

Latest FCP_ZCS-AD-7.4 Exam Pattern - FCP_ZCS-AD-7.4 New Braindumps Files

P.S. Free 2025 Fortinet FCP_ZCS-AD-7.4 dumps are available on Google Drive shared by Itcertking:
https://drive.google.com/open?id=18NlsMw1DFra8L4oKTB3O0_qtsgdm-QSH

FCP_ZCS-AD-7.4 guide materials really attach great importance to the interests of users. In the process of development, it also constantly considers the different needs of users. According to your situation, our FCP_ZCS-AD-7.4 study materials will tailor-make different materials for you. And the content of the FCP_ZCS-AD-7.4 Exam Questions is always the latest information contained for our technicals update the questions and answers in the first time.

In order to help you easily get your desired Fortinet FCP_ZCS-AD-7.4 certification, Fortinet is here to provide you with the Fortinet FCP_ZCS-AD-7.4 exam dumps. We need to adapt to our ever-changing reality. To prepare for the actual Fortinet FCP_ZCS-AD-7.4 Exam, you can use our Fortinet FCP_ZCS-AD-7.4 exam dumps.

FCP_ZCS-AD-7.4 New Braindumps Files & Test FCP_ZCS-AD-7.4 Cram

Exam FCP_ZCS-AD-7.4 is just a piece of cake if you have prepared for the exam with the helpful of Itcertking's exceptional study material. If you are a novice, begin from FCP_ZCS-AD-7.4 study guide and revise your learning with the help of testing engine. Exam FCP_ZCS-AD-7.4 Brain Dumps is another superb offer of Itcertking that is particularly helpful for those who want to the point and the most relevant content to pass exam. With all these products, your success is assured with 100% money back guarantee.

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q25-Q30):

NEW QUESTION # 25

How does Azure ExpressRoute contribute to achieving predictable latency for network traffic?

- A. By prioritizing Azure ExpressRoute traffic over other network traffic
- B. By using public internet connections for enhanced routing flexibility
- C. By establishing dedicated private connections to Azure data centers
- D. By relying on load balancing to dynamically optimize latency

Answer: C

Explanation:

Azure ExpressRoute provides dedicated private connections between on-premises infrastructure and Azure data centers, bypassing the public internet. This results in more predictable latency, higher reliability, and better security, making it ideal for mission-critical workloads.

NEW QUESTION # 26

Refer to the exhibits.

SDN debug output

```
azr: sdn connector settings LABSDN updated
azr: update sdn connector LABSDN status to enabled
azr: sdn connector settings LABSDN updated
azd sdn connector LABSDN prepare to update
azd sdn connector LABSDN getting token
token size: 1306
token expire in: 3600 seconds
azd sdn connector LABSDN start updating
azd sdn connector LABSDN start updater process 2832
azd sdn connector LABSDN found 3 NICs from Azure
azd sdn connector LABSDN get page 1 of vm list
azd vm list page size: 2
azd sdn connector LABSDN found 2 VMs from Azure
azd sdn connector LABSDN start updating IP addresses
azd checking firewall address object UbuntuServer, vd 0
  address UbuntuServer num change 0/1, new ip list:
    172.16.2.4
azd checking firewall address object webServer, vd 0
azd sdn connector LABSDN finish updating IP addresses
azd reap child pid: 2832
```

Dynamic firewall address status

Address	 webServer
Type	Dynamic
Sub Type	Fabric Connector
SDN Connector	 LABSDN
Filter	category=windows
Interface	☐ any
References	0
 View Matched Addresses 	

Dynamic firewall address status

Address	UbuntuServer
Type	Dynamic
Sub Type	Fabric Connector Address
SDN Connector	LABSON
Filter	Tag.category=server
Interface	☐ any
References	0
View Matched Addresses	

Two new dynamic firewall addresses have been configured on the FortiGate VM using the external connector to Integrate within the same Azure environment.

The debug output shows that one IP address can be resolved successfully, but the second is empty.

Which steps could you perform to correct the misconfiguration? (Choose all that apply.)

- A. Check for a mistyped Microsoft Entra ID subscription
- **B. Verify the tags on the target VM**
- C. Verify the NSG for the target VM
- D. Verify the Microsoft Entra ID role assignment access rights
- **E. Verify the filter used for the dynamic firewall address**

Answer: B,E

Explanation:

The debug output shows that the UbuntuServer address object successfully resolved an IP, while the webServer did not. The most likely cause is a mismatch in the dynamic address filter or missing tags on the target VM.

Verify the filter used for the dynamic firewall address - The filter category=windows may not match any VM metadata, resulting in no matched addresses.

Verify the tags on the target VM - Ensure that the VM has the correct tags (e.g., category=windows) that match the dynamic address filter to enable resolution.

NEW QUESTION # 27

What is the primary purpose of enabling the IP forwarding setting on FortiGate in Azure?

- A. To disable network security group (NSG) rules
- B. To prevent source and destination checks on network interfaces
- **C. To enable the VM to act as a router**
- D. To block incoming and outgoing network traffic

Answer: C

Explanation:

Enabling the IP forwarding setting on FortiGate (or any NVA) in Azure allows the VM to route traffic that is not destined for itself,

effectively enabling it to act as arouter or firewall. This is essential for scenarios where FortiGate inspects or filters traffic between subnets or from on-premises to Azure.

NEW QUESTION # 28

Refer to the exhibits.

```
FGTlab-FGT-A # diagnose sniffer packet any 'port 88' 4

FGTlab-FGT-A #
FGTlab-FGT-A #
FGTlab-FGT-A #
```

A high availability (HA) active-active FortiGate with Elastic Load Balancing (ELB) and Internal Load Balancing (ILB) was deployed with a default setup to filter traffic to a Linux server running Apache server.

Ports 80 and 22 are open on the Linux server, and on FortiGate a VIP and firewall policy are configured to allow traffic through ports 80 and 22. Traffic on port 80 is successful, but traffic on port 22 is not detected by FortiGate.

What configuration changes could you perform to allow SSH traffic?

- A. Add a new Azure load balancing rule
- B. Configure a customized port under the Frontend IP configuration
- C. Add a new Inbound NAT rule
- D. Include the Linux server in the back-end pool options

Answer: C

Explanation:

Since port 80 traffic is reaching the FortiGate (as shown in the sniffer output) but port 22 traffic is not, the issue lies before the FortiGate, at the Azure Load Balancer level. Azure Load Balancers require an Inbound NAT rule to forward specific ports (like SSH on port 22) to a specific backend VM. Creating a new Inbound NAT rule for port 22 will allow SSH traffic to be properly routed to the FortiGate VM.

NEW QUESTION # 29

In Microsoft Entra ID, what is the primary administrative unit that represents an organization and its relationship with Microsoft's cloud services?

- A. Microsoft Entra tenant
- B. Microsoft Entra subscription
- C. Microsoft Entra domain
- D. Microsoft Entra organization

Answer: A

Explanation:

A Microsoft Entra tenant is the primary administrative unit that represents an organization within Microsoft's identity platform. It defines the boundary for identity management, access control, and resource governance, and serves as the core entity that connects the organization to Microsoft's cloud services such as Azure and Microsoft 365.

NEW QUESTION # 30

.....

If you are boring for current jobs and want to jump out of bottleneck, an IT certification will be a good way out for you. Itcertking offers the highest passing rate of FCP_ZCS-AD-7.4 latest practice exam online to help you restart now. 3-5 years' experience in IT field and a professional certification will help you be qualified for some senior position or management positions. FCP_ZCS-AD-7.4 latest practice exam online can be your first step for Fortinet certification and help you pass exam 100%.

FCP_ZCS-AD-7.4 New Braindumps Files: https://www.itcertking.com/FCP_ZCS-AD-7.4_exam.html

Multiple FCP_ZCS-AD-7.4 Exam questions are available in the market, but Itcertking gives you an edge compared to others, Fortinet Latest FCP_ZCS-AD-7.4 Exam Pattern After having a related certification, some of them encountered better opportunities for development, some went to great companies, and some became professionals in the field, the study guides of Itcertking FCP_ZCS-AD-7.4 New Braindumps Files are there to help you get through the exam without any hassle.

Even just a few front-end pages with a simple Test FCP_ZCS-AD-7.4 Cram service layer and a persistence layer can take many programmers months to produce, The Date Book includes a Look Up feature allowing FCP_ZCS-AD-7.4 you to switch to the Address Book and select a name to enter into a Date Book field.

FCP_ZCS-AD-7.4 questions and answers

Multiple FCP_ZCS-AD-7.4 Exam Questions are available in the market, but Itcertking gives you an edge compared to others, After having a related certification, some of them encountered better opportunities Test FCP_ZCS-AD-7.4 Cram for development, some went to great companies, and some became professionals in the field.

the study guides of Itcertking are there to help you get through the exam without any hassle, You will get a high score with the help of FCP_ZCS-AD-7.4 test online training.

Our FCP_ZCS-AD-7.4 exam questions are specified as one of the most successful training materials in the line.
