Juniper JN0-1103 Related Certifications - JN0-1103 Valid Study Materials

We offer you free update for one year after purchasing, that is to say, in the following year, you will get the updated version for JN0-1103 learning materials for free. And our system will immediately send the latest version to your email address automatically once they update. What's more, the JN0-1103 Learning Materials are high quality, and it will ensure you to pass the exam successfully. Pass guarantee and money back guarantee if you can't pass the exam.

Juniper JN0-1103 Exam Syllabus Topics:

Topic	Details
Topic 1	• Securing the Network: This section of the exam measures the skills of Security Architects and covers essential security design principles. It encompasses general security considerations, strategies for securing data centers and campus WANs, and the implementation of zero-trust security models. Additionally, it delves into Secure Access Service Edge (SASE) frameworks to enhance network security posture.
Topic 2	• Campus and Branch LAN Design: This section of the exam measures skills of LAN Infrastructure Specialists and covers considerations for designing wired campus or branch LANs. It addresses best practices in campus LAN design, modular design approaches, subnet and VLAN planning, and access control mechanisms. The section also introduces Ethernet VPN-Virtual Extensible LAN (EVPN-VXLAN) architectures and discusses campus oversubscription ratios and design architectures.

Topic 3	• Network Management or Reliability: This section of the exam measures skills of Network Operations Center (NOC) Engineers and covers design considerations for ensuring business continuity. Topics include high-resiliency design, implementing link and device-level redundancy, and utilizing technologies like Multihomed Ethernet Segment Identifier Link Aggregation Groups (ESI LAGs) and virtual chassis. The section also explores Juniper SRX firewall redundancy and best practices for campus network redundancy.

Juniper Design - Associate (JNCIA-Design) Sample Questions (Q271-Q276):

NEW QUESTION # 271
Which statement is true in regards to VRRP?

- A. The maximum number of routing devices in a VRRP group is ten.
- B. The maximum number of routing devices in a VRRP group is three.
- C. The maximum number of routing devices in a VRRP group is two.
- D. The maximum number of routing devices in a VRRP group is four.

Answer: C

NEW QUESTION # 272
Which type of platform would be used to correlate data and logs from many different network and security appliances?

- A. QFabric
- B. MX Series routers
- C. Pulse Secure
- D. Juniper Secure Analytics

Answer: D

NEW QUESTION # 273
Which two features does Secure Web Gateway provide? (Choose two.)

- A. firewall services
- B. proxy services
- C. application queuing services
- D. name resolution services

Answer: A,B

Explanation:
A Secure Web Gateway (SWG) provides proxy services to inspect and filter web traffic and includes firewall capabilities to enforce security policies, block threats, and control access to internet resources.

NEW QUESTION # 274
The environmental requirements RFP element contains which two items? (Choose two.)

- A. The number of users and workstation requirements.
- B. A detailed report that describes the facility specifications.
- C. A summary the type of business the customer is in.
- D. An explanation of why a new design is required.

Answer: A,B

NEW QUESTION # 275

Your customer is experiencing problems with session drops and high response time. You are asked to provide redesign suggestions to minimize these problems. You examine the applications that are supported by your customer's network to try to identify problem factors.

Which two factors are important from an application-driven network impact perspective? (Choose two.)

- A. short timers
- B. presence of elephant flows
- C. use of HTTPS protocols by the application
- D. IGP protocols in use

Answer: A,B

NEW QUESTION # 276
......

Our DumpStillValid's JN0-1103 exam training material is the leader of JN0-1103 certification exam. Our JN0-1103 exam training materials is the result of DumpStillValid's experienced IT experts with constant exploration, practice and research for many years. It has high accuracy and wide coverage. If you buy our JN0-1103 Dumps PDF, we guarantee that we will provide one year free renewal service.
