MD-102 Latest Exam Tips, New MD-102 Test Braindumps

It is evident to all that the MD-102 test torrent from our company has a high quality all the time. A lot of people who have bought our products can agree that our MD-102 test questions are very useful for them to get the certification. There have been 99 percent people used our MD-102 exam prep that have passed their exam and get the certification, more importantly, there are signs that this number is increasing slightly. It means that our MD-102 Test Questions are very useful for all people to achieve their dreams, and the high quality of our MD-102 exam prep is one insurmountable problem.

Microsoft Endpoint Administrator Sample Questions (Q189-Q194):

NEW QUESTION # 189

You have a Microsoft 365 subscription that includes Microsoft Intune.

You need to implement a Microsoft Defender for Endpoint solution that meets the following requirements:

* Enforces compliance for Defender for Endpoint by using Conditional Access

* Prevents suspicious scripts from running on devices

What should you configure? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features	Answer Area
☐ A device restriction policy	Enforces compliance:
☒ A security baseline	Prevents suspicious scripts:
☒ An attack surface reduction (ASR) rule	
☐ An Intune connection	

Answer:

Explanation:

Features	Answer Area
☒ A device restriction policy	Enforces compliance:
☒ A security baseline	Prevents suspicious scripts:
☒ An attack surface reduction (ASR) rule	
☒ An Intune connection	

Explanation

Features	Answer Area
☐ A device restriction policy	Enforces compliance:
☐ A security baseline	Prevents suspicious scripts:
☐ An attack surface reduction (ASR) rule	
☒ An Intune connection	

To enforce compliance for Defender for Endpoint by using Conditional Access, you need to configure an Intune connection in the Defender for Endpoint portal. This allows you to use Intune device compliance policies to evaluate the health and compliance status of devices that are enrolled in Defender for Endpoint.

You can then use Conditional Access policies to block or allow access to cloud apps based on the device compliance status.

References:

<https://docs.microsoft.com/en-us/windows/security/threat-protection/microsoft-defender-atp/conditional-access> To prevent suspicious scripts from running on devices, you need to configure an attack surface reduction (ASR) rule in Intune. ASR rules are part of the endpoint protection settings that you can apply to devices by using device configuration profiles. You can use the ASR rule "Block Office applications from creating child processes" to prevent Office applications from launching child processes such as scripts or executables.

NEW QUESTION # 190

Your on-premises network contains an Active Directory Domain Services (AD DS) domain.

You have an Azure subscription that contains a virtual network named VNet1. VNet1 contains five virtual machines and is NOT connected to the on-premises network.

You have a Microsoft 365 subscription that uses Microsoft Intune Suite.

You purchase Windows 365 Enterprise licenses.

You need to deploy Cloud PC. The solution must meet the following requirements:

- * All users must be able to access their Cloud PC at any time without any restrictions.
- * The users must be able to connect to the virtual machines on VNet1.

How should you configure the provisioning policy for Windows 365? To answer, drag the appropriate options to the correct settings. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Options	Answer Area
Azure network connection	Join type:
Enterprise	Network:
Frontline	License type:
Microsoft Entra Hybrid Join	
Microsoft Entra Join	
Microsoft hosted network	

Answer:

Explanation:

Options	Answer Area
Azure network connection	Join type: Microsoft Entra Hybrid Join
Enterprise	Network: Azure network connection
Frontline	License type: Enterprise
Microsoft Entra Hybrid Join	
Microsoft Entra Join	
Microsoft hosted network	

Explanation:

Options	Answer Area
Azure network connection	Join type: Microsoft Entra Hybrid Join
Enterprise	Network: Azure network connection
Frontline	License type: Enterprise
Microsoft Entra Hybrid Join	
Microsoft Entra Join	
Microsoft hosted network	

NEW QUESTION # 191

You have a Microsoft 365 E5 subscription.

You create a new update rings policy named Policy1 as shown in the following exhibit.

Update ring settings [Edit](#)

Update settings

Microsoft product updates	Allow
Windows drivers	Allow
Quality update deferral period (days)	0
Feature update deferral period (days)	30
Upgrade Windows 10 devices to Latest Windows 11 release	No

Set feature update uninstall period (2 - 60 days) 10

Servicing channel General Availability channel

User experience settings

Automatic update behavior

Auto install at maintenance time	
Active hours start	8 AM
Active hours end	5 PM
Restart checks	Allow
Option to pause Windows updates	Enable
Option to check for Windows updates	Enable
Change notification update level	Use the default Windows Update notifications
Use deadline settings	Allow
Deadline for feature updates	30
Deadline for quality updates	0
Grace period	0
Auto reboot before deadline	No

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

Updates that contain fixes and improvements to existing Windows functionality [answer choice].

can be deferred for 30 days
can be deferred indefinitely
can be deferred for 30 days
will be installed immediately

Updates that contain new Windows functionality will be installed within [answer choice] of release.

1 day
1 day
30 days
60 days

Answer:

Explanation:

Answer Area

Updates that contain fixes and improvements to existing Windows functionality [answer choice]

Updates that contain new Windows functionality will be installed within [answer choice] of release.

can be deferred for 30 days
can be deferred indefinitely
can be deferred for 30 days
will be installed immediately

1 day
1 day
30 days
60 days

Explanation:

*Updates that contain fixes and improvements to existing Windows functionality can be deferred for 30 days.

This is because the update rings policy named Policy1 has the "Quality updates deferral period (days)" setting set to 30. This means that quality updates, which include fixes and improvements to existing Windows functionality, can be deferred for up to 30 days from the date they are released by Microsoft. After 30 days, the devices will automatically install the quality updates. References:

<https://docs.microsoft.com/en-us/mem/intune/protect/windows-update-for-business-configure>

*Updates that contain new Windows functionality will be installed within 60 days of release.

This is because the update rings policy named Policy1 has the "Feature updates deferral period (days)" setting set to 60. This means that feature updates, which include new Windows functionality, can be deferred for up to 60 days from the date they are released by Microsoft. After 60 days, the devices will automatically install the feature updates.

NEW QUESTION # 192

You have a Microsoft 365 E5 subscription and a computer that runs Windows 11.

You need to create a customized installation of Microsoft 365 Apps for enterprise.

Which four actions should you perform in sequence? To answer, move the appropriate cmdlets from the list of cmdlets to the answer area and arrange them in the correct order.

Run setup.exe and specify the /packager switch.

Download the Microsoft Office Deployment Tool (ODT) and run the self-extracting executable (.exe) file.

Edit the XML configuration file.

Run setup.exe and specify the /download switch.

Run setup.exe and specify the /configure switch.

Answer:

Explanation:

Answer Area

Download ODT application

Create a configuration file (XML)

setup.exe /download to download the installation files

setup.exe /configure to deploy the application

1 - Download ODT application

2 - Create a configuration file (XML)

3 - setup.exe /download to download the installation files

4 - setup.exe /configure to deploy the application

NEW QUESTION # 193

You have a Microsoft 365 subscription that contains two security groups named Group1 and Group2. Microsoft 365 uses Microsoft Intune Suite.

You use Microsoft Intune to manage devices.

You need to assign roles in Intune to meet the following requirements:

* The members of Group1 must manage Intune roles and assignments.

* The members of Group2 must assign existing apps and policies to users and devices.

The solution must follow the principle of least privilege.

Which role should you assign to each group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Group1:  Microsoft

- Intune Service Administrator
- Help Desk Operator
- Intune Role Administrator
- Intune Service Administrator**
- Policy and Profile Manager

Group2:  Microsoft

- Policy and Profile Manager
- Help Desk Operator
- Intune Role Administrator
- Intune Service Administrator
- Policy and Profile Manager**

Answer:

Explanation:

Answer Area

 Microsoft

Group1:  Microsoft

- Intune Service Administrator
- Help Desk Operator
- Intune Role Administrator**
- Intune Service Administrator**
- Policy and Profile Manager

Group2:  Microsoft

- Policy and Profile Manager
- Help Desk Operator**
- Intune Role Administrator
- Intune Service Administrator
- Policy and Profile Manager

NEW QUESTION # 194

.....

Our MD-102 test torrent keep a look out for new ways to help you approach challenges and succeed in passing the Endpoint Administrator exam. An ancient Chinese proverb states that “The journey of a thousand miles starts with a single step”. To be recognized as the leading international exam bank in the world through our excellent performance, our Endpoint Administrator qualification test are being concentrated on for a long time and have accumulated mass resources and experience in designing study materials. There is plenty of skilled and motivated staff to help you obtain the Endpoint Administrator exam certificate that you are looking forward. We have faith in our professional team and our MD-102 Study Tool, and we also wish you trust us wholeheartedly.
