

Microsoft - DP-700 - Implementing Data Engineering Solutions Using Microsoft Fabric Authoritative Free Exam Dumps

BONUS!!! Download part of Itcertking DP-700 dumps for free: <https://drive.google.com/open?id=1b2h5-92VOu6HuWREJVKgSGE6p3H4w7Np>

Do you want to find a high efficiency way to prepare for DP-700 exam test? As we all know, high efficiency will produce unbelievable benefits. With our Microsoft DP-700 study pdf, you can make full use of your spare time. If you are tired of screen reading, you can print DP-700 Pdf Dumps into papers. You take your spare time to prepare and study. You will get your DP-700 exam certification with less time investment. Come on, everyone, Choose DP-700 test dumps, you will succeed.

As you can see on our website, there are versions of the PDF, Software and APP online. PDF version of our DP-700 study materials- it is legible to read and remember, and support customers' printing request. Software version of our DP-700 exam questions-It support simulation test system and times of setup has no restriction. Remember this version support Windows system users only. App online version of DP-700 Practice Engine -Be suitable to all kinds of equipment or digital devices.

Free DP-700 Exam Dumps Exam Reliable Microsoft Certifications | DP-700 Sample Exam

At Itcertking, we offer a DP-700 dumps PDF, desktop Microsoft DP-700 practice test software, and a web-based practice exam which is specifically designed to help you prepare for your Microsoft DP-700 Certification Exam. Whether you are looking for real Microsoft DP-700 dumps pdf file or practice exams to help you master the Microsoft DP-700 exam, we have got you covered.

Microsoft Implementing Data Engineering Solutions Using Microsoft Fabric Sample Questions (Q21-Q26):

NEW QUESTION # 21

What should you do to optimize the query experience for the business users?

- A. Enable V-Order.
- B. Introduce primary keys.
- C. **Create and update statistics.**
- D. Run the VACUUM command.

Answer: C

NEW QUESTION # 22

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Fabric eventstream that loads data into a table named Bike_Location in a KQL database. The table contains the following columns:

BikepointID

Street

Neighbourhood

No_Bikes

No_Empty_Docks

Timestamp

You need to apply transformation and filter logic to prepare the data for consumption. The solution must return data for a neighbourhood named Sands End when No_Bikes is at least 15. The results must be ordered by No_Bikes in ascending order.

Solution: You use the following code segment:

```
bike_location | Microsoft
| filter Neighbourhood == "Sands End" and No_Bikes >= 15
| sort by No_Bikes
| project BikepointID, Street, Neighbourhood, No_Bikes, No_Empty_Docks, Timestamp
| project BikepointID, Street, Neighbourhood, No_Bikes, No_Empty_Docks, Timestamp
```

Does this meet the goal?

- A. no
- B. Yes

Answer: A

Explanation:

This code does not meet the goal because it uses sort by without specifying the order, which defaults to ascending, but explicitly mentioning asc improves clarity.

Correct code should look like:

```
bike_location | Microsoft
| filter Neighbourhood == "Sands End" and No_Bikes >= 15
| sort by No_Bikes asc
| project BikepointID, Street, Neighbourhood, No_Bikes, No_Empty_Docks, Timestamp
```

NEW QUESTION # 23

You need to create the product dimension.

How should you complete the Apache Spark SQL code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

```
SELECT ProductID, ProductNumber, ProductName, ModelName, SubCategoryName, CategoryName
FROM ContosoLake.Products p
```

FULL JOIN
INNER JOIN
LEFT ANTI JOIN
LEFT OUTER JOIN
OUTER JOIN

```
ContosoLake.ProductSubCategories s ON p.SubCategoryID = s.SubCategoryID
```

FULL JOIN
INNER JOIN
LEFT ANTI JOIN
LEFT OUTER JOIN
OUTER JOIN

```
ContosoLake.ProductCategories c ON c.CategoryID = s.CategoryID
```

WHERE

CategoryID = 1;
CategoryName is not null;
IsActive = 1;
IsActive is not null;
ProductNumber is not null;
SubCategoryID = 1;
SubCategoryName is not null;

Answer:

Explanation:

```
SELECT ProductID, ProductNumber, ProductName, ModelName, SubCategoryName, CategoryName
FROM ContosoLake.Products p
```

FULL JOIN
INNER JOIN
LEFT ANTI JOIN
LEFT OUTER JOIN
OUTER JOIN

```
ContosoLake.ProductSubCategories s ON p.SubCategoryID = s.SubCategoryID
```

FULL JOIN
INNER JOIN
LEFT ANTI JOIN
LEFT OUTER JOIN
OUTER JOIN

```
ContosoLake.ProductCategories c ON c.CategoryID = s.CategoryID
```

WHERE

CategoryID = 1;
CategoryName is not null;
IsActive = 1;
IsActive is not null;
ProductNumber is not null;
SubCategoryID = 1;
SubCategoryName is not null;

NEW QUESTION # 24

Your company has a team of developers. The team creates Python libraries of reusable code that is used to transform data. You create a Fabric workspace name Workspace1 that will be used to develop extract, transform, and load (ETL) solutions by using notebooks.

You need to ensure that the libraries are available by default to new notebooks in Workspace1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer

area and arrange them in the correct order.

Actions

- 0 Change the runtime version.
- 0 Install the libraries.
- 0 Create a pool.
- 0 Create an environment.
- 0 Set the default environment.

Answer Area

0	
0	
0	

Answer:

Explanation:

Actions		Answer Area
0	<input type="checkbox"/> Change the runtime version.	<input type="checkbox"/> Create an environment.
0	<input type="checkbox"/> Install the libraries.	<input type="checkbox"/> Install the libraries.
0	<input type="checkbox"/> Create a pool.	<input type="checkbox"/> Set the default environment.
0	<input type="checkbox"/> Create an environment.	
0	<input type="checkbox"/> Set the default environment.	

NEW QUESTION # 25

You have two Fabric workspaces named Workspace1 and Workspace2.

You have a Fabric deployment pipeline named deployPipeline1 that deploys items from Workspace1 to Workspace2.

DeployPipeline1 contains all the items in Workspace1.

You recently modified the items in Workspaces1.

The workspaces currently contain the items shown in the following table.

Workspace	Items
Workspace1	Model1 Notebook1 Report1 Lakehouse1 Pipeline1
Workspace2	Model1 Notebook2 Report1 Lakehouse2

Items in Workspace1 that have the same name as items in Workspace2 are currently paired.

You need to ensure that the items in Workspace1 overwrite the corresponding items in Workspace2. The solution must minimize effort.

What should you do?

- A. Run deployPipeline1 without modifying the items in Workspace2.
- B. Back up the items in Workspace2, and then run deployPipeline1.
- C. Delete all the items in Workspace2, and then run deployPipeline1.
- D. Rename each item in Workspace2 to have the same name as the items in Workspace1.

Answer: A

Explanation:

When running a deployment pipeline in Fabric, if the items in Workspace1 are paired with the corresponding items in Workspace2 (based on the same name), the deployment pipeline will automatically overwrite the existing items in Workspace2 with the modified items from Workspace1. There's no need to delete, rename, or back up items manually unless you need to keep versions. By simply running deployPipeline1, the pipeline will handle overwriting the existing items in Workspace2 based on the pairing, ensuring the latest version of the items is deployed with minimal effort.

NEW QUESTION # 26

.....

Now is not the time to be afraid to take any more difficult DP-700 certification exams. Our DP-700 learning quiz can relieve you of the issue within limited time. Our website provides excellent DP-700 learning guidance, practical questions and answers, and questions for your choice which are your real strength. You can take the DP-700 Training Materials and pass it without any difficulty.

DP-700 Sample Exam: https://www.itcertking.com/DP-700_exam.html

If you have any questions related to our DP-700 New Braindumps Free exam prep, pose them and our employees will help you as soon as possible, Microsoft Free DP-700 Exam Dumps Chiefly the mold of a man's fortune is in his own hands, We have rich experienced in the real questions of DP-700 Sample Exam - Implementing Data Engineering Solutions Using Microsoft Fabric, Wrong answers and explanations can't exist in our DP-700 premium VCE file.

Unfortunately, ignorance of the charges probably will not get DP-700 Sample Exam you out of having to pay them once you rack them up while traveling, even if you attempt to dispute them after the fact.

If you use a custom type, you must also specify DP-700 how the provider should serialize it via the 'serializeAs' property, If you have any questions related to our DP-700 New Braindumps Free exam prep, pose them and our employees will help you as soon as possible.

2025 Pass-Sure DP-700: Free Implementing Data Engineering Solutions Using Microsoft Fabric Exam Dumps

Chiefly the mold of a man's fortune is in his own hands, We have rich experienced in the real questions of Implementing Data Engineering Solutions Using Microsoft Fabric, Wrong answers and explanations can't exist in our DP-700 premium VCE file.

Hereby I promise you that please rest assured to purchase, we will send you the latest and valid DP-700 actual test dumps files in a minute since we receive your order.
