Preparation from reliable material is essential to get success in the real SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service (C\_TS470\_2412) exam. One of the most crucial aspects of test preparation is relying on SAP C\_TS470\_2412 exam dumps. The authenticity of SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service (C\_TS470\_2412) exam questions material plays a huge role in achieving a passing score. In the case of choosing, SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service (C\_TS470\_2412) exam dumps outdated material, and one fails and loses resources. Pass4sureCert is committed to providing real C\_TS470\_2412 Questions, ensuring that applicants get success in a short time.

## SAP C\_TS470\_2412 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Service Master Data: This section of the exam measures the skills of SAP Master Data Specialists and covers the management and configuration of service-related master data within SAP environments. It includes defining service objects, managing attributes, and ensuring accurate data flow across modules. Effective service master data management helps improve service delivery, optimize resource utilization, and maintain consistency across business processes.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Organizational Data: This section of the exam measures the skills of Enterprise Data Managers and covers the structuring and management of organizational data within SAP systems. It focuses on defining key organizational elements, configuring data hierarchies, and ensuring proper integration across business units. Mastery of this domain is essential for maintaining accurate reporting structures, workflow efficiency, and compliance with enterprise-wide data governance policies.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Service Order Management: This section of the exam measures the skills of SAP Service Operations Consultants and covers the end-to-end management of service orders within SAP. It includes the creation, processing, tracking, and fulfillment of service requests, ensuring seamless coordination between departments. Proper service order management enables organizations to enhance customer satisfaction, streamline operations, and improve response times through integrated workflows.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Managing Clean Core: This section of the exam measures the skills of SAP Solution Architects and covers the principles of maintaining a clean core within SAP systems. It focuses on strategies for minimizing customizations, leveraging standard SAP functionalities, and ensuring system integrity while allowing for necessary extensions. The goal is to enhance system performance, ease upgrades, and maintain long-term sustainability.</li></ul>

As we know, our products can be recognized as the most helpful and the greatest C\_TS470\_2412 study engine across the globe. Even though you are happy to hear this good news, you may think our price is higher than others. We can guarantee that we will keep the most appropriate price because we want to expand our reputation of C\_TS470\_2412 Preparation dumps in this line and create a global brand. What's more, we will often offer abundant discounts of C\_TS470\_2412 study guide to express our gratitude to our customers.

### SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service Sample Questions (Q52-Q57):

#### NEW QUESTION # 52

Which of the following are examples of issues that the Service Order Issues app can display directly? Note: There are 3 correct answers to this question.

- A. No Confirmations
- B. Negative Margin
- C. Contract Expired
- D. SLA Issue
- E. Not Fully Billed

**Answer: A,D,E**

Explanation:

The Service Order Issues app in SAP S/4HANA Cloud Private Edition, Service (Fiori app) provides real-time visibility into service order problems:

- \* Not Fully Billed: Displays orders with incomplete billing, a common issue tracked for revenue assurance.
- \* No Confirmations: Highlights orders lacking confirmations (e.g., time or material), indicating delays in execution tracking.
- \* SLA Issue: Shows orders breaching service level agreements (e.g., response time), critical for contract compliance.
- \* Contract Expired: While relevant, this is typically monitored in contract management apps, not directly in the Service Order Issues app.
- \* Negative Margin: Margin analysis is part of profitability apps, not a direct focus of this app. This aligns with the app's purpose in scope item 3D2 (Service Order Management). "The Service Order Issues app displays issues like Not Fully Billed, No Confirmations, and SLA Issues for proactive resolution." (SAP Fiori Apps Reference Library).

#### NEW QUESTION # 53

In which customizing activities do you maintain billing plan settings for the service contract? Note: There are 2 correct answers to this question.

- A. Assign Billing Plan Type to Item Category
- B. Define Billing Plan Types
- C. Exclude Billing Plan Items
- D. Budget Billing Plan

**Answer: A,B**

Explanation:

Billing plan settings for service contracts are maintained in customizing (SPRO # Service # Billing). The correct answers are C and D.

\* Assign Billing Plan Type to Item Category (C): Links billing plan types (e.g., periodic) to contract item categories (e.g., SVC1), ensuring the right plan applies.

\* Define Billing Plan Types (D): Defines the billing plan types (e.g., monthly, ad hoc) with parameters like periodicity.

Why Not the Others?

- \* A: Not a standard activity; might be a typo.
- \* B: Related to utilities, not service contracts.

"Billing plan settings are maintained by defining billing plan types and assigning them to item categories."

#### NEW QUESTION # 54

Where are service contract pricing procedures and conditions defined?

- A. SAP S/4HANA Sales
- B. SAP CPO
- C. SAP Billing and Revenue Innovation Management
- D. SAP Subscription Billing

**Answer: A**

Explanation:

In SAP S/4HANA Cloud Private Edition, Service, service contract pricing procedures and conditions are defined within the SAP S/4HANA Sales module (Option B). This module handles pricing for sales and service processes, including service contracts. Pricing procedures determine how prices are calculated (e.g., base price, discounts), while conditions store the specific price values or rules (e.g., fixed rates, surcharges). These are configured in the Sales and Distribution (SD) component of SAP S/4HANA, which integrates with service management.

\* SAP CPO (A): This is not a recognized SAP module; it might be a typo (e.g., for SAP C/4HANA), but it's irrelevant here.

\* SAP Billing and Revenue Innovation Management (C): This is a separate solution for advanced billing scenarios, not the standard location for service contract pricing.

\* SAP Subscription Billing (D): This focuses on subscription-based models, not general service contract pricing in S/4HANA.

"Pricing procedures and conditions for service contracts are defined in SAP S/4HANA Sales, leveraging the SD pricing framework to manage contract-specific pricing."

#### NEW QUESTION # 55

Which of the following is a prerequisite to install a piece of equipment in a functional location?

- A. Allow the equipment category to be installed in a functional location
- B. Set the installation flag for a piece of equipment
- C. Set the installation flag for a functional location category
- D. Allow the combination of equipment category and object type to be installed in a functional location

**Answer: A**

Explanation:

To install equipment in a functional location in SAP S/4HANA:

\* Allow the equipment category to be installed in a functional location: The equipment category (e.g., M for machines) must be configured to permit installation (set in transaction OIEQ), ensuring compatibility with functional locations.

\* Combination of equipment category and object type: Object types are for classification, not installation prerequisites.

\* Installation flag for equipment/functional location: No such flags exist; installation is controlled by category settings. This is part of equipment management setup. "The equipment category must allow installation in a functional location as a prerequisite." (SAP Help Portal, Equipment Installation).

#### NEW QUESTION # 56

In the Event-Based Revenue Recognition - Service Documents app, which of the following can you review?

- A. Billed margin
- B. Billed revenue
- C. Planned margin
- D. Actual revenue

**Answer: D**

Explanation:

The Event-Based Revenue Recognition - Service Documents app tracks revenue based on events (e.g., confirmation). The correct answer is actual revenue (B).

Why Actual Revenue?

The app shows revenue posted to the general ledger as events occur (e.g., \$500 from a confirmation), reflecting real-time financials.

Why Not the Others?

\* A & D: Margins are in profitability apps.

\* C: Billed revenue is in billing apps, not recognition.

"The Event-Based Revenue Recognition app allows review of actual revenue from service documents."

## NEW QUESTION # 57

.....

In this rapid rhythm society, the competitions among talents are growing with each passing day, some job might ask more than one's academic knowledge it might also require the professional C\_TS470\_2412 certification and so on. It can't be denied that professional certification is an efficient way for employees to show their personal SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service abilities.
