

# Latest FCP\_GCS\_AD-7.6 Exam Questions Vce, FCP\_GCS\_AD-7.6 Boot Camp

You can save too much precious time because FCP\_GCS\_AD-7.6 actual dumps help you to prepare for the FCP\_GCS\_AD-7.6 certification tests in a very short time. Using BraindumpStudy FCP\_GCS\_AD-7.6 exam preparation material you will be aware of the final Fortinet FCP\_GCS\_AD-7.6 exam pattern and the kind of FCP\_GCS\_AD-7.6 Exam Questions. Fortinet FCP\_GCS\_AD-7.6 valid dumps will remove your FCP\_GCS\_AD-7.6 exam fear and you will take the actual Fortinet FCP\_GCS\_AD-7.6 test with confidence. You will perform well in the FCP - Google Cloud Security 7.6 Administrator, FCP\_GCS\_AD-7.6 exam and produce the best results.

With all of these FCP\_GCS\_AD-7.6 study materials, your success is 100% guaranteed. Moreover, we have Demos as freebies. The free demos give you a prove-evident and educated guess about the content of our practice materials. As long as you make up your mind on this exam, you can realize their profession is unquestionable. And their profession is expressed in our FCP\_GCS\_AD-7.6 training prep thoroughly. They are great help to catch on the real knowledge of FCP\_GCS\_AD-7.6 exam and give you an unforgettable experience. Do no miss this little benefit we offer.

## Download BraindumpStudy Fortinet FCP\_GCS\_AD-7.6 Real Questions Today and Get Free Updates for Up to 365 Days

BraindumpStudy trained experts have made sure to help the potential applicants of Fortinet FCP\_GCS\_AD-7.6 certification to pass their Fortinet FCP\_GCS\_AD-7.6 exam on the first try. Our PDF format carries real Fortinet FCP\_GCS\_AD-7.6 Exam Dumps. You can use this format of Fortinet FCP\_GCS\_AD-7.6 actual questions on your smart devices.

## Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q23-Q28):

### NEW QUESTION # 23

Which architecture inspection type in Google Cloud is most closely associated with Google Cloud Interconnect?

- A. Hybrid cloud inspection
- B. Inbound north-south traffic inspection
- C. East-west traffic inspection
- D. Outbound north-south traffic inspection

**Answer: A**

Explanation:

Google Cloud Interconnect connects on-premises networks with Google Cloud, enabling hybrid cloud environments. Inspection related to this connectivity focuses on hybrid cloud traffic flows.

#### NEW QUESTION # 24

An administrator is tasked to deploy two FortiGate devices in two different zones to achieve geographical redundancy. Which two architectural considerations must the administrator address? (Choose two.)

- A. The FortiGate devices must be deployed in two different regions.
- B. The FortiGate devices must not be deployed in the same VPC.
- C. The FortiGate devices can be deployed in the same subnet.
- D. The FortiGate devices cannot be assigned the second IP address in the subnets that they are deployed in.

**Answer: A,D**

Explanation:

Deploying FortiGate devices in different regions ensures geographic redundancy.

The second IP address in a subnet is reserved for the default gateway in Google Cloud, so FortiGate devices cannot use that IP.

#### NEW QUESTION # 25

Refer to the exhibit.

```

Google Cloud Fabric Connector

FortiGate-VM64-GCP # gcp: add GCP Lab
gcpd sdn connector GCP Lab prepare to update
gcpd get token
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/instance/service-accounts/default/token
gcpd metadata result:200
Token expires in: 3599 seconds
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/project/project-id
gcpd metadata result:200
gcpd got project id from metadata: fcp-fcss-course-development
gcpd sdn connector GCP Lab start updating
gcpd sdn connector GCP Lab got empty project list, trying sdn update from metadata project: fcp-fcss-course-development
gcpd sdn connector GCP Lab get instance list successfully
gcpd didn't find any GKE cluster for project fcp-fcss-course-development
gcpd sdn connector GCP Lab list GKE cluster failed
GCP Lab got 3 addresses
gcpd sdn connector GCP Lab start updating IP addresses
gcpd sdn connector GCP Lab finish updating IP addresses

```

An administrator configured GoogleCloud as an external fabric connector on FortiGate.

Which conclusion can you draw from the output?

- A. The external fabric connector is unable to find a valid Google Cloud project.
- B. The external fabric connector found multiple IP addresses assigned to Google Cloud instances.
- C. The external fabric connector is misconfigured.
- D. The external fabric connector shows that an administrator created three dynamic firewall addresses.

**Answer: B**

Explanation:

The output shows the connector successfully retrieved project information and instance IP addresses (GCP Lab got 3 addresses), indicating it found multiple IPs assigned to Google Cloud instances.

#### NEW QUESTION # 26

Refer to the exhibit.

Which three conclusions can you draw from the Google Cloud custom route? (Choose three.)

- A. A target pool-based passthrough network load balancer was created.
- B. A health check was created.
- C. At least one instance group was created.
- D. The next hop must be updated manually in the custom route if the current next hop goes down.
- E. A group-based passthrough network load balancer was created.

**Answer: B,C,D**

Explanation:

The route's next hop is a forwarding rule for a backend service, which indicates a group-based passthrough load balancer.

Group-based load balancers require health checks to monitor instance health.

Backend services attach to instance groups to distribute traffic, so at least one instance group exists.

#### NEW QUESTION # 27

Your organization has decided to deploy a Fortinet web application firewall (WAF) in Google Cloud.

Why would the organization choose FortiWeb Cloud over FortiWeb VM?

- A. Because the organization requires a WAF with SSL offloading and load balancing
- B. Because the organization requires advanced bot detection and mitigation
- C. Because the organization requires a fully managed WAF solution
- D. Because the organization requires a WAF with highly customizable WAF rules and settings

**Answer: C**

Explanation:

FortiWeb Cloud is a fully managed web application firewall service, ideal for organizations seeking a cloud-native, hands-off WAF deployment without the need to manage virtual appliances.

#### NEW QUESTION # 28

.....

Regarding the process of globalization, every fighter who seeks a better life needs to keep pace with its tendency to meet challenges. FCP\_GCS\_AD-7.6 certification is a stepping stone for you to stand out from the crowd. Nowadays, having knowledge of the FCP\_GCS\_AD-7.6 study braindumps become widespread, you are sure to get a well-paid job and be promoted in a short time. According to our survey, those who have passed the FCP\_GCS\_AD-7.6 Exam with our FCP\_GCS\_AD-7.6 test guide convincingly demonstrate their abilities of high quality, raise their professional profile, expand their network and impress prospective employers.
