

Maximize Your Success with Prep4away Customizable 2V0-32.24 VMware Cloud Operations 8.x Professional V2 Practice Test

P.S. Free & New 2V0-32.24 dumps are available on Google Drive shared by Prep4away: https://drive.google.com/open?id=1C17_nS8hFP0qTid5hKsxCQ2F7uo5BHFD

Evaluate your own mistakes each time you attempt the desktop VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice exam. It expertly is designed 2V0-32.24 practice test software supervised by a team of professionals. There is 24/7 customer service to help you in any situation. You can customize your desired 2V0-32.24 Exam conditions like exam length and the number of questions.

Everybody wants success, but not everyone has a strong mind to persevere in study. If you feel unsatisfied with your present status, our 2V0-32.24 actual exam can help you out. Our products always boast a pass rate as high as 99%. Using our 2V0-32.24 study materials can also save your time in the exam preparation. If you choose our 2V0-32.24 Practice Engine, you are going to get the certification easily. Just make your choice and purchase our 2V0-32.24 training quiz and start your study now!

Prep4away VMware 2V0-32.24 Exam Questions are Verified by Subject Matter Experts

Many people want to be the competent people which can excel in the job in some area and be skillful in applying the knowledge to the practical working in some industry. But the thing is not so easy for them they need many efforts to achieve their goals. Passing the 2V0-32.24 test certification can make them become that kind of people and if you are one of them buying our 2V0-32.24 study materials will help you pass the 2V0-32.24 test smoothly with few efforts needed.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
-------	---------

Topic 1	Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 2	Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 3	VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 4	Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q54-Q59):

NEW QUESTION # 54

Which two types of pre-configured content are provided when deploying a content packs in vRealize Log Insight? (Choose two.)

- A. Recommendation
- B. Reports
- C. Extracted fields
- D. Dashboards
- E. Custom scripts

Answer: B,D

Explanation:

When deploying a content pack in vRealize Log Insight, the following pre-configured content is typically provided:

Dashboards: Content packs often come with pre-configured dashboards that allow users to quickly visualize log data and gain insights based on predefined queries and metrics.

vmware®

NEW QUESTION # 55

When creating a vRealize Operations content endpoint in vRealize Suite Lifecycle Manager what should an administrator configure on the vRealize Operations appliance?

- A. A new file system partition that is shared for storing content exports
- **B. A configuration file with the vRealize Suite Lifecycle Manager server details**
- C. A local user account with the relevant permissions to allow ssh access

- D. A content management agent for capturing the supported types of content

Answer: B

Explanation:

When creating a vRealize Operations content endpoint in vRealize Suite Lifecycle Manager (vRSLCM), an administrator must configure a configuration file that includes the vRealize Suite Lifecycle Manager server details. This allows vRealize Operations to communicate with vRSLCM and facilitates the management of content within vRealize Operations using the Lifecycle Manager.

NEW QUESTION # 56

A vRealize Log Insight (vRLI) administrator wants to search archived logs for certain events. What are the required steps to provide the administrator the ability to search the log messages?

- A. SSH into the vRLI appliance, mount the archiving NFS share then import the archive using CLI.
- B. SSH into the NFS server, mount the archiving partition, then import the archive using CLI to vRLI appliance.
- C. SSH into the NFS server, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.
- D. SSH into the vRLI appliance, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.

Answer: A

Explanation:

To allow the administrator to search archived logs in vRealize Log Insight (vRLI), the logs stored in an NFS share must be imported into the vRLI appliance. The correct steps involve SSHing into the vRLI appliance, mounting the NFS share where the archived logs are stored, and then using the CLI to import the archived logs into the vRLI appliance for searching. This is the standard method for handling archived log files in vRLI.

NEW QUESTION # 57

An administrator is tasked with installing vRealize Log Insight via vRealize Suite Lifecycle Manager in an environment without internet connectivity.

Drag and drop the three correct actions the administrator must complete from the action list on the left and place the actions into the correct sequence on the right. (Choose three.)

Action List	Sequence Order
Register the MyVMware credentials within vRSLCM.	1
Upload the binaries to /storage within vRealize Lifecycle Manager appliance.	2
Download vRealize Log Insight's installer file from Marketplace.	3
Upload the binaries to /data within vRealize Lifecycle Manager appliance.	
Manually download vRealize Log Insight's installer file from VMware Customer Connect.	
Configure the binary mapping to map the Installer using the local location type.	

Answer:

Explanation:

Action List

- 1 Register the MyVMware credentials within vRSLCM.
- 2 Upload the binaries to /storage within vRealize Lifecycle Manager appliance.
- 3 Download vRealize Log Insight's installer file from Marketplace.
- 4 Upload the binaries to /data within vRealize Lifecycle Manager appliance.
- 5 Manually download vRealize Log Insight's installer file from VMware Customer Connect.
- 6 Configure the binary mapping to map the Installer using the local location type.

Sequence Order

- 1 Register the MyVMware credentials within vRSLCM.
- 2 Manually download vRealize Log Insight's installer file from VMware Customer Connect.
- 3 Upload the binaries to /storage within vRealize Lifecycle Manager appliance.

Action List

- 1 Register the MyVMware credentials within vRSLCM.
- 2 Upload the binaries to /storage within vRealize Lifecycle Manager appliance.
- 3 Download vRealize Log Insight's installer file from Marketplace.
- 4 Upload the binaries to /data within vRealize Lifecycle Manager appliance.
- 5 Manually download vRealize Log Insight's installer file from VMware Customer Connect.
- 6 Configure the binary mapping to map the Installer using the local location type.

Sequence Order

- 1 Register the MyVMware credentials within vRSLCM.
- 2 Manually download vRealize Log Insight's installer file from VMware Customer Connect.
- 3 Upload the binaries to /storage within vRealize Lifecycle Manager appliance.

NEW QUESTION # 58

An administrator is attempting to replace the SSL certificate for a vRealize Log Insight (vRLI) deployment. The administrator can only see the Content Management service in the vRealize Suite Lifecycle Manager (vRSLCM) dashboard. Which two roles could the administrator be assigned that will enable them to complete the certificate replacement using vRSLCM? (Choose two.)

- A. Assign the LCM Cloud Admin role in vRSLCM
- B. Assign the Certificate Administrator role in vRSLCM
- C. Assign the Super Admin role in vRLI
- D. Assign the Certificate Admin role in vRLI
- E. Assign the Content Release Manager role in vRSLCM

Answer: A,B

Explanation:

To replace the SSL certificate for a vRealize Log Insight deployment using vRSLCM, the administrator needs sufficient permissions. The Certificate Administrator role in vRSLCM provides the necessary permissions to manage certificates for vRealize products. Additionally, the LCM Cloud Admin role in vRSLCM gives broader administrative rights, including the ability to perform operations related to lifecycle management across the environment, which includes replacing SSL certificates.
