Microsoft Power Platform Functional Consultant Sample Questions (Q167-Q172):

NEW QUESTION # 167

A company is creating a canvas app and a model-driven app to manage their customer accounts.

The canvas app requires a business rule to set the Business Type column to large if the customer size is greater than a specific currency value.

The model-driven app requires a business rule to recommend the account rating be re-evaluated when the account goes on credit hold for this app only.

You need to configure the scope for the business rules.

Which scope should you use? To answer, drag the appropriate scopes to the correct business rules. Each scope may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Scopes	Answer Area	Scope
All forms	Business rule	
Specific form	Business Type column setting for customer size	
Table	Account rating re-evaluation	

Answer:

Explanation:

Scopes	Answer Area	Scope
All forms	Business rule	
Specific form	Business Type column setting for customer size	Table
Table	Account rating re-evaluation	Specific form

Explanation

Box 1: Table

The canvas app requires a business rule to set the Business Type column to large if the customer size is greater than a specific currency value.

Scope the business rule to Entity (Table).

Box 2: Specific form

The model-driven app requires a business rule to recommend the account rating be re-evaluated when the account goes on credit

hold for this app only.

For Model

The scope of the business rule determines which forms the business rule will be applied. You set the scope, according to the following:

If you select this item...

The scope is set to...

Entity- The table and all forms for the table

All Forms- All forms for the table

Specific form (account Main Form, for example) - Just that form

NEW QUESTION # 168

You create a new Power Virtual Agents chatbot for an organization.

Testing and production deployment of the chatbot are not complete.

You need to ensure that appropriate users can access the chatbot.

Which methods should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Method
Test the chatbot with unlicensed internal users	Use the demo website Share the chatbot to each user individually Share the chatbot to a security group containing all users
Allow other licensed internal users to edit the chatbot	Share the chatbot to each user individually Share the chatbot to a security group containing all users Deploy the chatbot to Microsoft Teams in your tenant
Deploy the chatbot to production for public consumption	Embed the chatbot code in an IFrame on your company's public website Deploy the chatbot to Microsoft Teams in your tenant Deploy the chatbot to AppSource

Answer:

Explanation:

Requirement	Method
Test the chatbot with unlicensed internal users	Use the demo website Share the chatbot to each user individually Share the chatbot to a security group containing all users
Allow other licensed internal users to edit the chatbot	Share the chatbot to each user individually Share the chatbot to a security group containing all users Deploy the chatbot to Microsoft Teams in your tenant
Deploy the chatbot to production for public consumption	Embed the chatbot code in an IFrame on your company's public website Deploy the chatbot to Microsoft Teams in your tenant Deploy the chatbot to AppSource

Explanation:

Requirement	Method
Test the chatbot with unlicensed internal users	▼ - Use the demo website - Share the chatbot to each user individually - Share the chatbot to a security group containing all users
Allow other licensed internal users to edit the chatbot	▼ - Share the chatbot to each user individually - Share the chatbot to a security group containing all users - Deploy the chatbot to Microsoft Teams in your tenant
Deploy the chatbot to production for public consumption	▼ - Embed the chatbot code in an IFrame on your company's public website - Deploy the chatbot to Microsoft Teams in your tenant - Deploy the chatbot to AppSource

Box 1: Use the demo website

When publishing the bot to the web, you can publish to a prebuilt demo website (which you can use to share the bot with your teammates and stakeholders) and to your own live website.

Box 2: Share the chatbot to a security group containing all users.

A license for each user, also known as a "per user license" (or "Power Virtual Agent User License" as referred to on the Microsoft 365 admin center), should be assigned to individual users who need access to create and manage chatbots.

To simplify user license management, you can assign licenses to an Azure Active Directory (Azure AD) security group.

Box 3: Embed the chatbot code in an IFrame on your company's public website You can add your bot to a live website as an IFrame. Your live website can be a customer-facing external website or an internal site, like a SharePoint or Yammer site.

NEW QUESTION # 169

A company is implementing a data model by using Dataverse.

The company requires the following columns in a new custom table:

Column name	Requirement
Special Notes	Must contain string data that stores 100 characters and be rendered as a multiline control.
Specification	Must contain string data that stores up to 8,000 characters and be rendered as a multiline control.
Student	Must contain an input control that can store a reference to an account or a contact in the system.
Course type	Must contain a list of predefined options. Users must be able to select only one option.

You need to choose the column type that uses the least amount of database storage for each column.

Which column types should you choose? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Column name	Column type
Special Notes	Multiline Text
Specification	Multiline Text
Student	Lookup
Course Type	Choice

Answer:

Explanation:

Answer Area

Column name	Column type
Special Notes	Multiline Text
Specification	Multiline Text
Student	Lookup
Course Type	Choice

Explanation:

Answer Area

Column name	Column type
Special Notes	Multiline Text
Specification	Multiline Text
Student	Lookup
Course Type	Choice

NEW QUESTION # 170

You need to embedded the check-in solution into the communication solution. To answer, select the appropriate options in the

answer area.

NOTE: Each correct selection is worth one point.

Answer Area

What must you install prior to embedding the check-in solution?

Where must the check-in solution be available within the communication solution?

Visual Studio
App Studio
AI Builder
Common Data Service

chat section of the solution
Microsoft 365 Apps selection grid
in an embedded webpage
in a tab

Answer:

Explanation:

Requirement
