At QuestionsTube, you can read AI-900 free demo questions in pdf file, so you can check the questions and answers before deciding to download the Microsoft AI-900 practice questions. These free demo questions are parts of the AI-900 exam questions. Download and read them carefully, you will find that the AI-900 test questions of QuestionsTube will be your great learning materials online. Share some AI-900 exam online questions below.

1.DRAG DROP

P.S. Free 2025 Microsoft AI-900 dumps are available on Google Drive shared by VCEPrep: <https://drive.google.com/open?id=1iZrSsEmWB1RyhQCGLPcFbv7ofwXOp4D>

The immediate downloading feature of our AI-900 certification guide is an eminent advantage of our products. Once the pay is done, our customers will receive an e-mail from our company. Our AI-900 exam study materials are available for downloading without any other disturbing requirements as long as you have paid successfully, which is increasingly important to an examinee as he or she has limited time for personal study for the AI-900 Exam. Therefore, our Microsoft Azure AI Fundamentals guide torrent is attributive to high-efficient learning as you will pass the AI-900 exam only after study for 20 to 30 hours.

The AI-900 Certification is ideal for those who are new to the field of AI, as it covers the fundamentals of AI technologies and their applications. It is also suitable for professionals who work in other areas of technology, such as cloud computing and data analytics, and are looking to expand their knowledge.

Only The Valdest AI-900 Valid Exam Tips Can Provide The Promise of Passing Microsoft Azure AI Fundamentals

Love is precious and the price of freedom is higher. Do you think that learning day and night has deprived you of your freedom?

Then let Our AI-900 guide tests free you from the depths of pain. Our study material is a high-quality product launched by the AI-900 platform. And the purpose of our study material is to allow students to pass the professional qualification exams that they hope to see with the least amount of time and effort.

Microsoft Azure AI Fundamentals Sample Questions (Q245-Q250):

NEW QUESTION # 245

Match the machine learning tasks to the appropriate scenarios.

To answer, drag the appropriate task from the column on the left to its scenario on the right. Each task may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Learning Types

- Feature engineering
- Feature selection
- Model deployment
- Model evaluation
- Model training

- Task Examining the values of a confusion matrix
- Task Splitting a date into month, day, and year fields
- Task Picking temperature and pressure to train a weather model

Answer:

Explanation:

Learning Types

- Feature engineering
- Feature selection
- Model deployment
- Model evaluation
- Model training

Answer Area

- Model evaluation Examining the values of a confusion matrix
- Feature engineering Splitting a date into month, day, and year fields
- Feature selection Picking temperature and pressure to train a weather model

<https://docs.microsoft.com/en-us/azure/machine-learning/concept-automated-ml>

NEW QUESTION # 246

Match the Azure Cognitive Services service to the appropriate actions.

To answer, drag the appropriate service from the column on the left to its action on the right. Each service may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Services

- Speech
- Language service
- Translator Text

Answer Area

- Convert a user's speech to text.
- Identify a user's intent.
- Provide a spoken response to the user.

Answer:

Explanation:

Services

- Speech
- Language service
- Translator text

Answer Area

- Speech: Convert a user's speech to text.
- Language service: Identify a user's intent.
- Speech: Provide a spoken response to the user.

NEW QUESTION # 247

Match the facial recognition tasks to the appropriate questions.

To answer, drag the appropriate task from the column on the left to its question on the right. Each task may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Tasks

- grouping
- identification
- similarity
- verification

Answer Area

- Task: Do two images of a face belong to the same person?
- Task: Does this person look like other people?
- Task: Do all the faces belong together?
- Task: Who is this person in this group of people?

Answer:

Explanation:

Tasks

- grouping
- identification
- similarity
- verification

Answer Area

- verification: Do two images of a face belong to the same person?
- similarity: Does this person look like other people?
- grouping: Do all the faces belong together?
- identification: Who is this person in this group of people?

NEW QUESTION # 248

Select the answer that correctly completes the sentence.

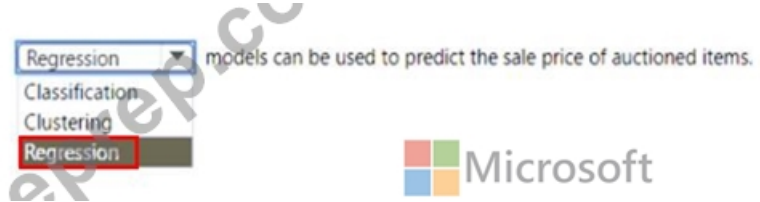

Answer Area

Regression models can be used to predict the sale price of auctioned items.

- Regression
- Classification
- Clustering
- Regression

Answer:

Explanation:
Answer Area

NEW QUESTION # 249

You use Azure Machine Learning designer to publish an inference pipeline.

Which two parameters should you use to consume the pipeline? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. the training endpoint
- B. the model name
- C. the REST endpoint
- D. the authentication key

Answer: C,D

Explanation:

According to the Microsoft Azure AI Fundamentals (AI-900) Official Study Guide and the Microsoft Learn module "Explore Azure Machine Learning", when you publish an inference pipeline (a deployed web service for real-time predictions) using Azure Machine Learning designer, you make the model accessible as a RESTful endpoint. Consumers-such as applications, scripts, or services-interact with this endpoint to submit data and receive predictions.

To securely access this deployed pipeline, two critical parameters are required:

* REST endpoint (Option D):The REST endpoint is a URL automatically generated when the inference pipeline is deployed. It defines the network location where clients send HTTP POST requests containing input data (usually in JSON format). The endpoint routes these requests to the deployed model, which processes the data and returns prediction results. The REST endpoint acts as the primary access point for consuming the model's inferencing capability programmatically.

* Authentication key (Option C):The authentication key (or API key) is a security token provided by Azure to ensure that only authorized users or systems can access the endpoint. When invoking the REST service, the key must be included in the request header (typically as the value of the Authorization header). This mechanism enforces secure, authenticated access to the deployed model.

The other options are incorrect:

* A. The model name is not required to consume the endpoint; it is used internally within the workspace.

* B. The training endpoint is used for training pipelines, not for inference.

Therefore, according to Microsoft's official AI-900 learning objectives and Azure Machine Learning documentation, when consuming a published inference pipeline, you must use both the REST endpoint (D) and the authentication key (C). These parameters ensure secure, controlled, and programmatic access to the deployed AI model for real-time predictions.

NEW QUESTION # 250

.....

In order to allow our customers to better understand our AI-900 quiz prep, we will provide clues for customers to download in order to understand our AI-900 exam torrent in advance and see if our products are suitable for you. As long as you have questions, you can send us an email and we have staff responsible for ensuring 24-hour service to help you solve your problems. If you use our AI-900 Exam Torrent, we will provide you with a comprehensive service to overcome your difficulties and effectively improve your ability. If you can take the time to learn about our AI-900 quiz prep, I believe you will be interested in our products. Our learning materials are practically tested, choosing our AI-900 exam guide, you will get unexpected surprise.
