Juniper JN0-481 Exam Certification | JN0-481 Valid Exam Camp Pdf

As we all know, it is not easy to get promotion. For the fist thing, you must be good at finishing your work excellently. At the same time, you must accumulate much experience and knowledge. If you urgently want to stand out in your company, our JN0-481 exam guide can help you realize your aims in the shortest time. For not only that our JN0-481 Study Materials can help you know more knowledge on the subject and our JN0-481 practice engine can help you get your according certification.

The world is changing rapidly and the requirements to the employees are higher than ever before. If you want to find an ideal job and earn a high income you must boost good working abilities and profound major knowledge. Passing JN0-481 certification can help you realize your dreams. If you buy our product, we will provide you with the best JN0-481 Study Materials and it can help you obtain JN0-481 certification. Our product is of high quality and our service is perfect.

Free PDF The Best Juniper - JN0-481 Exam Certification

iPassleader Juniper JN0-481 exam dumps are the best reference materials. iPassleader test questions and answers are the training materials you have been looking for. This is a special IT exam dumps for all candidates. iPassleader pdf real questions and answers will help you prepare well enough for Juniper JN0-481 test in the short period of time and pass your exam successfully. If you don't want to waste a lot of time and efforts on the exam, you had better select iPassleader Juniper JN0-481 Dumps. Using this certification training dumps can let you improve the efficiency of your studying so that it can help you save much more time.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q51-Q56):

NEW QUESTION # 51

You want to keep virtual networks isolated from each other within the Juniper Apstra system. In this scenario, what are three ways to accomplish this task? (Choose three.)

- A. Enable Security Policy for virtual networks in the same Routing Zone.
- B. Put each network in different Routing Zones.
- C. Disable Route Target exports when creating the Routing Zones.
- D. Disable IPv4 connectivity when creating the virtual network within the same Routing Zone.
- E. Use Connectivity Templates to block access within the same Routing Zone.

Answer: A,B,E

Explanation:
To keep virtual networks isolated from each other within the Juniper Apstra system, you can use one or more of the following methods:
Enable Security Policy for virtual networks in the same Routing Zone. This allows you to define rules that control the traffic flow between different virtual networks within the same routing zone.
You can specify the source and destination virtual networks, the protocol, the port, and the action (allow or deny) for each rule. The security policy is applied on the ingress interface of the leaf devices.
Use Connectivity Templates to block access within the same Routing Zone. This allows you to customize the connectivity between different racks within the same routing zone. You can create templates that define the link type, the routing protocol, and the access control list (ACL) for each rack pair. The ACL can be used to filter the traffic based on the source and destination IP addresses, the protocol, and the port.
Put each network in different Routing Zones. This allows you to create logical boundaries between different virtual networks based on the route target (RT) values. A routing zone is a collection of virtual networks that share the same RT for importing and exporting routes. Virtual networks in different routing zones do not exchange routes with each other, unless you configure remote EVPN gateways to connect them.

NEW QUESTION # 52
Referring to the exhibit, which role does Device A serve in an IP fabric?

- A. leaf
- B. super spine
- C. server
- D. spine

Answer: D

Explanation:
Device A serves as a spine in an IP fabric. An IP fabric is a network architecture that uses a spine-leaf topology to provide high performance, scalability, and reliability for data center networks. A spine- leaf topology consists of two layers of devices: spine devices and leaf devices.
Spine devices are the core devices that interconnect all the leaf devices using equal-cost multipath (ECMP) routing. Leaf devices are the edge devices that connect to the servers, storage, or other network devices. In the exhibit, Device A is connected to four leaf devices using multiple links, which indicates that it is a spine device.

NEW QUESTION # 53
You are creating a new template that will connect two rack based templates together. Which rack type should be used to accomplish this rask?

- A. isolated
- B. pod based
- C. rack based
- D. collapsed

Answer: B

NEW QUESTION # 54

Which attribute enables Juniper Apstra to scale and manage thousands of devices with a single server instance?

- A. Apstra is available as an OVA.
- B. Apstra is based on NGINX.
- C. Apstra is installed as a cloud resource.
- D. Apstra is a distributed state system.

Answer: D

Explanation:
The attribute that enables Juniper Apstra to scale and manage thousands of devices with a single server instance is that Apstra is a distributed state system. This means that Apstra uses a graph database to store the network topology and configuration data in a distributed and replicated manner across multiple server nodes. This allows Apstra to handle large-scale networks with high performance, reliability, and availability. Apstra also uses a stateful orchestration engine that ensures the network state is always consistent with the intent of the blueprint, which is the logical representation of the network design and behavior. Apstra can automatically detect and resolve any discrepancies between the desired and actual network state, as well as handle any changes or failures in the network.

NEW QUESTION # 55

IBA probes analyze telemetry data from specified devices within a blueprint. Which component Identities devices that supply data tor a specific probe?

- A. processor
- B. search engine
- C. data selector
- D. graph query

Answer: D

Explanation:
A graph query is a component that identifies devices that supply data for a specific probe. A graph query is an expression that matches nodes in the Apstra graph database based on their attributes, such as device name, role, type, or tag. A graph query can be used to select the source devices for the input processors of a probe, as well as to filter the data by device attributes in the subsequent processors of a probe.

NEW QUESTION # 56

......

Data Center, Specialist (JNCIS-DC) (JN0-481) PDF dumps are the third and most convenient format of the Juniper JN0-481 PDF questions prep material. This format is perfect for busy test takers who prefer to study for the Data Center, Specialist (JNCIS-DC) (JN0-481) exam on the go. Questions bank in the iPassleader Juniper JN0-481 Pdf Dumps is accessible via all smart devices. We also update Data Center, Specialist (JNCIS-DC) (JN0-481) PDF questions regularly to ensure they match with the new content of the JN0-481 exam.

JN0-481 Valid Exam Camp Pdf: https://www.ipassleader.com/Juniper/JN0-481-practice-exam-dumps.html

We have organized a team to research and JN0-481 study question patterns pointing towards various learners, Juniper JN0-481 Exam Certification Because time is very important for the candidates, and we all want to learn efficiently, Therefore, we sincere suggest you to have a careful trial before buying our JN0-481 Valid Exam Camp Pdf - Data Center, Specialist (JNCIS-DC) exam study material, Juniper JN0-481 Exam Certification Once you fail the exam we will refund you all.

Without at least a basic understanding of how Instant JN0-481 Download these tables are used, it is hard to comprehend how information passes through a network, In addition, if you are going to provide Exam JN0-481 Cram Review tagging services to users, you'll want to decide on a centrally managed set of terms.

Study Your Juniper JN0-481 Exam with The Best Juniper JN0-481 Exam Certification Easily

We have organized a team to research and JN0-481 study question patterns pointing towards various learners, Because time is very important for the candidates, and we all want to learn efficiently.

Therefore, we sincere suggest you to have a careful Instant JN0-481 Download trial before buying our Data Center, Specialist (JNCIS-DC) exam study material, Once you fail the exam we will refund you all, Besides, work has plays a central role JN0-481 in our life and necessary certificates have become an integral part of workers requirements.
