1Z0-1109-25 Instant Discount & Latest 1Z0-1109-25 Practice Materials

Most of the candidates who plan to take the 1Z0-1109-25 certification exam lack updated practice questions to ace it on the first attempt. Due to this, they fail the Oracle Cloud Infrastructure 2025 DevOps Professional (1Z0-1109-25) test, losing money and time. And in some cases, applicants fail on the second attempt as well because they don't prepare with 1Z0-1109-25 Actual Exam questions. This results in not only the loss of resources but also the motivation of the candidate.

Oracle Cloud Infrastructure 2025 DevOps Professional Sample Questions (Q22-Q27):

NEW QUESTION # 22

As a DevOps Engineer, you are tasked with explaining the key concepts of Terraform to a new team member. You want to ensure they understand the fundamental concepts of Terraform.

Which of the following best describes the purpose of Terraform variables?

- A. Terraform variables are used to define the structure and organization of Terraform configuration files.
- **B. Terraform variables are used to define input values for Terraform configurations, allowing for customization and reuse of infrastructure code.**
- C. Terraform variables are used to output the final state of the infrastructure after deployment.
- D. Terraform variables are used to manage the life cycle of Terraform resources.

Answer: B

Explanation:

Terraform variables are used to define input values for Terraform configurations. They allow users to customize infrastructure deployments by providing different values without modifying the configuration files themselves. Variables help in creating reusable infrastructure code, making it easy to maintain and adjust the infrastructure setup according to different environments or needs.

NEW QUESTION # 23

What are the two items required to create a rule for the Oracle Cloud Infrastructure Events Service? (Choose two.)

- **A. Rule Conditions**
- **B. Actions**
- C. Management Agent Cloud Service
- D. Service Connector
- E. Auth Token

Answer: A,B

Explanation:

Oracle Cloud Infrastructure (OCI) Events Service allows you to create rules to automatically respond to changes in your OCI environment. To create a rule, you need the following items:

Rule Conditions: Conditions define the events that will trigger the rule. This specifies what event (e.g., instance creation, object storage bucket modification) will trigger an action.

Actions: Actions define what should happen when a condition is met. For example, the action might be to trigger an OCI Function or send a notification.

NEW QUESTION # 24

Which of the following statement is INCORRECT with respect to a Dockerfile?

- A. An ENV instruction sets the environment value to the key, and it is available for the subsequent build steps and in the running container as well.
- **B. WORKDIR instruction sets the working directory for any RUN, CMD, ENTRYPOINT instructions and not for COPY and ADD instructions in the Dockerfile.**
- C. If CMD instruction provides default arguments for the ENTRYPOINT instruction, both should be specified in JSON format.
- D. The RUN instruction will execute any commands in a new layer on top of the current image and commit the results.

Answer: B

Explanation:

The WORKDIR instruction sets the working directory for all subsequent RUN, CMD, ENTRYPOINT, COPY, and ADD instructions in the Dockerfile. This means that after specifying WORKDIR, all these instructions will use the specified directory as their current working directory.

NEW QUESTION # 25

Which OCI DevOps project resource is responsible for defining the stages for compiling, testing, and running software applications before deployment?

- **A. Build pipelines**
- B. Deployment pipelines
- C. Integration pipelines
- D. Development pipelines

Answer: A

Explanation:

Build pipelines in OCI DevOps are responsible for defining the stages involved in compiling, testing, and running software applications. These pipelines automate the process of building the code, running unit tests, scanning for vulnerabilities, and packaging the software, all of which occur before deploying the application.

NEW QUESTION # 26

As a DevOps engineer at XYZ Corp, you have been assigned the task of setting up a new OKE (Oracle Kubernetes Engine) cluster to manage the organization's Kubernetes applications hosted on Oracle Cloud Infrastructure (OCI). Your goal is to ensure a smooth and efficient process while preparing for the cluster creation.

Which of the following statements is false regarding the preparation process for setting up a new OKE cluster?

- A. Container Engine for Kubernetes automatically creates and configures new network resources for the new cluster.
- B. It is necessary to ensure sufficient quota on different resource types in your OCI tenancy for the cluster setup.
- C. Access to an Oracle Cloud Infrastructure tenancy is required to set up the new OKE cluster.
- **D. Container Engine for Kubernetes cannot utilize existing network resources for the creation of the new cluster.**

Answer: D

Explanation:

This statement is false because Container Engine for Kubernetes (OKE) can utilize existing network resources such as Virtual Cloud Networks (VCNs), subnets, security lists, and route tables for the creation of a new cluster. You can either use pre-existing network resources or let OKE create new network resources automatically.

NEW QUESTION # 27

.....

We can assist you with learning by simplified information by our 1Z0-1109-25 learning guide. At the same time, our specialists will update 1Z0-1109-25 learning materials daily and continue to improve the materials. Therefore, you can use our 1Z0-1109-25 exam questions faster and more efficiently, which means that you can save a lot of time to do more meaningful and valuable things. When you are learning our 1Z0-1109-25 Learning Materials, you can find confidence in the process of learning materials and feel happy in learning. After about 20-30 hours, you can get your Oracle certificate.

1Z0-1109-25 Instant Discount: <https://www.pdf.dumps.com/1Z0-1109-25-valid-exam.html>

We sincerely will protect your interests in our 1Z0-1109-25 practice questions from any danger. If they used our 1Z0-1109-25 test braindumps they had passed exams at first shot and own the certification. We also hope our 1Z0-1109-25 exam materials can help more and more ambitious people pass the 1Z0-1109-25 exam. Valid & latest Oracle 1Z0-1109-25 dumps are the key helper for examinees who are determined to obtain a certification.

Chapter Four: Preprocessing Video and Audio, Each design study chapter delivers four elements, We sincerely will protect your interests in our 1Z0-1109-25 Practice Questions from any danger.

If they used our 1Z0-1109-25 test braindumps they had passed exams at first shot and own the certification, We also hope our 1Z0-1109-25 exam materials can help more and more ambitious people pass the 1Z0-1109-25 exam.
