

L6M7 Certification Exam - L6M7 Exam Dumps Pdf

L6M7

to the next problem, solves that and looks back to see if the previous one is still correct. Example: completing a Sudoku puzzle Divide and conquer -> Divides a problem into smaller sub-problems, solves them and combines the answers to solve the initial problem. Example: categorising data Dynamic programming -> Uses different approaches to solve a problem by remembering the past. Example: the shortest route to travel between two cities by road Greedy -> Finds the best possible choice at each stage. Example: giving change for a cash transaction using the highest-value coins and notes available Branch and bound -> Uses an optimisation process to test for the best possible outcome. Example: how often to place orders to ensure stock levels are maintained for the least cost. Brute force -> Tries many patterns until a solution is found. Example: software that guesses a security password

QUESTION: 5

"Counterfeit computer hardware increases the risk and likelihood of a successful cyber-attack". Is this statement False?

Option A :

Yes, because not all counterfeit products such as hardware are accessible to hackers to implant malware upfront so the likelihood of a cyber-attack is the same as buying genuine

Option B :

No, because it is the sole responsibility of the Procurement department to ensure that hardware being bought is not counterfeit which eliminates any possibility of cyber-attacks

Option C :

No, because the quality of the counterfeit product may not be high and fake hardware could include malware which increases the likelihood of a successful cyber-attack

Option D :

Yes, because counterfeit products are generally still of a high quality and can have cyber-security measures and systems installed to reduce the risk of any future cyber-attacks

Correct Answer: C

Once you study our L6M7 certification materials, the system begins to record your exercises. Also, the windows software will automatically generate a learning report when you finish your practices of the L6M7 Real Exam dumps, which helps you to adjust your learning plan. It is crucial that you have formed a correct review method. The role of our L6M7 test training is optimizing and monitoring your study. Sometimes you have no idea about your problems. So you need our L6M7 real exam dumps to promote your practices.

CIPS Commercial Data Management Sample Questions (Q71-Q76):

NEW QUESTION # 71

Identifying patterns in data using data from more than one source is commonly known as...?

- A. Data mining
- B. Data analysis
- C. Collaborative filtering
- D. Black box problem solving

Answer: C

Explanation:

Collaborative filtering is a technique used in recommendation systems where multiple data sources (e.g., previous purchases, browsing habits, and ratings from other users) are combined to predict user preferences.

NEW QUESTION # 72

Green Pants Ltd has a lot of sensitive data around their unique designs for pants. Daniela, one of the designers, has noticed there is a weakness in their IT system, which means that data may be accessible to people outside the company. She would like the company to invest in software that can hide or disguise the data so that if it is ever stolen, the designs of the pants are not readable to others. What software is Daniela requesting?

- A. Proxy
- B. Authentication
- C. Firewall
- D. Encryption

Answer: D

NEW QUESTION # 73

Green Pants Ltd has a lot of sensitive data around their unique designs for pants. Daniela, one of the designers, has noticed there is a weakness in their IT system, which means that data may be accessible to people outside the company. She would like the company to invest in software that can hide or disguise the data so that if it is ever stolen, the designs of the pants are not readable to others. What software is Daniela requesting?

- A. Proxy
- B. Authentication
- C. Firewall
- **D. Encryption**

Answer: D

Explanation:

Encryption makes data unreadable by converting it into an encoded format using an algorithm. If the data is stolen, it remains unreadable without the decryption key. A common example is WhatsApp's end-to-end encryption. (P.188)

NEW QUESTION # 74

Francis bought a car 4 years ago and is unsure if the company has any data on her. What can Francis do?

- **A. Make a Subject Access Request**
- B. Nothing - the car company does not need to reveal what information it holds about customers
- C. Make a Freedom of Information Request
- D. Nothing - the car company will not have data on her as this was 4 years ago

Answer: A

Explanation:

Francis can make a Subject Access Request. This is when you ask what data do you hold about me. The company must respond within 40 calendar days. A Freedom of Information request is different- this is when a member of the public asks the government to reveal information such as 'how much money have you spent on replacing toilet seats in Parliament?'. P.127 Domain: 2.3

NEW QUESTION # 75

Which of the following are examples of 'hardware'? Select ALL that apply

- A. Database
- B. Internet
- **C. Keyboard**
- **D. CPU**
- E. Programme
- **F. Mouse**

Answer: C,D,F

Explanation:

Hardware are the physical parts of a computer; CPU, keyboard, and mouse. Software consists of programs that run on a computer. (P.4)

NEW QUESTION # 76

.....
