Practice is one of the essential factors in passing the exam. To perform at their best on the real exam, candidates must use Nutanix NCA-6.10 practice test material. To this end, NCA-6.10 has developed three formats to help candidates prepare for their NCA-6.10 exam: desktop-based practice test software, web-based practice test, and a PDF format.

You can install Nutanix NCA-6.10 PRACTICE TEST file and desktop practice test software on your devices and easily start Nutanix Certified Associate v6.10 (NCA-6.10) exam preparation right now. Whereas the "SureTorrent" NCA-6.10 web-based practice test software is concerned, it is a simple browser-based application that works with all the latest web browsers. Just put the link of SureTorrent NCA-6.10 web-based practice test application in your browser and start Nutanix NCA-6.10 exam preparation without wasting further time. The "SureTorrent" is quite confident that you will be the next successful Nutanix Certified Associate v6.10 exam candidate.

Valid NCA-6.10 Exam Online - Test NCA-6.10 Dumps

SureTorrent are specialized in providing our customers with the most reliable and accurate NCA-6.10 exam guide and help them

pass their NCA-6.10 exams by achieve their satisfied scores. With our NCA-6.10 study materials, your exam will be a piece of cake. We have a lasting and sustainable cooperation with customers who are willing to purchase our NCA-6.10 Actual Exam. We try our best to renovate and update our NCA-6.10 study materials in order to help you fill the knowledge gap during your learning process, thus increasing your confidence and success rate.

Nutanix Certified Associate v6.10 Sample Questions (Q77-Q82):

NEW QUESTION # 77

When configuring a physical network switch in Prism Element, what information is required?

- A. SNMP Configuration
- B. NTP Configuration
- C. SMTP Configuration
- D. DNS Configuration

Answer: A

NEW QUESTION # 78

Which feature allows the ability to enable auto-update for NCC?

- A. Pulse
- B. Daily Digest
- C. LCM HTTPS
- D. LCM Auto Inventory

Answer: A

Explanation:

The correct answer is C. Pulse.

Pulse is Nutanix's integrated telemetry and support communication service. When Pulse is enabled, it provides automatic delivery and updates of Nutanix software tools, including the Nutanix Cluster Check (NCC) utility.

This allows the system to automatically download and apply newer versions of NCC without requiring manual intervention.

Clarifications:

* A (LCM HTTPS): Refers to LCM transport protocol, unrelated to NCC updates.

* B (Daily Digest): A reporting feature, not an update mechanism.

* D (LCM Auto Inventory): Related to firmware/software inventory, not to NCC or system utilities.

Prism UI Navigation Path:

Settings > Pulse > Enable Pulse

Official Reference:

* Nutanix NCC Administration Guide

* Nutanix Support FAQ

* Excerpt: "NCC auto-update is available when Pulse is enabled, allowing Nutanix to deliver updated NCC versions directly to the cluster."

NEW QUESTION # 79

An administrator needs to configure a solution that ensures VMs automatically power on in a specific order at the DR site in the event of a disaster.

Which feature will achieve this?

- A. Protection Policy
- B. Category
- C. Recovery Plan
- D. Resource Scheduling

Answer: C

NEW QUESTION # 80

Which workload type would be a good fit for NFS on Objects?

- A. End user computing workloads
- B. Filesystems used for transitory or work spaces
- C. Workloads that are updated frequently
- **D. Large-scale, read heavy workloads**

Answer: D

Explanation:

The correct answer is C. Large-scale, read heavy workloads.

NFS on Objects is a Nutanix feature allowing NFS clients to interact with Nutanix Objects (S3-compatible object storage) by exposing object buckets via NFS v3 protocol. This is ideal for workloads that require:

- * Large-scale access to unstructured data
- * High read concurrency
- * Cost-effective storage for infrequently changed files

Best Use Case:

Backup archives, analytics workloads, image repositories, or video streaming systems with read-heavy profiles.

Clarifications:

- * A (EUC workloads): Typically require fast, low-latency block storage (e.g., vDisks).
- * B (Transitory FS): Better suited for file services like Nutanix Files.
- * D (Frequent updates): Not ideal for object storage via NFS; performance will degrade under frequent write operations.

Official Reference:

- * Nutanix Objects with NFS Gateway - Best Practices
- * Nutanix Documentation Portal - Objects and NFS
- * Excerpt: "NFS on Objects is best suited for large-scale, read-heavy use cases where file system semantics are needed on top of object-based storage."

NEW QUESTION # 81

What is the minimum cluster size for Redundancy Factor 3?

- A. 3 nodes
- B. 6 nodes
- **C. 5 nodes**
- D. 4 nodes

Answer: C

Explanation:

https://portal.nutanix.com/page/documents/details?targetId=Web-Console-Guide-Prism-v5_20:arc-redundancy-factor3-c.html

NEW QUESTION # 82

.....

Our NCA-6.10 exam questions can meet your needs to the maximum extent, and our NCA-6.10 learning materials are designed to the greatest extent from the customer's point of view. So you don't have to worry about the operational complexity. As soon as you enter the learning interface of our system and start practicing our NCA-6.10 Learning Materials on our Windows software, you will find small buttons on the interface.
