GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q12-Q17):

NEW QUESTION # 12
Which of the following should be included in a cybersecurity roadmap for program development?
Response:

- A. A summary of past security incidents without a plan for the future
- B. Short-term and long-term security goals, a timeline for implementation, and metrics for measuring success
- C. Only the budget for security technologies
- D. A list of all employees in the IT department

Answer: B

NEW QUESTION # 13

Your organization has detected unusual network activity suggesting a potential insider threat. However, the employee in question has access to critical systems for legitimate reasons. What steps should you take to investigate and address this potential threat while minimizing disruption to business operations?
Response:

- A. Ignore the threat since the employee has legitimate access
- B. Immediately revoke the employee's access and terminate their employment
- C. Publicly accuse the employee of malicious activity to deter other insiders
- D. Quietly monitor the employee's activity, perform an internal audit, and analyze logs to determine if any malicious actions have taken place before taking further action

Answer: D

NEW QUESTION # 14

Your organization has identified a need to update its access control policy to reflect changes in user roles and new compliance requirements. Several departments have raised concerns about the complexity of the updated policy.
How would you ensure the policy update is effectively implemented while addressing these concerns?
Response:

- A. Implement the policy immediately without consultation
- B. Simplify the policy by removing key compliance requirements
- C. Delay the policy update until all departments agree
- D. Involve department heads in a collaborative review of the policy, provide training sessions to explain the changes, and create documentation that clarifies how the policy affects each department

Answer: D

NEW QUESTION # 15

What is the purpose of conducting a security program gap analysis during development?
Response:

- A. To delay the implementation of new security measures
- B. To eliminate the need for future security audits
- C. To find areas where no improvement is needed
- D. To identify vulnerabilities, risks, and areas where the current security program is not meeting the organization's security needs

Answer: D

NEW QUESTION # 16

When leading a cybersecurity team through a security policy change, which of the following should be a priority for the leader?
Response:

- A. Delegating the responsibility for implementing the change to the lowest-level employees
- B. Ensuring clear communication about the change's purpose and how it aligns with the organization's goals
- C. Focusing solely on the technical details of the change
- D. Ignoring feedback from stakeholders

Answer: B

NEW QUESTION # 17
