

Latest 300-425 Exam Question & 300-425 Latest Test Question

P.S. Free 2025 Cisco 300-425 dumps are available on Google Drive shared by PDFTorrent: https://drive.google.com/open?id=1AEs_yAZr0H-qfCKAFyeMmb5Fiv61RfPw

In order to help you save more time, we will transfer 300-425 test guide to you within 10 minutes online after your payment and guarantee that you can study these materials as soon as possible to avoid time waste. We believe that time is the most valuable things in the world. This is why we are dedicated to improve your study efficiency and production. Moreover if you have a taste ahead of schedule, you can consider whether our 300-425 Exam Torrent is suitable to you or not, thus making the best choice. What's more, if you become our regular customers, you can enjoy more membership discount and preferential services.

What are the advantages of obtaining Cisco 300-425 certification

Those who pass the Cisco exam with the help of **Cisco 300-425 Dumps** gain several benefits

- It has a relatively low cost and is a very popular certification.
- Certification would make you more available in networking jobs or companies that require Cisco certification.
- It helps with your career progression through different levels of Cisco certifications like CCENT, CCNA, CCDA, CCNP, and so on.
- The presence of this certification in your resume shows that you have good communication skills and IT knowledge.

Cisco 300-425 Exam covers a range of topics related to wireless network design, including site surveys, wireless LAN (WLAN) design, wireless security, and mobility services. Candidates are expected to have a deep understanding of Cisco wireless technologies, including access points, controllers, and network management tools. They should also be familiar with industry standards, such as the Institute of Electrical and Electronics Engineers (IEEE) 802.11 standards, and have experience working with both indoor and outdoor wireless environments.

Cisco 300-425 Latest Test Question & 300-425 Online Tests

We update our 300-425 test prep within one year and you will download free which you need. After one year, we provide the client 50% discount benefit if buyers want to extend their service warranty so you can save much money. If you are the old client, you can enjoy some certain discount when buying 300-425 Exam Torrent so you can enjoy more service and more benefits. Our update can provide the latest and most useful 300-425 prep torrent to you and you can learn more and pass the 300-425 exam successfully.

The Designing Cisco Enterprise Wireless Networks certification exam covers a wide range of topics related to designing enterprise wireless networks, including wireless network design principles, site surveys, RF planning, high-density wireless networks, and security. 300-425 Exam is designed to test the candidate's ability to design, implement, and troubleshoot wireless networks using Cisco technologies.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q209-Q214):

NEW QUESTION # 209

An engineer added an AP to a deployment after a post-installation site survey. The engineer then notices an increase in co-channel interference and retransmissions. Which two features help mitigate the issue? (Choose two.)

- **A. Dynamic Channel Assignment**
- B. Cisco Compatible Extensions
- C. Enhanced Distributed Channel Access
- D. Coverage Hole Detection
- **E. Transmit Power Control**

Answer: A,E

Explanation:

To mitigate increased co-channel interference and retransmissions after adding an AP, Transmit Power Control (TPC) and Dynamic Channel Assignment (DCA) can be effective. TPC adjusts AP transmit power based on real-time analysis of the wireless environment, reducing interference by lowering power where necessary. DCA dynamically changes channel assignments based on current RF conditions to optimize performance and minimize interference.

NEW QUESTION # 210

Which two criteria must be considered when conducting an outdoor bridge site survey? (Choose two.)

- **A. weather**
- B. traffic lights
- **C. Fresnel zone**
- D. power lines
- E. near-far effect

Answer: A,C

Explanation:

When conducting an outdoor bridge site survey, weather and the Fresnel zone are critical criteria to consider.

Weather can affect signal propagation and the reliability of the wireless link, while the Fresnel zone relates to the elliptical area around the line-of-sight path between transceivers, which must be clear of obstacles to ensure a strong signal. NEW QUESTION # 211

Refer to the exhibit.

A customer is deploying a Greenfield 802.11n network with data, voice, and location awareness using APs with the WSSI modules. Which two settings in the Cisco Prime Infrastructure Planning Tool, when selected, provide a more accurate prediction of the number of APs the customer must purchase for the new facility? (Choose two.)

- A. Voice
- B. Location
- C. Location with Monitor Mode APs
- D. Data/Coverage
- E. Override Coverage per AP

Answer: A,B

Explanation:

When using the Cisco Prime Infrastructure Planning Tool for deploying a Greenfield 802.11n network with data, voice, location awareness, and APs equipped with WSSI modules, selecting 'Voice' will ensure that the tool accounts for the additional bandwidth requirements of voice applications which have strict QoS requirements. Choosing 'Location' will allow the tool to consider the need for more precise location tracking capabilities which typically require additional APs for triangulation purposes. NEW QUESTION # 212

Clustering Cisco WLCs into a single RF group enables the RRM algorithms to scale beyond the capabilities of a single Cisco WLC. How many WLC and APs in an RF group can the controller software scale up to in WLC release 8.9 depending on the platform?

- A. up to 20 WLCs and 4000 APs
- B. up to 20 WLCs and 1000 APs
- C. up to 20 WLCs and 3000 APs
- D. up to 20 WLCs and 6000 APs

Answer: D

Explanation:

Explanation

- Controller software supports up to 20 controllers and 6000 access points in an RF group.

NEW QUESTION # 213

A network administrator is troubleshooting a DMVPN setup between the hub and the spoke. Which action should the administrator take before troubleshooting the IPsec configuration?

- A. Verify NHRP.
- B. Verify ISAKMP.
- C. Verify crypto maps.
- D. Verify the GRE tunnels.

Answer: D

NEW QUESTION # 214
