Many applicants do not fulfill their dream of becoming professionals because of using outdated exam preparation material. Failure in the Certified AppSec Practitioner Exam leads them to anxiety. If this situation sounds familiar, do not waste time and get your hands on The SecOps Group CAP for exam preparation.

## Exam Prerequisites

You must have at least two years of industrial experience in IT and security authorization, combined with one or more of the seven domains of the CAP objectives. You should demonstrate your IT experience in IT Security, Information Assurance, Information Risk Management, System Administration, and Information Security Policy.

## Security Controls Selection (15%):

- Classify and document inherited and baseline controls;
- Appraise and endorse a security plan.
- Choose and modify security controls – This covers the skills in determining the relevant use of overlays and applicability of the recommended baseline. It also covers the ability of documenting the applicability of security control;
- Develop a monitoring strategy for security control;
