- A. Provides benefits realization support
- **B. Creates, maintains and distributes good practice**
- C. Assists with budget control
- D. Identifies, monitors and resolves issues

Answer: B

Explanation:

The Consultancy and Performance Management role's purpose includes creating, maintaining, and distributing good practice, as per the P3O Foundation (2013) manual. Section 3.5.5 states, "The Consultancy and Performance Management function is responsible

for creating, maintaining, and distributing good practice guidance to enhance PPM maturity across the organization." This differs from budget control (A), benefits realization (C), or issue management (D), which are handled by other roles like the Portfolio Analyst or Programme Office. The 2013 edition underscores this role's focus on standardizing processes, supporting P3O's goal of improving performance through shared knowledge. This ensures consistent application of best practices.

- C. Project
- **D. Programme**

Answer: D

A programme is defined as a temporary, flexible organization created to coordinate the implementation of a set of related projects and activities, according to the P3O Foundation (2013) manual. Section 2.1.1 states, "A programme is a temporary flexible organization structure created to coordinate, direct and oversee the implementation of a set of related projects and activities in order to deliver outcomes and benefits aligned with an organization's strategic objectives." This distinguishes it from business as usual (B), which is ongoing operations, projects (C), which are individual initiatives, and portfolios (D), which manage a group of programmes and projects. The 2013 edition emphasizes the programme's role in delivering coordinated change, making A the correct choice. Section 5.3.1 states, "Different offices within a P3O model perform the same functions with varying focuses to deliver appropriate decision support tailored to the needs of their specific customers, such as portfolio or programme teams." This contrasts with prioritization (A), capability understanding (B), or strategic risk (D), which are specific outcomes rather than the reason for focus variation.
