NEW QUESTION # 269

What is the purpose of the Team Sync?

- A. To coordinate daily work
- B. To identify Iteration goals
- C. To make announcements to the entire ART
- D. To identify ART PI risks

Answer: A

Explanation:

n: The Team Sync is a short meeting (usually 15 minutes or less), typically held about daily, to inspect progress toward the team goals, communicate, and adjust upcoming planned work1. The Team Sync helps the team members align their activities, identify and

resolve impediments, and collaborate effectively. The Team Sync is also an opportunity to share information, celebrate achievements, and foster team spirit. The other options are incorrect because:

* A. The Team Sync is not the place to identify ART PI risks. Risks are identified and managed at the Program level, using the ROAM board and other tools².

* C. The Team Sync is not the place to identify Iteration goals. Iteration goals are defined and agreed upon during the Iteration Planning event, which happens at the beginning of each Iteration³.

* D. The Team Sync is not the place to make announcements to the entire ART. The Team Sync is a team-level event, where only the team members and the Scrum Master participate. Announcements to the entire ART are made during the ART Sync, which is a program-level event that happens weekly or biweekly⁴.
