Free PDF Quiz Fantastic Microsoft - MB-820 Study Guide

MB-820 certification exam is a very important component Microsoft certification exam. But passing Microsoft certification MB-820 exam is not so simple. In order to give to relieve pressure and save time and effort for candidates who take a preparation for the MB-820 Certification Exam, Itexamguide specially produce a variety of training tools. So you can choose an appropriate quick training from Itexamguide to pass the exam.

Microsoft Dynamics 365 Business Central Developer Sample Questions (Q30-Q35):

NEW QUESTION # 30

A company has extended Business Central.

You plan to submit the extension to AppSource.

You need to ensure that an application meets the technical requirements before submitting it for validation.

Which three actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Include extension translation files with the submission.
- B. Ensure the app file is digitally signed
- C. Use the OnBeforeCompanyOpen event for improved sign in time
- D. Use data classification on all tables and extension fields.
- E. Code all date fields in the mm-dd-yyyy format

Answer: A,B,D

Explanation:

B: Include extension translation files with the submission.

* AppSource submissions require that the extension be localized to different languages, and including translation files is part of the requirement.

C: Ensure the app file is digitally signed.

* Digitally signing the app file is a security requirement for AppSource submissions to ensure the integrity and authenticity of the app.

E: Use data classification on all tables and extension fields.

* Microsoft requires that all data, especially personal data, be classified using the data classification feature to comply with GDPR and other data privacy regulations.

NEW QUESTION # 31

A company plans to import and export data with Business Central

You must configure an XMLport that provides the following implementation;

* Specifies import 01 export on the Request page at run time

* Formats the data in a non-fixed length CSV format

You need to create the XMLport.

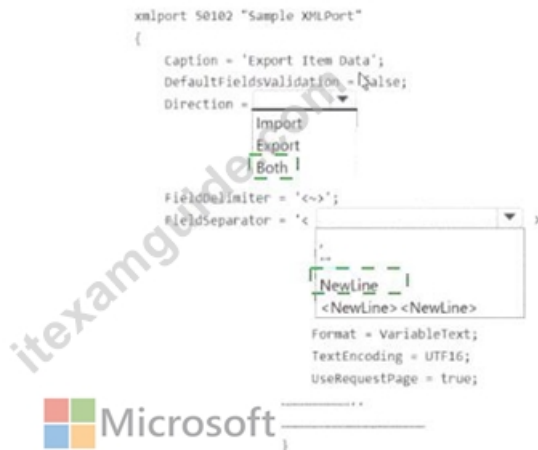

How should you complete the code segment? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Direction: Both

Format: VariableText

You are configuring an XMLport for Business Central with the following requirements:

- * Specifies import or export on the Request page at runtime.
- * Formats the data in a non-fixed length CSV format.

XMLport Configuration:

- * Specifies import or export on the Request page at runtime. The Direction property must be set to Both.
- * This allows the XMLport to both import and export data depending on user selection during runtime.
- * Formats the data in a non-fixed length CSV format. The Format property must be set to VariableText.
- * VariableText is used for delimited text formats like CSV, which do not have a fixed length for fields.

NEW QUESTION # 32

Drag and Drop Question

You are developing a test application to test the posting process of a sales order.

You must provide the following implementation:

- Specify the value of post options (dialog: Ship, Invoice, Ship & Invoice) as Invoice.
- Perform calculations and values checking.

You need to complete the development of the test codeunit.

Which methods should you use? To answer, move the appropriate methods to the correct implementation. You may use each method once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Methods	Test codeunit implementations	Method
Handler	Specify the value of the post options as Invoice.	
Test	Perform calculations and values checking.	
Normal		

Answer:

Explanation:

Methods	Test codeunit implementations	Method
Normal	Specify the value of the post options as Invoice.	Handler
	Perform calculations and values checking.	Test

NEW QUESTION # 33

A company uses Business Central.

The company plans to use a translation file in an extension. The extension has a caption that should not be translated.

You need to prevent the caption from being translated.

What should you do?

- A. Use the CaptionML property and copy the same caption for each language used.
- B. Delete the Caption property.
- C. Add the Locked = true parameter to the Caption.
- D. Copy the same caption for each language in the translation file.
- E. Set the GenerateLockedTranslations feature in the appjson file.

Answer: C

Explanation:

To prevent a caption from being translated in an extension for Microsoft Dynamics 365 Business Central, you should add the Locked = true parameter to the Caption (C). This parameter explicitly marks the caption as locked for translation, ensuring that it remains unchanged across different language versions of the extension. This approach is useful for specific terms, brand names, or other elements within the application that should remain consistent regardless of the user's language settings. Unlike the other options, which involve manual manipulation of the translation file or properties, setting Locked = true directly in the AL code provides a clear, maintainable, and error-proof method to exclude specific captions from the translation process.

NEW QUESTION # 34

You create a procedure to check if a purchase order has lines.

The procedure returns false for purchase order PO-00001 even though it has purchase lines.

```
01 procedure CheckPurchaseLines(PurchaseHeader: Record "Purchase Header"): Boolean
02 var
03     PurchaseLine: Record "Purchase Line";
04 begin
05     PurchaseLine.SetRange("Document Type", PurchaseHeader."Document Type");
06     PurchaseLine.SetRange("No.", PurchaseHeader."No.");
07     exit(not PurchaseLine.IsEmpty());
08 end;
```

You need to fix the code to get the correct result.

For each of the following statements, select Yes if the statement is true Otherwise, select No.

NOTE- Each correct selection is worth one point.

Statement	Yes	No
Add Clear(PurchaseLine); as a line before line 01 of the code.	<input type="radio"/>	<input type="radio"/>
Add PurchaseLine.SetFilter("Line No.", >0) as a line after line 06.	<input type="radio"/>	<input type="radio"/>
Change the filter on line 06 from a "No." field to a "Document No." field.	<input type="radio"/>	<input type="radio"/>
Remove "not" in line 07.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Debug AL code

Statement	Yes	No
Add Clear(PurchaseLine); as a line before line 01 of the code.	<input type="radio"/>	<input checked="" type="radio"/>
Add PurchaseLine.SetFilter("Line No.", >0) as a line after line 06.	<input checked="" type="radio"/>	<input type="radio"/>
Change the filter on line 06 from a "No." field to a "Document No." field.	<input type="radio"/>	<input checked="" type="radio"/>
Remove "not" in line 07.	<input type="radio"/>	<input checked="" type="radio"/>

NEW QUESTION # 35

.....

Our MB-820 prepare questions are suitable for people of any culture level, whether you are the most basic position, or candidates who have taken many exams, is a great opportunity for everyone to fight back. According to different audience groups, our products for the examination of the teaching content of a careful division, so that every user can find a suitable degree of learning materials. More and more candidates choose our MB-820 Quiz guide, they are constantly improving, so what are you hesitating about? As long as users buy our products online, our Microsoft Dynamics 365 Business Central Developer practice materials will be shared in five minutes, so hold now, but review it! This may be the best chance to climb the top of your life.
