Latest Professional-Cloud-Database-Engineer Test Report | Professional-Cloud-Database-Engineer PDF VCE

BONUS!!! Download part of PrepAwayTest Professional-Cloud-Database-Engineer dumps for free: https://drive.google.com/open?id=1by5AvTCDMLDUHBzbDbNl0OLiVUmyZWEH

What was your original intention of choosing a product? I believe that you must have something you want to get. Professional-Cloud-Database-Engineer exam materials allow you to have greater protection on your dreams. This is due to the high passing rate of our Professional-Cloud-Database-Engineer study questions which is high as 98% to 100%. And our Professional-Cloud-Database-Engineer exam questions own a high quality which is easy to understand and practice. At the same time, our price is charming. Just come and buy it!

When you choose PrepAwayTest's Dumps for your Google Professional-Cloud-Database-Engineer exam preparation, you get the guarantee to pass Professional-Cloud-Database-Engineer exam in your first attempt. We have the best Professional-Cloud-Database-Engineer exam braindumps for guaranteed results. You can never fail Professional-Cloud-Database-Engineer exam if you use our products. We guarantee your success in Professional-Cloud-Database-Engineer exam or get a full refund. You can also get special discount on Professional-Cloud-Database-Engineer Braindumps when bought together. Purchase Professional-Cloud-Database-Engineer braindumps preparation bundle for intense training and highest score. Take Professional-Cloud-Database-Engineer PDF files with you on mobile devices and install Professional-Cloud-Database-Engineer exam practice software on your computer.

Pass Guaranteed Quiz 2025 Google Professional-Cloud-Database-Engineer: Google Cloud Certified - Professional Cloud Database Engineer Unparalleled Latest Test Report

PrepAwayTest has designed Professional-Cloud-Database-Engineer pdf dumps format that is easy to use. Anyone can download Google Professional-Cloud-Database-Engineer pdf questions file and use it from any location or at any time. Google PDF Questions files can be used on laptops, tablets, and smartphones. Moreover, you will get actual Google Professional-Cloud-

Google Cloud Certified - Professional Cloud Database Engineer Sample Questions (Q114-Q119):

NEW QUESTION # 114
You released a popular mobile game and are using a 50 TB Cloud Spanner instance to store game data in a PITR-enabled production environment. When you analyzed the game statistics, you realized that some players are exploiting a loophole to gather more points to get on the leaderboard. Another DBA accidentally ran an emergency bugfix script that corrupted some of the data in the production environment. You need to determine the extent of the data corruption and restore the production environment. What should you do?
(Choose two.)

- A. If the corruption is insignificant, use backup and restore, and specify a recovery timestamp.
- B. If the corruption is significant, perform a stale read and specify a recovery timestamp. Write the results back.
- C. If the corruption is insignificant, perform a stale read and specify a recovery timestamp. Write the results back.
- D. If the corruption is significant, use backup and restore, and specify a recovery timestamp.
- E. If the corruption is significant, use import and export.

Answer: C,D

Explanation:
https://cloud.google.com/spanner/docs/pitr#ways-to-recover
To recover the entire database, backup or export the database specifying a timestamp in the past and then restore or import it to a new database. This is typically used to recover from data corruption issues when you have to revert the entire database to a point-in-time before the corruption occurred.
This part describes significant corruption - A
To recover a portion of the database, perform a stale read specifying a query-condition and timestamp in the past, and then write the results back into the live database. This is typically used for surgical operations on a live database. For example, if you accidentally delete a particular row or incorrectly update a subset of data, you can recover it with this method.
This describes insignificant corruption case - E

NEW QUESTION # 115
Your organization works with sensitive data that requires you to manage your own encryption keys. You are working on a project that stores that data in a Cloud SQL database. You need to ensure that stored data is encrypted with your keys. What should you do?

- A. Use Cloud SQL Auth proxy.
- B. Export data periodically to a Cloud Storage bucket protected by Customer-Supplied Encryption Keys.
- C. Use customer-managed encryption keys with Cloud SQL.
- D. Connect to Cloud SQL using a connection that has SSL encryption.

Answer: C

NEW QUESTION # 116
You are designing a highly available (HA) Cloud SQL for PostgreSQL instance that will be used by 100 databases. Each database contains 80 tables that were migrated from your on-premises environment to Google Cloud. The applications that use these databases are located in multiple regions in the US, and you need to ensure that read and write operations have low latency. What should you do?

- A. Deploy 2 Cloud SQL instances in the us-central1 region, and create read replicas in us-east1 and us-west1.
- B. Deploy 2 Cloud SQL instances in the us-central1 region with HA enabled, and create read replicas in us-east1 and us-west1.
- C. Deploy 4 Cloud SQL instances in the us-central1 region with HA enabled, and create read replicas in us-central1, us-east1, and us-west1.
- D. Deploy 4 Cloud SQL instances in the us-central1 region, and create read replicas in us-central1, us-east1 and us-west1.

Answer: A

NEW QUESTION # 117
Your organization has a busy transactional Cloud SQL for MySQL instance. Your analytics team needs access to the data so they can build monthly sales reports. You need to provide data access to the analytics team without adversely affecting performance. What should you do?

- A. Enable the cloudsql.iam_authentication flag on the primary database instance, and grant read access to required tables to the analytics team.
- B. Create a read replica of the database, enable the cloudsql.iam_authentication flag on the replica, and grant read access to required tables to the analytics team.
- C. Create a read replica of the database, provide the database IP address, username, and password to the analytics team, and grant read access to required tables to the team.
- D. Provide the database IP address, username, and password of the primary database instance to the analytics, team, and grant read access to required tables to the team.

Answer: B

Explanation:
"Read replicas do not have the cloudsql.iam_authentication flag enabled automatically when it is enabled on the primary instance."
https://cloud.google.com/sql/docs/postgres/replication/create-replica#configure_iam_replicas

NEW QUESTION # 118
You are the database administrator of a Cloud SQL for PostgreSQL instance that has pgaudit disabled. Users are complaining that their queries are taking longer to execute and performance has degraded over the past few months. You need to collect and analyze query performance data to help identity slow-running queries.
What should you do?

- A. Use the Query Insights dashboard to identify high execution times.
- B. Review application logs to identify database calls.
- C. White a Logs Explorer query to identify database queries with high execution times.
- D. View Cloud SQL operations to view historical query information.

Answer: A

Explanation:
A Cloud SQL instance configured for HA is also called a regional instance and has a primary and secondary zone within the configured region. Within a regional instance, the configuration is made up of a primary instance and a standby instance. Through synchronous replication to each zone's persistent disk, all writes made to the primary instance are replicated to disks in both zones before a transaction is reported as committed. In the event of an instance or zone failure, the standby instance becomes the new primary instance. Users are then rerouted to the new primary instance. This process is called a failover.

NEW QUESTION # 119
......

Are you worried about you poor life now and again? Are you desired to gain a decent job in the near future? Do you dream of a better life? Do you want to own better treatment in the field? If your answer is yes, please prepare for the Professional-Cloud-Database-Engineer Exam. It is known to us that preparing for the exam carefully and getting the related certification are very important for all people to achieve their dreams in the near future.

Professional-Cloud-Database-Engineer PDF VCE: https://www.prepawaytest.com/Google/Professional-Cloud-Database-Engineer-practice-exam-dumps.html

Our PrepAwayTest Professional-Cloud-Database-Engineer PDF VCE's test questions and answers have 95% similarity with the real exam, Google Latest Professional-Cloud-Database-Engineer Test Report Answer: Yes, Of course, you can pass your exam within the shortest possible time, Google Latest Professional-Cloud-Database-Engineer Test Report If you want to work in the IT field, it is essential to register IT certification exam and get the certificate, Our Professional-Cloud-Database-Engineer exam questions boost 3 versions: PDF version, PC version, APP online version.

Creating Web Pages with a Graphics" Language, Sometimes it may be comforting Professional-Cloud-Database-Engineer PDF VCE to take an exam in the same place as where you trained for the exam, Our PrepAwayTest's test questions and answers have 95% similarity with the real exam.

Pass Guaranteed 2025 Authoritative Google Professional-Cloud-Database-Engineer: Latest Google Cloud Certified - Professional Cloud Database Engineer Test Report

Answer: Yes, Of course, you can pass your exam within the shortest Professional-Cloud-Database-Engineer possible time, If you want to work in the IT field, it is essential to register IT certification exam and get the certificate.

Our Professional-Cloud-Database-Engineer exam questions boost 3 versions: PDF version, PC version, APP online version, If we failed to deliver as advertised, then you can get your money back.
