For consolidation of your learning, our Salesforce Certified Slack Administrator dumps PDF file also provide you sets of practice questions and answers. Doing them again and again, you enrich your knowledge and maximize chances of an outstanding exam success.

Salesforce Certified Slack Administrator Sample Questions (Q117-Q122):

NEW QUESTION # 117

Your company, Alpha Corp, highly prioritizes information security. The company has just set up Slack Connect channels to work with Beta Corp. Slack Connect direct messages (DMs) are disabled at this time.

Given this, your Chief Information Officer (CIO) wants to know whether your organization's users can communicate with external users from Beta Corp using Slack Connect DMs.

What should you tell the CIO?

(Select the best answer.)

- A. Alpha Corp users can DM any Beta Corp users now that the two organizations have been connected.
- B. Alpha Corp users cannot DM anyone from Beta Corp since Slack Connect DMs are disabled.
- C. Alpha Corp users can DM any Beta Corp users that are in the same Slack Connect channels as they are.
- D. Workspace Admins can give access to specific Alpha Corp users to DM with Beta Corp.

Answer: B

Explanation:

Slack clearly states:

"If Slack Connect DMs are disabled for your organization, users cannot initiate or receive direct messages from users in external organizations, even if they share Slack Connect channels." Thus, users cannot DM external users if Connect DMs are disabled, regardless of their presence in shared channels. Options A, B, and D incorrectly suggest DMs would still function. (Reference: Slack Administration Study Guide - Slack Connect Security Settings)

-

NEW QUESTION # 118

What are the main benefits of Workflow Builder? (Choose all that apply.)

- A. Developers and engineers can easily automate efficiencies in their development.
- B. Templates are available for download.
- C. It supports integration with various third-party apps for easy data transfer between services.
- D. Non-developers can easily automate business processes.

Answer: B,C,D

Explanation:

Slack's Workflow Builder is designed to:

"Allow non-developers to automate routine tasks without writing code, support integrations with apps and services for enhanced workflows, and provide templates that users can customize." While developers can use Workflow Builder, it is primarily aimed at non-technical users; developers usually prefer building custom apps or using Slack APIs.

-

NEW QUESTION # 119

Which plan(s) support(s) customizable message and file retention features?

- A. Free, Pro, Business+ and Enterprise Grid
- B. Business+ and Enterprise Grid
- C. Enterprise Grid only
- D. Pro, Business+ and Enterprise Grid

Answer: D

NEW QUESTION # 120

A few months ago, a team of developers at Blue Inc identified a new issue during testing and created a public channel called #bug-cricket to communicate about the issue.

They may need to reference the history in the future. Of note, there has not been any new activity in #bug-cricket for months, and the bug case has been closed.

What should the team do with #bug-cricket?

- A. Convert the channel to private, and then archive it; members of the channel will retain access to the files.
- B. Delete the channel; messages from a deleted channel are still available via search.
- C. Remove all members from the channel, and then archive it; this way, members can find messages via search but will not be able to browse the channel history itself.
- D. Archive the public channel; anyone can still browse the conversation history in Slack, and messages will appear in search results.

Answer: D

Explanation:

The best practice for completed projects that may need to be referenced later is:

"Archive the public channel. Archived channels remain searchable and can be browsed for historical reference, but new posts are disabled." Deleting the channel would risk losing accessibility to discussions, and unnecessary privacy changes would confuse users. (Reference: Slack Administration Study Guide - Channel Archiving and Searchability)

NEW QUESTION # 121

Your Slack Governance Support model includes a group of people designated as Workspace Admins in order to distribute the workload of answering questions and fulfilling requests across multiple admins.

What is a key benefit of setting up a user group for the Workspace Admins?

- A. Any Enterprise Grid member can @mention the user group from any workspace from within the Enterprise Grid org to send a notification to all of the user group members.
- B. People that the team works with in Slack Connect can be added to the user group In order to work more closely with the Workspace Admins on certain Issues.
- C. Any Slack member by default can add themselves to the Workspace Admin user group to follow along with their activities.
- D. Any mention of the Workspace Admin user group will notify all of the group members, allowing any Slack member to send questions to the group.

Answer: A

NEW QUESTION # 122
