Microsoft Power Automate RPA Developer PL-500 Prüfungsfragen mit Lösungen (Q52-Q57):

52. Frage

You manage automation solutions for a company. You need to select the appropriate patch type for each scenario. Which patch types should you use? To answer, drag the appropriate patch types to the correct requirements. Each patch type may be used once, more than once, or not at all. You may need to drag the bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Patch types	Requirement	Patch type
Upgrade	Upgrade a solution to the latest version. Delete any components from the previous version that do not exist in the new version.	Patch type
Stage for upgrade	Upgrade a solution to the latest version. Retain all components from the previous version.	Patch type
Update	Replace a solution with the latest version. Retain all components from the previous version.	Patch type

Antwort:

Begründung:

gute Wahl. Das virtuelle Internet-Training und die Kurse enthalten viele Microsoft AZ-140 Prüfungsaufgaben, die Ihnen zum erfolgreichen Bestehen der Prüfung verhelfen.

Microsoft Configuring and Operating Microsoft Azure Virtual Desktop AZ-140 Prüfungsfragen mit Lösungen (Q166-Q171):

166. Frage

You have an Azure Virtual Desktop deployment.

You plan to create a new host pool named Pool1 that will contain five Windows 11 session hosts.

You need to enable secure boot and vTPM on the session hosts.

How should you configure the Virtual Machines settings?

- A. Set Security type to Trusted launch virtual machines.
- B. Set Network security group to Advanced.
- C. Enable encryption at rest and a platform-managed key.
- D. Enable a system-assigned managed identity.

Antwort: A

Begründung:

167. Frage

You plan to deploy Windows Virtual Desktop.

Users have the devices shown in the following table.

Type	Platform
Tablet	Windows 10 Pro
Phone	Android
Laptop	macOS

From which device types can the users connect to Windows Virtual Desktop resources by using the Remote Desktop client app and the Remote Desktop web client? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Remote Desktop client app: Tablet only, Tablet and phone only, Tablet and laptop only, Tablet, phone, and laptop

Remote Desktop web client: Tablet only, Tablet and phone only, Tablet and laptop only, Tablet, phone, and laptop

Antwort:

Begründung:

Remote Desktop client app:

- Tablet only
- Tablet and phone only
- Tablet and laptop only
- Tablet, phone, and laptop**

Remote Desktop web client:

- Tablet only
- Tablet and phone only
- Tablet and laptop only**
- Tablet, phone, and laptop

168. Frage

Your network contains an on-premises Active Directory domain named contoso.com that syncs to an Azure Active Directory (Azure AD) tenant.

You have an Azure subscription that contains an Azure Virtual Desktop host pool.

You create an Azure Storage account named storage1.

You need to use FSLogix profile containers in storage1 to store user profiles for a group named Group1. The solution must use the principle of least privilege.

What should you include in the solution? To answer, select the appropriate options in the answer area.

For storage1:

- Join to the contoso.com domain.
- Configure a shared access signature (SAS).
- Enable encryption by using customer-managed keys.
- Configure Azure Active Directory Domain Services (AD DS) integration.

To Group1, assign the role of:

- Storage Blob Data Contributor
- Storage Blob Data Reader
- Storage File Data SMB Share Contributor
- Storage File Data SMB Share Reader

Antwort:

Begründung:

169. Frage

You have an Azure Virtual Desktop host pool.

You add a French language pack to each session host in the host pool.

Several days later, users report that English displays when they connect to Azure Virtual Desktop.

After an investigation, you discover that the French language pack was removed, and the session hosts reverted to English.

You need to ensure that the French language pack is always available on the session hosts.

What should you do?

- A. Configure the international settings on each host.
- **B. Apply a Group Policy setting to disable the Time & language settings.**
- C. Assign a default time zone on each host.
- D. Apply a Group Policy setting that blocks the cleanup of unused language packs.

Antwort: B

Begründung:

<https://docs.microsoft.com/en-us/windows-hardware/manufacture/desktop/languages-overview?view=windows-1>

170. Frage

You have an Azure subscription named Sub1 that contains a resource group named RG1. RG1 contains an Azure Virtual Desktop deployment. The deployment contains a host pool named Pool1.

You plan to configure Pool1 to meet the following requirements:

* Session hosts must start automatically as user demand increases.

* Azure Virtual Desktop must have permission to turn on session host virtual machines.

What should you configure, and which role should you assign to the Azure Virtual Desktop service principal? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.
