

Latest 300-740 Practice Questions - Reliable 300-740 Test Braindumps

Avaya 72301X
Avaya Aura® Communication Applications Support Certified Exam

Reliable 72301X Braindumps Ebook & Simulation 72301X Questions

We hope you can find that we sincerely hope to help you. We hope that after choosing our 72301X study materials, you will be able to successfully complete our 72301X learning guide without worry. It is our greatest honor that you can find satisfaction. Of course, we will value every user. We will never regard any user. Our 72301X Exam Simulation will provide perfect service for everyone.

Avaya 72301X exam is a vendor specific certification & it is recognized globally. It is an excellent way for IT professionals to demonstrate their expertise in Avaya Aura® Communication Applications. A certification in this field can help candidates to advance their careers and increase their earning potential.

P.S. Reliable 72301X Braindumps Ebook & Simulation

Simulation 72301X Questions, 72301X Questions

The TutorialsPoint is a leading platform that has been helping the Avaya 72301X exam aspirants for many years. Over this long time period, thousands of 72301X Avaya Aura® Communication Applications Support Certified Exam exam candidates have passed their Avaya 72301X Certification Exam, and have become a member of Avaya 72301X certification exam community. They all got help from TutorialsPoint and their 72301X exam dumps.

Avaya Aura® Communication Applications Support Certified Exam Sample Questions (Q68-Q73):

NEW QUESTION # 68

A customer reports that their Avaya Aura Communication Manager (CM) cannot SIP telephone.

Avaya 72301X Braindumps Ebook & Simulation 72301X Questions

You must make a decision as soon as possible! I don't know where you heard about 300-740 actual exam, but you must know that there are many users of our 300-740 study materials. Some of these users have already purchased a lot of information. They completed their goals with our 300-740 learning braindumps. Now they have a better life. As you know the company will prefer to employ the staffs with the 300-740 certification.

Cisco 300-740 Exam Syllabus Topics:

Topic	Details
Topic 1	Threat Response: This section of the exam measures skills of Incident Response Engineers and focuses on responding to threats through automation and data analysis. It covers how to act based on telemetry and audit reports, manage user or application compromises, and implement response steps such as containment, reporting, remediation, and reinstating services securely.

Topic 2	• SAFE Architectural Framework: This section of the exam measures skills of Security Architects and explains the Cisco SAFE framework, a structured model for building secure networks. It emphasizes the importance of aligning business goals with architectural decisions to enhance protection across the enterprise.
Topic 3	• Network and Cloud Security: This section of the exam measures skills of Network Security Engineers and covers policy design for secure access to cloud and SaaS applications. It outlines techniques like URL filtering, app control, blocking specific protocols, and using firewalls and reverse proxies. The section also addresses security controls for remote users, including VPN-based and application-based access methods, as well as policy enforcement at the network edge.
Topic 4	• User and Device Security: This section of the exam measures skills of Identity and Access Management Engineers and deals with authentication and access control for users and devices. It covers how to use identity certificates, enforce multifactor authentication, define endpoint posture policies, and configure single sign-on (SSO) and OIDC protocols. The section also includes the use of SAML to establish trust between devices and applications.
Topic 5	• Cloud Security Architecture: This section of the exam measures the skills of Cloud Security Architects and covers the fundamental components of the Cisco Security Reference Architecture. It introduces the role of threat intelligence in identifying and mitigating risks, the use of security operations tools for monitoring and response, and the mechanisms of user and device protection. It also includes strategies for securing cloud and on-premise networks, as well as safeguarding applications, workloads, and data across environments.
Topic 6	• Application and Data Security: This section of the exam measures skills of Cloud Security Analysts and explores how to defend applications and data from cyber threats. It introduces the MITRE ATT&CK framework, explains cloud attack patterns, and discusses mitigation strategies. Additionally, it covers web application firewall functions, lateral movement prevention, microsegmentation, and creating policies for secure application connectivity in multicloud environments.
Topic 7	• Industry Security Frameworks: This section of the exam measures the skills of Cybersecurity Governance Professionals and introduces major industry frameworks such as NIST, CISA, and DISA. These frameworks guide best practices and compliance in designing secure systems and managing cloud environments responsibly.
Topic 8	• Visibility and Assurance: This section of the exam measures skills of Security Operations Center (SOC) Analysts and focuses on monitoring, diagnostics, and compliance. It explains the Cisco XDR solution, discusses visibility automation, and describes tools for traffic analysis and log management. The section also involves diagnosing application access issues, validating telemetry for behavior analysis, and verifying user access with tools like firewall logs, Duo, and Cisco Secure Workload.

Reliable 300-740 Test Braindumps, Latest 300-740 Study Guide

The Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) PDF dumps are suitable for smartphones, tablets, and laptops as well. So you can study actual Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) questions in PDF easily anywhere. Exam-Killer updates Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) PDF dumps timely as per adjustments in the content of the actual Cisco 300-740 exam.

Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q161-Q166):

NEW QUESTION # 161

User and device security in the Cisco Security Reference Architecture primarily focuses on:

- A. Authentication and endpoint protection
- B. Physical access controls

- C. Cloud storage encryption
- D. Network segmentation

Answer: A

NEW QUESTION # 162

The action of _____ involves fixing or patching the vulnerabilities exploited during a security incident.

- A. remediating
- B. ignoring
- C. exacerbating
- D. reporting

Answer: A

NEW QUESTION # 163

In the zero-trust network access model, which criteria is used for continuous verification to modify trust levels?

- A. Network traffic patterns
- B. System patching status
- C. Detected threat levels
- D. User and device behavior

Answer: D

Explanation:

The Zero Trust model relies on the principle of "never trust, always verify" and includes continuous verification based on real-time data. According to SCAZT Section 1 (Cloud Security Architecture, Pages 14-17), user and device behavior are key elements for continuous verification. Behavioral analytics evaluates deviations from typical activity, such as time of login, geolocation, access frequency, and resource usage to adapt trust levels dynamically. This is central to adaptive access control and risk-based authentication.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 1, Pages 14-17

NEW QUESTION # 164

Based on telemetry reports, actions might include adjusting _____ to better protect against identified threats.

- A. office layouts
- B. hiring practices
- C. marketing strategies
- D. security policies

Answer: D

NEW QUESTION # 165

When validating traffic flow and telemetry reports, it is important to:

- A. Utilize tools like Cisco Secure Network Analytics for comprehensive analysis and baselining
- B. Assume all traffic is benign and requires no further investigation
- C. Only focus on external traffic while ignoring internal traffic patterns
- D. Rely exclusively on manual inspection without the aid of automated tools

Answer: A

NEW QUESTION # 166

.....

Customer first, service first is our principle of service. If you buy our 300-740 study guide, you will find our after sale service is so considerate for you. We are glad to meet your all demands and answer your all question about our 300-740 Training Materials. So do not hesitate and buy our 300-740 study guide, we believe you will find surprise from our products. you should have the right to enjoy the perfect after sale service and the high quality products!
