Oracle Planning and Collaboration Cloud 2024 Implementation Professional Sample Questions (Q127-Q132):

NEW QUESTION # 127

You've decided to opt into the Customer Demand Collaboration feature. Which three statements describe what that enables?

- A. The information they share with you is informational and only available to you in the portal.
- B. A customer can log in to a portal and manually enter their expected needs for the products you sell them.
- C. You can post to the portal your statistical forecast for the products you sell them so they can see your forecast for them.
- D. A customer can use B2B messaging to share their expected needs and historical consumption for the products you sell them.

Answer: B,C,D

Explanation:

The Customer Demand Collaboration feature enables customers to share their demand forecasts via B2B messaging or manually

through a portal. Additionally, you can share your forecast with them through the portal, facilitating mutual insight into supply chain needs and expectations, as detailed in Oracle's customer demand collaboration features documentation MY ORACLE SUPPORT

NEW QUESTION # 128

You are in Implementation project and your customer is a global company with a complex supply chain network. Planners work across different geographies and different line of products. Each planner works with their own set of data and analysis and dashboards.

How do you configure the application so each planner can have their own custom dashboard view-able only to themselves?

- A. You cannot create custom dashboards by user.
- B. Enable layout security checkbox in the Administer Planning Security.
- C. Create public page layouts that are tailored to specific business needs.
- D. Create private page layouts that are tailored to specific business needs.

Answer: D

NEW QUESTION # 129

When running the Publish Order Forecast scheduled process, what is the minimum set of parameters needed to publish additional measures such as requisition and purchase order data?

- A. Publish order details
- B. Include requisitions in the order forecast, "Include purchase orders in the order forecast", and "Publish purchasing details"
- C. Include purchase orders in the order forecast
- D. Include requisitions in the order forecast, "Include purchase orders in the order forecast", and "Publish order details"

Answer: D

Explanation:

To include requisition and purchase order data in the forecast, you need to select parameters for both requisitions and purchase orders, along with the option to publish order details. This ensures that all relevant order data is communicated to suppliers through the forecast, as detailed in Oracle's guidelines for publishing order forecasts
