- A. EX4300
- B. EX9200
- C. EX4100
- D. EX4400

Answer: C,D

NEW QUESTION # 67

.....

In order to make the exam easier for every candidate, ActualtestPDF compiled such a study materials that allows making you test and review history performance, and then you can find your obstacles and overcome them. In addition, once you have used this type of JN0-460 Exam Question online for one time, next time you can practice in an offline environment. It must be highest efficiently JN0-460 exam tool to help you pass the exam.
