You must seize the good chances when it comes. Please remember you are the best.

WGU Information Technology Management QGC1 Sample Questions (Q16-Q21):

NEW QUESTION # 16

What is a benefit of globalization?

- A. Increased competition
- **B. Access to new talent pools**
- C. Costs associated with operating in new geographic areas
- D. Adherence to regulatory requirements

Answer: B

NEW QUESTION # 17

How long does an Agile sprint typically last?

- **A. Two to four weeks**
- B. Three to six weeks
- C. One to two months
- D. Until all sprint goals are completed

Answer: A

Explanation:

In Agile Scrum, a sprint typically lasts two to four weeks. This time-boxed iteration balances being long enough to deliver meaningful work but short enough to allow flexibility and frequent feedback.

Option B: One to two months is too long for a sprint cycle.

Option C: A sprint ends at its time-box, not "until goals are completed." Option D: Three to six weeks exceeds the recommended sprint length.

Thus, the typical sprint length is two to four weeks.

NEW QUESTION # 18

When should a product management team utilize a prototype?

- A. While creating a way to show how the various features in a new application will work together.
- **B. When a preliminary model is needed to seek user feedback**
- C. When testing various user interface designs for a new application
- D. While creating training on a new application for IT Technicians

Answer: B

Explanation:

* Purpose of Prototypes in Product Management:

* Prototypes provide a working model of the product to collect user feedback.

* This helps the product management team refine the application and address usability issues.

* Why Other Options Are Incorrect:

* Option A: Showing feature interaction is a secondary purpose but not the primary reason for using a prototype.

* Option C: Testing user interfaces may involve prototypes, but the main purpose is feedback collection.

* Option D: Prototypes are not typically used for creating training materials.

NEW QUESTION # 19

Why is employee training important in an ethical IT use policy?

- A. To create automatic updates of software patches
- **B. To make employees understand the company's culture and ethical boundaries**
- C. To reduce sensitivity to the accuracy of company communications
- D. To eliminate information management risks

Answer: B

NEW QUESTION # 20

What are two purposes of the IT Strategy Board in any organization? Choose 2 answers.

- **A. Recommend opportunities and actions to benefit the organization**
- B. Recognize the possibility of budget overages before they occur
- C. Report IT issues to the CIO as they arise and implement the CIO's solutions
- **D. Discover and review development in information technology**

- E. Oversee hiring to enhance the implementation of future improvements

Answer: A,D
