ITFAS-Level-1 Test Topics Pdf - ITFAS-Level-1 Latest Exam Online

It is quite clear that most candidates are at their first try, therefore, in order to let you have a general idea about our ITFAS-Level-1 test engine, we have prepared the free demo in our website. The contents in our free demo are part of the real materials in our ITFAS-Level-1 study engine. Just like the old saying goes "True blue will never strain" You are really welcomed to download the free demo in our website to have the firsthand experience, and then you will find out the unique charm of our ITFAS-Level-1 Actual Exam by yourself.

NICET Inspection and Testing of Fire Alarm Systems Level I Exam Sample Questions (Q20-Q25):

NEW QUESTION # 20

What is the interval of a trouble signal test for retransmission to an off-premises location?

- **A. Annually**
- B. Weekly
- C. Monthly
- D. Semiannually

Answer: A

Explanation:

NFPA 72 requires annual testing to ensure trouble signals are correctly transmitted to the off-premises monitoring location (e.g., central station).

NFPA 72 (2022), Table 14.4.3.2 - Testing Frequencies and Methods:

Under "Off-Premises Transmission Equipment," trouble signals are tested annually.

This ensures that the system will properly report malfunctions.

Correct answer: D. Annually

NEW QUESTION # 21

In private mode systems, what is the audibility requirement?

- A. 15 dBA above ambient
- **B. 10 dBA above ambient**
- C. Minimum 85 dBA
- D. Minimum 75 dBA

Answer: B

Explanation:

Private mode signaling is used in locations not open to the public (e.g., hospitals, certain office buildings).

The audibility requirement for private mode differs from public mode.

NFPA 72 (2022), Section 18.4.5.3:

"For private mode audible appliances, the sound level shall be at least 10 dBA above the average ambient sound level..." This ensures the signal is heard clearly in the intended space without exceeding what's necessary.

Correct answer: C. 10 dBA above ambient

NEW QUESTION # 22

How often are manual fire alarm boxes inspected?

- A. Quarterly
- B. Semiannually
- C. Annually
- **D. Monthly**

Answer: D

Explanation:

Manual fire alarm boxes (pull stations) must be visually inspected monthly to ensure accessibility, visibility, and no physical damage.

NFPA 72 (2022), Table 14.3.1 - Inspection Frequencies:

"Manual fire alarm boxes" Monthly

The inspection verifies the handle is not blocked and the device is clearly labeled.
Correct answer: A. Monthly

NEW QUESTION # 23

With all notification appliances operating, what is the maximum sound pressure level, combined with the ambient sound pressure level, at the minimum hearing distance allowed by code?

- A. 100 dBA
- **B. 105 dBA**
- C. 115 dBA
- D. 110 dBA

Answer: B

Explanation:

NFPA 72 places a maximum allowable sound pressure level to prevent hearing damage or discomfort in occupied areas.

NFPA 72 (2022), Section 18.4.1.5:

"The total sound pressure level produced by the fire alarm system, including ambient noise, shall not exceed 105 dBA at the minimum hearing distance from the audible appliance."

This ensures alarm audibility without causing harm.

Correct answer: B. 105 dBA

NEW QUESTION # 24

Which of the following situations is considered an impairment?

- A. Smoke detector within 4 feet of an air supply diffuser
- B. Intelligible audibility
- **C. Closed sprinkler valve**
- D. Smoke detector within 4 feet of a return air opening

Answer: C

Explanation:

An impairment occurs when part of the life safety system is disabled or rendered ineffective. A closed sprinkler valve directly disables part of the fire suppression system, which meets the definition of an impairment.

NFPA 72 (2022), Section 3.3.149 - Impairment:

"A condition where a fire protection or life safety system or portion thereof is out of service." Smoke detector placement issues may be a code violation but not a system impairment. Intelligible audibility is a positive attribute, not a problem.

Correct answer: A. Closed sprinkler valve

NEW QUESTION # 25

.....

Our ITFAS-Level-1 study questions will update frequently to guarantee that you can get enough test banks and follow the trend in the theory and the practice. That is to say, our product boasts many advantages and to gain a better understanding of our Inspection and Testing of Fire Alarm Systems Level I Exam guide torrent. It is very worthy for you to buy our product and please trust us. If you still can't fully believe us, please read the introduction of the features and the functions of our product as follow.
