CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q131-Q136):

NEW QUESTION # 131
_____ is the collection of laws and regulations on air quality, water quality, endangered wildlife, and other environmental factors.

- A. Environmental Charter
- B. Environmental Constitution
- C. Environmental Prescription
- D. Environmental Legislation

Answer: D

Explanation:
Environmental Legislation encompasses laws and regulations governing air/water quality, wildlife protection, and other ecological factors (e.g., UK's Environmental Protection Act 1990). The CIPS L3M6 module defines it as the legal framework ensuring compliance in supply chains-e.g., emission limits for transport. "Charter" (voluntary agreement), "Constitution" (broader governance), and "Prescription" (specific directive) are less accurate, making "Legislation" the correct LO2 term.

NEW QUESTION # 132
There is no law to control noise pollution.

- A. TRUE
- B. FALSE

Answer: B

Explanation:
Laws to control noise pollution exist globally and nationally, contradicting the statement. The CIPS L3M6 module references examples like the UK's Control of Pollution Act 1974 and EU noise directives, which set limits on acceptable noise levels (e.g., decibels from transport or industry). These regulations mandate mitigation measures (e.g., noise barriers, curfews) and penalties for non-compliance, ensuring environmental protection. In procurement, such laws influence equipment choices and site operations, aligning with LO2's focus on regulatory impacts on supply chains. The presence of these laws makes the statement false.

NEW QUESTION # 133
According to the UN Global Compact, organizations should make sure that they are not complicit in human rights abuses.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
Principle 2 of the UN Global Compact explicitly states that businesses should ensure they are not complicit in human rights abuses. This includes indirect involvement, such as through supply chain partners or business relationships. The CIPS L3M6 module underscores this as a critical aspect of CSR, requiring organizations to conduct due diligence to prevent association with human rights violations, thereby protecting their reputation and ethical standing.

- B. FALSE

Answer: A

NEW QUESTION # 135

Packaging should be as large as possible while still protecting the finished item.

- A. TRUE
- B. FALSE

Answer: B
