Maryland Insurance Administration Maryland Accident and Health or Sickness Producer Series 20-24 Exam Sample Questions (Q90-Q95):

NEW QUESTION # 90

All of the following factors may affect premium determination in individual life insurance EXCEPT:

- A. Occupation
- **B. Race**
- C. Age
- D. Health

Answer: B

Explanation:

Comprehensive and Detailed Step by Step Explanation: Premium determination in life insurance depends on factors that measure risk, but race (D) is not and cannot be used due to anti-discrimination laws.

Age (A): A primary factor; younger applicants are charged lower premiums due to lower mortality risk.

Health (B): Significant; poor health or pre-existing conditions increase premiums.

Occupation (C): Risky professions (e.g., construction or aviation) may result in higher premiums.

Race (D): Prohibited by Maryland law, which ensures fairness and prohibits underwriting based on race, ethnicity, or similar discriminatory criteria.

References: Maryland Insurance Article §27-501, COMAR 31.09.03, and Anti-Discrimination Standards in Insurance.

NEW QUESTION # 91

An insured's statements on an accident and health insurance application are deemed to be:

- **A. Representations**
- B. Warranties
- C. General provisions
- D. Categorical

Answer: A

Explanation:

Statements on applications (Insurance Article, § 12-206) are representations-factual assertions to the best of the insured's knowledge-where only material misrepresentations void a policy. Warranties are stricter and less common, while categorical and general provisions don't apply.

References: Maryland Insurance Article, § 12-206; MIA application rules.

NEW QUESTION # 92

In Maryland, an insurance producer is a person who solicits, negotiates, or sells insurance plans PRIMARILY in conjunction with:

- A. Enrolling individuals in group plans
- B. Performing clerical duties
- C. Acting as a regularly salaried officer
- **D. Earning commission**

Answer: D

Explanation:

A producer (Insurance Article, § 1-101(aa)) solicits and sells insurance primarily for commissions, distinguishing them from clerical staff, enrollment facilitators, or salaried insurer employees. This reflects their independent role.

References: Maryland Insurance Article, § 1-101(aa), § 10-101; MIA producer definitions.

NEW QUESTION # 93

In Maryland, continuation of medical plan coverage for a handicapped child beyond the age limit stated in the policy may require proof of the child's:

- **A. Incapacity and dependency upon reaching the age limit**
- B. Incapacity only
- C. Dependency for the first two years of continued coverage only
- D. Continued insurability

Answer: A

Explanation:

Under Insurance Article, § 15-401, coverage for handicapped children extends beyond age limits if they're incapacitated (unable to work) and dependent on the insured at the age limit. Insurability isn't required, incapacity alone isn't enough, and dependency isn't time-limited to two years.

References: Maryland Insurance Article, § 15-401; MIA dependent coverage rules.

NEW QUESTION # 94

Which one of the following causes of loss typically is EXCLUDED under a disability income insurance policy?

- A. Tropical disease
- **B. Intentionally self-inflicted injuries**
- C. Cancer
- D. Auto accidents

Answer: B

Explanation:

Disability income policies (Insurance Article, § 15-201) cover accidents, cancer, and diseases, but exclude intentionally self-inflicted injuries as non-accidental, aligning with standard exclusions to prevent abuse.

References: Maryland Insurance Article, § 15-201; MIA disability insurance standards.
